

RESUME

NAME: WILBURT H. HINTON II

EDUCATION: University of Colorado
B.S. Architectural Engineering - 1964
M.B.A. - 1974

HONORS: Beta Gamma Sigma National Business Scholastic Honorary - 1973

PROFESSIONAL: Registered Professional Engineer - Colorado
Licensed General Contractor – Florida
American Arbitration Association National Roster of Neutrals
Dispute Resolution Board Foundation – Board of Directors
American Society of Civil Engineers – Life Member

GENERAL: With a strong background in engineering and construction, I have a firm foundation for management and administration positions. I have a broad knowledge of all construction contract and operations areas with strong scheduling and cost capabilities which should be a valuable resource to clients and fellow construction associates. I am active in several industry and professional organizations and have held both national and local leadership positions.

In the area of corporate administration I have managed benefit and retirement programs, general and auto liability insurance, workman's compensation and contractor's equipment insurance. I have overseen contract and subcontract preparation and administration, legal issues, claims and personnel administration. I have developed policy and procedure manuals and coordinated strategic planning. I have overseen the accounting and payroll departments and have developed annual budgets.

As an arbitrator and Dispute Review Board member, I have experience in settling disputes; however, I am a strong believer in parties settling their differences rather than resorting to arbitration or litigation.

CONSTRUCTION EXPERIENCE:

I have managed bridge and highway projects, heavy and industrial projects, as well as commercial projects both as project manager and superintendent. I have also held executive management positions overseeing corporate administrative and operational areas.

Representative projects are:

- Bureau of Reclamation Pumping Plants - Central Arizona Project
- Intermountain Power Project - Delta, UT
- Department of Energy Manufacturing Facilities - Amarillo, TX
- Colorado Ute Power Plant - Craig, CO
- Climax Molybdenum Facility - Leadville, CO
- Las Vegas Street Wastewater Plant - Colorado Springs, CO

Cherokee Expressway Bridges - Tulsa, OK
Shopping Center- Ft. Carson, CO
Marriott Hotel and Parking Garage - Denver, CO
Power Plant Rail Spur and Bridges - Sutherland, NE
Denver International Airport Runway Expansion
COSMIX: I-25 Reconstruction – Colorado Springs, CO
Colorado Department of Transportation – Numerous Projects
Florida Department of Transportation – Numerous Projects

PERSONAL: Married with four sons who have all graduated from college. Excellent health.
Enjoy most outdoor sports.
