Removal of Asphalt Concrete over gutter damages can't be guaranteed by ABSL.

ABSL Construction will cold plane as close as possible to existing manholes, water valves, and other obstructions in cutting plane. Handwork and placing temporary asphalt tapers around these objects or at pavement edge for safety requirements are excluded.

Contractor to post streets with "No Parking" signs prior to subcontractor's phase of work, provide water or water meter and provide traffic control during cold planing operation.

All areas to be ground shall be clearly marked by the general or the job inspector.

A minimum of two weeks notice is requested prior to move in.

Anything not specifically included in this price should be considered excluded.

ABSL Construction does not accept backcharges due to machine breakdown during operation above the machine's daily rental fee.

Back charges will only be based on the time the machine is broken and will reflect the cost of the equipment for that time. All others costs due to the equipment breakdown will not be charged to ABSL Construction.

All teeth over one complete set will be charge to the contractor.

ABSL does not accept force account rates or retention.

This quotation will be part of our contract or purchase order agreement and is valid till a new change of the rates.

If you have any questions regarding the above quote please call me at (510) 727-0900 or fax at (510) 727-0912.

Sincerely,

Daryl Vorne

GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

- 1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
- 2) Modification to the work may require a change in the quote.
- 3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
- 4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
- 5) All teeth over one complete set will be charge to the contractor.
- 6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
- 7) In the event there is an increase in the cost of fuel of more than \$0.50 per gallon during the performance of this contract, ABSL will be entitled to a \$75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
- 8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: \$425.00 per hour.
- 9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
- 10) This proposal to be attached and made part of any and all resulting contracts.
- 11) The above price does not include permits, fees, bonding, state or local taxes.
- 12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
- 13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
- 14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence for backcharges.
- 15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
- 16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Furthermore, customer agrees to be responsible for all damage to both utilities themselves and to our company's equipment by reason of ABSL equipment encountering unmarked utilities.
- 17) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Daryl Vorne

Portland cement concrete grinding is excluded from this quotation unless specifically quoted.

Removal of Asphalt Concrete over gutter damages can't be guaranteed by ABSL.

ABSL Construction will cold plane as close as possible to existing manholes, water valves, and other obstructions in cutting plane. Handwork and placing temporary asphalt tapers around these objects or at pavement edge for safety requirements are excluded.

Contractor to post streets with "No Parking" signs prior to subcontractor's phase of work, provide water or water meter and provide traffic control during cold planing operation.

All areas to be ground shall be clearly marked by the general or the job inspector.

A minimum of two weeks notice is requested prior to move in.

Anything not specifically included in this price should be considered excluded.

ABSL Construction does not accept backcharges due to machine breakdown during operation above the machine's daily rental fee.

Back charges will only be based on the time the machine is broken and will reflect the cost of the equipment for that time. All others costs due to the equipment breakdown will not be charged to ABSL Construction.

All teeth over one complete set will be charge to the contractor.

ABSL does not accept force account rates or retention.

This quotation will be part of our contract or purchase order agreement and is valid till a new change of the rates.

If you have any questions regarding the above quote please call me at (510) 727-0900 or fax at (510) 727-0912.

Sincerely,

Daryl Vorne

GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

- 1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
- 2) Modification to the work may require a change in the quote.
- 3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
- 4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
- 5) All teeth over one complete set will be charge to the contractor.
- 6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
- 7) In the event there is an increase in the cost of fuel of more than \$0.50 per gallon during the performance of this contract, ABSL will be entitled to a \$75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
- 8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: \$425.00 per hour.
- 9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
- 10) This proposal to be attached and made part of any and all resulting contracts.
- 11) The above price does not include permits, fees, bonding, state or local taxes.
- 12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
- 13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
- 14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence for backcharges.
- 15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
- 16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Furthermore, customer agrees to be responsible for all damage to both utilities themselves and to our company's equipment by reason of ABSL equipment encountering unmarked utilities.
- 17) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Daryl Vorne
