

# California DOT Perspective

**Environmental Consultation Peer Exchange  
January 27, 2009**

**Katie Benouar  
Planning and Modal Programs  
California Department of Transportation**

# California Regional Blueprint Planning Program

A State initiative to promote:

- Linking land use, transportation, housing, environment, economic development, equity
- Consensus on preferred growth scenario - “Blueprint” - for each region identifies transportation impacts of land use
- A more efficient and effective transportation system
- Sufficient housing supply to accommodate population growth in each region

# Regional Blueprint Planning

**Regional Blueprint Planning**  
**Comprehensive, Collaborative, Integrated**

# Enhance Planning and Collaboration: Make It Real

- Collaboration requires time and effort
- Need common language and understanding
- Focus on the early planning process, not project
- Participation in statewide and regional transportation planning activities
- Foster interagency coordination through networking
- Information-sharing
- Education process goes both ways
