- ★ Post Construction Storm Water Performance Standards
- ★ Risk Assessment Appendix 1 Worksheet
- ★ Minimum BMP & Requirement Specified
- ★ Rain Event Action Plan
- ★ Annual Reporting

Storm Water Pollution Plan (SWPPP) is required for all construction activity resulting in a land disturbance of one acre or more, or less than one acre but part of a larger common plan of development or sale. Construction activity includes clearing, grading, excavation, stockpiling, and reconstruction of existing facilities involving removal and replacement. Construction activity does not include routine maintenance such as, maintenance of original line and grade, hydraulic capacity, or original purpose of the facility.

Effective July 1, 2010 all dischargers are required to obtain coverage under the Construction General Permit Order 2009-0009-DWQ adopted on September 2, 2009.

A STORM WATER INDUSTRY LEADER!

Global Environmental Network, Inc. (GENI) is considered by many an Industry Benchmark for other companies to set their goals against. GENI has been providing the SWPPP training since the inception of the formal SWPPP training through CALTRANS. GENI has trained thousands of students from hundreds of companies across the State of CA. recognized as a leader in SWPPP training, our Lead Instructor, Bruce Lokkesmoe, CPESC holds a seat on several CASQA sub-committees for the new general permit.

Training meets the CALTRANS requirement of 24 Hour Storm Water Training for the Water Pollution Control Manager

Global Environmental Network, Inc.

The new General Permit adopted by California for Stormwater discharges associated with Construction and Land Disturbance Activities. This permit will affect how projects are reported, monitored, maintained, Implemented and designed. It became effective on July 1, 2010. New qualifications are required to be a QSD or QSP.
