

2015 Construction Contract Standards

May 18, 2016, 10 AM – Noon

Many contractors and resident engineers will soon be working on contracts under the Caltrans 2015 Standards, which are similar in format to the 2010 Standards. However, there are some changes to the Standard Specifications organization, including the divisions and sections.

This webcast on the Caltrans 2015 Construction Contract Standards will include a presentation, followed by questions and answers. The presentation will include:

- How do the construction contract standards work?
- Payment – how is work paid for?
- Changes in 2015 Standards – where did that specification go?

You will have the opportunity to participate by submitting online questions to the presentation team during the webcast. Send your questions to the dedicated e-mail address shown on the right.

WHO SHOULD ATTEND?

The webcast should be attended by staff from Caltrans, contractors, and local agencies who use the Caltrans Construction Standards.

ATTEND THE WEBCAST AT:

[HTTP://CTMEDIA.DOT.CA.GOV](http://CTMEDIA.DOT.CA.GOV)

REGISTER AT:

<http://2015standardsreg.eventbrite.com>

This webcast will be recorded and posted for viewing by those who cannot attend.

Email questions before, during, and after the webcast to:
