Subject: RE: Water availability

Hi Brad,

Yes we are willing to provide water for this project. The contractor will be required to deposit \$200 with our Finance Department, pay a \$20 setup fee and pay \$0.72 per unit of water (100cf). The contractor shall specify a fire hydrant location, typically closest to the project site, and our water utility crews will make sure a meter and backflow preventer is installed once the deposit and setup fee is paid. The contractor will then be billed for the amount of water needed for the project.

Sincerely;

Michael Reed
Deputy Public Works Director/City Engineer
City of Porterville
