

Resume of RONALD P. READING
Construction Consultant
2962 Saklan Indian Dr.
Walnut Creek, CA 94595
Tel. 925-464-7611

Summary Mr. Reading has 40 years of progressive experience in heavy civil engineering construction with an extensive background in project management.

Experience: **Consultant** 2002-present
Since retiring Mr. Reading has been consulting with various construction and bonding companies to assist them in maintaining better control over their organizational resources.

DILLINGHAM CONSTRUCTION CORPORATION 1997-2002
Retired

Vice President-Operations, Dillingham Construction N.A. Inc.
Pleasanton, California. Responsible for project performance and estimating, all heavy civil projects in North America.

R.G.W. CONSTRUCTION COMPANY 1990-1997

President and Chief Operating Officer, Corporate Headquarters,
Fremont, California. Responsible for all operations of a privately held company doing business in Northern California. Private and public projects, including structures, grading, paving and underground work.

BALL, BALL AND BROSAMER, INC. 1972-1990

Vice President, Operations, Corporate Headquarters, Danville
California. Operations Manager over numerous freeway, airport and canal projects. Responsible for overall performance of the projects, and preparing and negotiating contract change orders and claims.

Project Manager
Responsibility for management of large projects through out the Western States. The largest was the Coachella Canal Reaches 1A and 1B. This project consisted of 5,500,000 cubic yards of excavation, 6 large, 19 ft. diameter cast-in-place concrete pipe siphons, plus a 100,000 linear ft. dewatering system.

GORDON H. BALL, INC. 1963-1972

Concrete Paving Manager, Project Engineer, Various Projects,
Corporate Headquarters, Danville, California. Duties included estimating and overall responsibility for canal, airport, and freeway concrete paving projects.

- Member Cal-Trans/ AGC State Liaison Committee 1998-2002
- Completion of DRB Adm. Practice and Chairing Workshops
