### **SUMMARY**

Upon retiring my business in 2012 after 29 years, I still have a strong desire to stay active within the construction industry. Serving on Dispute Resolution boards seems like the perfect opportunity to remain involved. As a business owner, I have experienced and effectively resolved a variety of conflicts and disputes on our projects through the years. In addition, my experiences serving as President of EUCA/United Contractors, and as a Board Member and member of the Past Presidents Council, provided me with additional opportunities to problem solve and resolve disputes at a different level. I have found working with owners and addressing a range of issues to be both challenging and rewarding. These experiences, along with the ability to work with people in a fair and objective way, would make me a strong candidate for any Dispute Resolution Board.
