

***2nd International Conference on the
Application of Geophysical and NDT
Methodologies to Transportation
Facilities and Infrastructure***

The Federal Highway Administration and the California Department of Transportation are pleased to announce **GEOPHYSICS 2002**. This conference will be held April 15-19, 2002 at the Warner Center Marriott in Woodland Hills, just minutes north of Los Angeles, California. The conference aims to enhance the safety, quality and efficiency of highway transportation systems by expanding knowledge of current geophysical and non-destructive testing (NDT) techniques. Through exchange of information on this state-of-the-art technology, participants will gain a better understanding of its applications and limitations, thus maximizing its benefits, enhancing engineering practice, improving safety and reducing costs.

Conference Topics

The conference is intended to provide engineers, transportation officials and earth scientists with an overview of the latest in geophysical and NDT technologies. Conference topics will include geophysical & NDT methodologies, case histories, application to problem geologic and environmental conditions, and engineering applications of geophysics and NDT for planning, design, construction and maintenance of transportation projects.

Workshops & Demonstrations

New this year, over a dozen technical workshops are scheduled for the conference. These two and four hour sessions are designed to provide an in-depth exposure to state-of-the-art geophysical and NDT techniques. In addition, exhibitors will be presenting live demonstrations of the latest test equipment for in-situ measurement of pavement and earth materials.

All workshops and demonstrations are included in the cost of registration.

Registration

To assist with the necessary planning and preparations for the conference, we request that you pre-register for the conference as soon as possible. Please visit our website to pre-register:

www.fhwa.dot.gov/bridge/geophys.htm

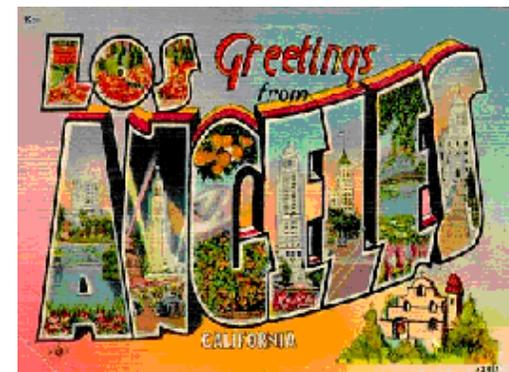

All on-line registration will be confirmed electronically. Payment must be received to finalize registration.

Please visit our web site for payment forms and instructions. Payment should be sent to:

California Department of
Transportation
Attention: Connie Reyes
(916) 227-7315
FAX: (916) 227-7246

Fees	Before 1/31/02	After 1/31/02
Registration	\$205	\$255
Exhibitor	\$575	\$675

Conference fees may be paid by check, money order or credit card. Please contact Connie Reyes for special instructions if requesting to pay via purchase order.

Contact Information

Please check our website for up-to-date information:
