

**CALIFORNIA DEPARTMENT OF TRANSPORTATION
INORGANIC ZINC RICH PRIMER
PRE-QUALIFIED PRODUCTS LIST**

The following products have been evaluated and determined to comply with specification requirements for inorganic zinc rich primers (AASHTO M 300, Type I and II) used in undercoating structural steel in transportation maintenance and construction projects. The manufacturer should be contacted to determine conformance to the color requirement when finish coats are not specified.

Individual batches/lots of each component will require testing by the Department to ensure compliance with specification requirements unless otherwise approved by the Engineer. A product's presence on this list does not relieve it from the requirements of Section 6 "Control of Materials" in the Standard Specifications.

Coatings must meet the volatile organic content (VOC) requirements for the Air Pollution Control District in which the project is located.

Manufacturer	Product name	AASHTO M 300 Type	Color	VOC, g/L	
Carboline	Carbozinc 11 WB	II	Red or gray	0 (zero)	www.carboline.com
Carboline	Carbozinc 11 HS	I	Green	288	
Carboline	Carbozinc 11 VOC	I	Green or gray	389	
Sherwin Williams	Zinc Clad XI	II	Gray	0	www.sherwin-williams.com
Sherwin Williams	Zinc Clad II Ethyl Silicate	I	Gray green	462	
Sherwin Williams	Zinc Clad II Plus	I	Gray green	320	
International Protective Coatings	Interzinc 22	I	Greenish grey	490	www.international-pc.com
International Protective Coatings	Interzinc 22 HS	I	Reddish/ grey	340	
PPG-PMC	Dimetcote 21-5	II	Gray	0	www.ppgamercoatus.ppgpmc.com
PPG-PMC	Dimetcote 9	I	green	491	
ICI Devoe Coatings	Cathacoat 305	II	Gray	0	www.devoecoatings.com

The effective period for this list is indeterminate. Other products will be considered for inclusion on this list subject to evaluation and approval by the Department.
