SUBJECT: 8-Hour Ozone Standard Conformity Determination for the Kings County
Association of Governments' 2011 RTP and 2013 FTIP, as amended

Dear Ms. King:

The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) have completed our review of the 8-hour ozone conformity determination for the Kings County Association of Governments' (KCAG) 2011 Regional Transportation Plan (RTP) and 2013 Federal Transportation Improvement Program (FTIP), as amended. Effective July 20, 2012, the Environmental Protection Agency (EPA) designated areas as nonattainment for the new 8-hour ozone standard.

KCAG made the 8-hour conformity determination for the 2011 RTP and 2013 FTIP, as amended on May 22, 2013. The conformity analysis submitted to FHWA and FTA by KCAG indicates that all air quality conformity requirements have been met, including those for the 8-hour ozone standard. Additionally, the other seven metropolitan planning organizations (MPOs) in the San Joaquin Nonattainment Area have also provided FHWA and FTA with their positive conformity determinations for the 8-hour ozone standard. Based on our review, we find that the 2011 RTP and 2013 FTIP, as amended conform to the applicable state implementation plan (SIP) in accordance with the provisions of 40 CFR Parts 51 and 93. In accordance with the July 15, 2004, *Memorandum of Understanding (MOU) between the Federal Highway Administration, California Division and the Federal Transit Administration, Region IX*, the FTA has concurred with this conformity determination. Additionally, this approval was made after consultation with the EPA, Region 9 office, pursuant to the Transportation Conformity Rule.

Pursuant to 40 CFR 93.102(d), this conformity determination fulfills the requirement that areas designated nonattainment for the 8-hour ozone standard complete a conformity determination by July 20, 2013. In accordance with Section 93.122(g) of the conformity rule, portions of this conformity determination relied on a previous regional emissions analysis for carbon monoxide, PM-10, and PM 2.5.

If you have questions or need additional information concerning our approval, please contact Joseph Vaughn (Joseph.Vaughn@dot.gov) of the FHWA California Division office at (916) 498-5346.

Sincerely,

/s/ Leslie T. Rogers
