CTABUT™ SOFTWARE PURCHASE ORDER FORM

A signed copy of the license agreement must be returned with your order to obtain delivery.

STEP ONE:

Designate the Number of Concurrent User licenses to be purchased (which determines Total Purchase Amount).

Number of Concurrent Users:

The license fee is **\$1,200 per Concurrent User** for up to two Concurrent Users and **\$1000 per Concurrent User for each additional Concurrent User in a single order**. Orders may not be aggregated for the purpose of calculating the license fee. (E.g., the fee for 5 Concurrent User licenses in a single order is $\$1,200 * 2 + \$1,000 * 3 = \$5,400.$)

STEP TWO:

Choose **only one** of the following options .

Workstation Installation Option:

CTABUT™ to be installed on one individual workstation for each Concurrent User license purchased. A separate authorization code will be provided for each workstation. Authorization codes are machine specific and cannot be shared.

Centralized Network Server Installation Option:

CTABUT™ to be installed on a single networked Windows computer that will act as a server. A single authorization code will be provided for that server. The customer does not have to obtain authorization codes for each workstation that accesses the server. ***Concurrent Users are allowed up to the number of licenses purchased.***

STEP THREE:

Provide the following information:

Customer Reference number Publications Unit use only	Credit Card Number Exp Date:
Company Name and Address:	Total Purchase Amount: \$ _____*
	\$ _____ / Sales tax 8.50%
	\$ _____ / @\$1,200 per Concurrent User 1 & 2
\$ _____ / @\$1,000 per Concurrent User 3+	
Attn:	
Installation Address:	Telephone:
