F. Licenses and Permits

1. The Consultant shall obtain at its expense all license(s) and permit(s) required by law for accomplishing any work required in connection with this Agreement.

II. TASK ORDER

- A. Specific projects will be assigned to the Consultant through issuance of Task Orders. See sample Task Order format, Attachment 3.
- B. After a project to be performed under this Agreement is identified by the Department, the Department will prepare a draft Task Order, less the cost estimate. The draft Task Order will identify the scope of services, expected results, project deliverables, period of performance, project schedule and will designate a Department of Transportation Project Coordinator. The draft Task Order will be delivered to the Consultant for review. The Consultant shall return the draft Task Order within no more than ten (10) calendar days along with a cost estimate including a written estimate of the number of hours per staff person, any anticipated reimbursable expenses, and total dollar amount. The Consultant agrees that each cost estimate shall be the product of a good faith effort exercise of engineering judgment. The WBS is included in the Guide to Project Delivery Workplan Standards, which can be found at <http://www.dot.ca.gov/hq/projmgmt/guidance.htm>.

Progress payments will be made monthly in arrears based on services provided at specific hourly rates and allowable direct cost incurred for Task Orders negotiated with specific rates of compensation. Progress payments for Firm Fixed Price Task Orders will be based on the percentage of work completed.
 - 2. To determine allowable incurred Subconsultant costs that are eligible for reimbursement, in addition to reimbursement for actual costs that are incurred, the Department will allow Subconsultant costs that are treated by the Consultant as accrued due to such costs having been billed to the Consultant and recognized by the Consultant and the Department as valid, undisputed, due and payable.
 - 3. By submitting accrued but unpaid Subconsultant costs for reimbursement, the Consultant agrees that within ten (10) days of receipt of reimbursement, the full amount submitted as a reimbursable accrued Subconsultant cost shall be paid to the Subconsultant.

EXHIBIT E
ADDITIONAL PROVISIONS

I. DISADVANTAGED BUSINESS ENTERPRISE (DBE) PARTICIPATION

- A. This Agreement is subject to Title 49, Part 26 of the Code of Federal Regulations entitled "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs." Consultants who obtain DBE participation on this Agreement will assist the state in meeting its federally mandated statewide overall DBE goal.
- B. DBE and other small businesses (SB), as defined in Title 49 CFR, Part 26 are encouraged to participate in the performance of agreements financed in whole or in part with Federal funds. The Consultant, sub recipient or subconsultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Agreement. The Consultant shall carry out applicable requirements of 49 CFR part 26 in the award and administration of US DOT- assisted agreements. Failure by the Consultant to carry out these requirements is a material breach of this Agreement, which may result in the termination of this Agreement or such other remedy as the recipient deems appropriate.
- C. As required by federal law, the Department has established a statewide overall DBE goal. In order to ascertain whether that statewide overall DBE goal is being achieved, the Department is tracking DBE participation on all Federal-aid contracts.
- D. The ADM-0227F, DBE Participation form is attached as Attachment 4 and incorporated as part of this Agreement.
- E. The Consultant should notify the Department's Contract Manager, in writing, of any changes to its anticipated DBE participation. This notice should be provided prior to the commencement of that portion of the work.

EXHIBIT E
ADDITIONAL PROVISIONS

II. PERFORMANCE OF DBE CONSULTANTS, AND OTHER DBE
SUBCONSULTANTS/SUPPLIERS

- A. A DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, Agreement, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, examine similar transactions, particularly those in which DBEs do not participate.
- B. If a DBE does not perform or exercise responsibility for at least 30 percent of the total cost of its Agreement with its own work force, or the DBE subcontracts a greater portion of the work of the Agreement than would be expected on the basis of normal industry practice for the type of work involved, presume that it is not performing a commercially useful function.

III. EXCLUSION OF RETENTION

- A. In conformance with 49 CFR, Part 26, Subpart B, Section 26.29 (b)(1), the retention of proceeds required by Public Contract Code (PCC), Section 10261 shall not apply. In conformance with PCC, Section 7200 (b), in subcontracts between the Consultant and a subconsultant and in subcontracts between a subcontractor and any subcontractor thereunder, retention proceeds shall not be withheld, and the exceptions provided in PCC 7200 (c), shall not apply. At the option of the Consultant, subcontractors may be required to furnish payment and performance bonds issued by an admitted surety insurer.
- B. Any subagreement entered into as a result of this Agreement shall contain all of the provisions of this section.

- A. The Consultant shall maintain records of materials purchased and/or supplied from all subagreements entered into with certified DBEs. The records shall show the name and business address of each DBE or

EXHIBIT E
ADDITIONAL PROVISIONS

vendor and the total dollar amount actually paid each DBE or vendor, regardless of tier. The records shall show the date of payment and the total dollar figure paid to all firms. DBE prime Consultants shall also show the date of work performed by their own forces along with the corresponding dollar value of the work.

- B. Upon completion of the Agreement, a summary of these records shall be prepared and submitted on the form entitled, "Final Report- Utilization of Disadvantaged Business Enterprises (DBE)," CEM-2402F, and certified correct by the Consultant or the Consultant's authorized representative, and shall be furnished to the Department's Contract Manager. The form shall be furnished to the Department's Contract Manager with the final invoice. Failure to provide the summary of DBE payments with the final invoice will result in twenty-five percent (25%) of the dollar value of the invoice being withheld from payment until the form is submitted. The amount will be returned to the Consultant when a satisfactory Final Report Utilization of Disadvantaged Business Enterprises (DBE) is submitted to the Department's Contract Manager.

V. DBE CERTIFICATION AND DE-CERTIFICATION STATUS

If a DBE subconsultant is decertified during the life of the Agreement, the decertified subconsultant shall notify the Consultant in writing with the date of de-certification. If a subconsultant becomes a certified DBE during the life of the Agreement, the subconsultant shall notify the Consultant in writing with the date of certification. Any changes should be reported to the Department's Contract Manager within 30 days.

VI. WHEN REPORTING DBE PARTICIPATION, MATERIAL OR SUPPLIES PURCHASED FROM DBES MAY COUNT AS FOLLOWS:

- A. If the materials or supplies are obtained from a DBE manufacturer, 100 percent of the cost of the materials or supplies will count toward the DBE participation. A DBE manufacturer is a firm that operates or maintains a factory or establishment that produces, on the premises, the materials, supplies, articles, or equipment required under the Agreement and of the general character described by the specifications.

EXHIBIT E
ADDITIONAL PROVISIONS

- B. If the materials or supplies purchased from a DBE regular dealer, count 60 percent of the cost of the materials or supplies toward DBE goals. A DBE regular dealer is a firm that owns, operates or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the Agreement are bought, kept in stock, and regularly sold or leased to the public in the usual course of business. To be a DBE regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question. A person may be a DBE regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone or asphalt without owning, operating or maintaining a place of business provided in this section.
- C. If the person both owns and operates distribution equipment for the products, any supplementing of regular dealers' own distribution equipment shall be by a long-term lease-agreement and not an ad hoc or Agreement by Agreement basis. Packagers, brokers, manufacturers' representatives, or other persons who arrange or expedite transactions are not DBE regular dealers within the meaning of this section.
- D. Materials or supplies purchased from a DBE, which is neither a manufacturer nor a regular dealer, will be limited to the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for the delivery of materials or supplies required on the job site, provided the fees are reasonable and not excessive as compared with fees charged for similar services.

The name and address of the Consultant awarded the Agreement or performing the Agreement shall not be marked or obliterated.

EXHIBIT F
PREVAILING WAGE REQUIREMENTS

5. The Consultant shall inform the Department of the location of the records enumerated under paragraph (1) above, including the street address, city and county, and shall, within five working days, provide a notice of a change of location and address.
 6. The Consultant or Subconsultant shall have ten (10) days in which to comply subsequent to receipt of written notice requesting the records enumerated in paragraph (1) above. In the event the Consultant or Subconsultant fails to comply within the ten-day period, he or she shall, as a penalty to the Department, forfeit twenty-five dollars (\$25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Such penalties shall be withheld by the Department from payments then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.
- D. When prevailing wage rates apply, the Consultant must submit with each invoice a certified copy of the payroll for compliance verification. Invoice payment will not be made until the payroll has been verified and the invoice approved by the Contract Manager.
- E. Penalty

A mistake, inadvertence, or neglect in failing to pay the correct rates of prevailing wages is not excusable if the Consultant or subconsultant had knowledge of the obligations under the Labor Code. The Consultant is responsible for paying the appropriate rate, including any escalations that take place during the term of the Agreement.

3. In addition to the penalty and pursuant to Labor Code Section 1775, the difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the Consultant or Subconsultant.

 5. Pursuant to Section 1775 of the Labor Code, the Department shall notify the Consultant on a public works project within 15 days of receipt of a complaint that a Subconsultant has failed to pay workers the general prevailing rate of per diem wages.
 6. If the Department determines that employees of a Subconsultant were not paid the general prevailing rate of per diem wages and if the Department did not retain sufficient money under the contract to pay those employees the balance of wages owed under the general prevailing rate of per diem wages, the Consultant shall withhold an amount of moneys due the Subcontractor sufficient to pay those employees the general prevailing rate of per diem wages if requested by the Department.

ATTACHMENT I SCOPE OF WORK/DELIVERABLES

The Consultant will provide only minor incidental geotechnical services such as investigation of existing information (library search), performing engineering reviews of field investigations reports or reviewing data by others. The Consultant maybe required to perform soil structure interaction analysis when directed by the Contract Manager.

Geological field work, including but not limited to, land slides, lateral spreading or any other work requiring extensive geological investigation or geotechnical engineering is excluded from the scope of this contract.

1. Specific work will be assigned to the Consultant through issuance of Task Orders from the State Contract Manager. Task Orders may include, but not be limited to the following work items: planning studies, structural analysis, reports, Plans, Specifications and Estimate (PS&E), and design support during construction. Work and types of structures will include, but not be limited to: new highway and railroad bridges, widening of existing bridges, seismic retrofit of existing bridges, earth retaining structures, underground structures, soundwalls, culverts and overhead sign structures.
2. Consultant shall carry out the instructions received from the State Contract Manager and shall cooperate with the State, other involved agencies, and other Consultants.
3. It is not the intent of the foregoing paragraph to relieve the Consultant of professional or legal responsibility during the performance of this contract. In those instances where the Consultant believes a better solution is possible, the Consultant shall promptly notify the State Contract Manager of these concerns, together with reasons thereof.
4. The Consultant has total responsibility for the accuracy and completeness of planning studies, plans, related designs, specifications, and estimates prepared and shall check all such materials accordingly. The State will provide cursory reviews of the Consultant's submittals for conformity with the requirements of this contract. Reviews by the State do NOT include detailed review of the work products, checking of design, or the accuracy of the plans. The responsibility for accuracy and completeness of all items remains solely that of Consultant.
5. Consultant or its subconsultants shall not incorporate in the design any materials or equipment of single or sole source origin without written approval of the State.
6. The planning studies, reports, plans, designs, specifications, estimates, calculations, and other documents furnished under this contract shall be of a quality acceptable to the State Contract Manager. The criteria for acceptance shall be a product of neat appearance, well organized, technically and grammatically correct, checked, dated, and having the

All work shall be made available to the State at milestones specified in the Task Order schedule and upon request by the State Contract Manager.

7. The Consultant shall have a Quality Assurance/Quality Control (QA/QC) Plan in effect during the entire time work is being performed under this contract and it shall be submitted for approval within fifteen working days of Notice to Proceed. The QA/QC Plan shall establish a process whereby plans are independently checked, corrected, and back checked. In addition, the QA/QC plan shall establish a system whereby all job related correspondence and memorandums are dated when received by affected persons and then bound in appropriate job files. Where several drawings show different work in the same area, means shall be provided to assure that conflicts do not exist. The QA/QC Plan shall contain provisions for the development of appropriate "check lists" which shall be delivered to the State Contract Manager with the QA/QC plan and updated as required. The State Contract Manager will periodically request evidence that the QA/QC Plan is functioning. All plans, calculations, documents and other items submitted to the State Contract Manager for review shall be marked clearly as being fully checked and that the preparation of the material followed the quality control plan established for the work.
8. All elements of the Project will be considered for Value Engineering studies by the Consultant. To this end, the Consultant shall examine the various design elements and submit an informal written statement or memorandum addressing those elements where it appears significant savings or other advantages may be realized. The statement shall be sufficiently informative to enable the State Contract Manager to determine whether to undertake a detailed Value Engineering Study or possibly initiate immediate design changes where the value of the change is apparent without the need of detailed study and analysis.
9. The Consultant shall, throughout the life of the contract, retain within Consultant's firm, or through qualified subconsultants, sufficient qualified staff to perform each of the tasks.
10. Consultant shall, upon completion of the PS&E expedite process, provide documentation of all aspects of the contract which shall include, but not be limited to: all calculations, correspondence and other project documents, and shall be sorted according to Work Breakdown Structure (WBS) and provided in a PDF format.
