OBJECTIVE:

For consideration as a DRB Chairman

CREDENTIALS:

Registered Professional Engineer in the State of California.

EXPERIENCE:

April 2001 to date

Member of Dispute Resolution Boards in Caltrans' District 7 , District 8 , District 11, District 12 and County of San Diego. I currently serve as chairman on 7 of these boards. The nature of some of the claims I have contributed to resolution recommendations are as follows: Differing site conditions, defective specification, suspension of work, staging delays, work over water delays, defective specifications, interpretation of specifications, traffic control devices and penalties for late removal, cooperation with adjacent contractors, SWPPP amendments and violations, pavement rehabilitation, soil stabilization, roadway excavation and embankment, right of way delays, electrical and landscape issues, inefficiencies due to changes to the contract, aerially deposited lead compliance, CPM and TIA analysis, regulatory agency permit compliance, work site inundation, existing utility conflicts and more.

April 2, 2001 to June 30, 2008

Employer: LAN Engineering (Retired)

Position: Personnel Quality Assurance Manager

Duties: Manage engineering construction personnel for various agencies involved with bridge construction projects.

1993 to retirement on December 30, 2000

Employer: State of California

Position: Area Construction Manager, Office Chief
Division of Structure Construction

Duties: Manage construction personnel's quality assurance program, contract administration for Structures related construction projects, training, staffing and personnel evaluations. Area of Responsibility is the four southern California Counties of San Bernardino, Riverside Imperial and San Diego and include all State owned structures under construction as well as Oversight of all local agency structures under construction within State right-of-way.

Applicable experience for DRBs: Participated as both member and chair of more than 20 District Boards of Review for contract claims resolution. Numerous District's informal claims hearings and continuous field level dispute mitigations.

1988 to 1993

Employer: State of California

Position: Senior Bridge Engineer
Office of Structure Construction

Duties: Chief structures engineer for the I-105/I-110 Interchange in Los Angeles
And the I-110 transit way viaduct at Rte 91 also in Los Angeles.

Responsibilities include:

Supervise staff of 25 to 30 engineers during construction of these projects with regard to construction inspection, surveying, contract administration, traffic control and claims resolution. Value of Structures work on these projects was approximately 120 million dollars.

Presented evidence and testimony to what may have been the first DRB in Caltrans history for the I-110 transit way in Los Angeles.

1979 to 1988

Employer: State of California

Position: Associate Bridge Engineer
Office of Structure Construction

Duties: Structures Representative for freeway projects with structure construction in San Diego County .

Responsibilities included:

Supervising staff of up to 10 engineers on various freeway construction projects which Include: I-5 at Mexican Boarder, Rte 78/15 Interchange in Escondido, **Lilac Road Arch Overcrossing on I-15**, Rte 56/15 Interchange, Rte 52/15 Interchange and I-15 reversible HOV lanes.

1967 to 1979

Employer: State of California

Position: Assistant Bridge Engineer
Office of Structure Construction

Duties: Provide structure related construction inspection services on numerous freeway projects

in Los Angeles, Orange and San Diego Counties.

Skill and knowledge of falsework analysis and inspection, surveying techniques, box girder Construction, pre and post tension pre stressing , structural steel erection and contract Administration.

1961 to 1967

Employer: State of California

Position: Transportation Engineering Technician
Division of Highways

Duties: Freeway construction surveying from rear chainman to party chief in Los Angeles and Orange Counties.

EDUCATION:
