(DBE/MBE/WBE) RECERTIFICATION APPROVAL File No. - 163-32609**

Dear Ms. Espie-Underwood:

We are pleased to advise you that after careful review of your application and supporting documentation, the City of Los Angeles has determined that your firm meets the eligibility standards to be recertified as a **Disadvantaged/Minority/Women Business Enterprise (DBE/MBE/WBE)** as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs and the City of Los Angeles DBE/MBE/WBE directory under the following specific area(s) of expertise that you have identified on the business service form for contracting opportunities:

<u>NAICS Code</u>	<u>Description</u>
541330	Engineering Services
541620	Environmental Consulting Services
541690	Other Scientific and Technical Consulting Services
562910	Remediation Services

Your DBE certification is good for five years from the date of this letter and applies only for the above codes. You may review your firm's information in the CUCP DBE database, which can be accessed at the California Department of Transportation's website at www.dot.ca.gov/hq/bep/ and the City of Los Angeles DBE/MBE/WBE database at <http://bca.lacity.org>. Any additions and revisions must be submitted to the City of Los Angeles for review and approval.

After the five-year certification period, your entire file will be reviewed in order to ascertain continued DBE certification status. You will be notified of the pending DBE status review and any documentation update necessary prior to the expiration date.

The Regulations also require annual updates during this five-year period. In order to assure continuing DBE status, you must submit annually a DBE Declaration with supporting documentation, in the format, which will be sent to you. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until the five-year certification has expired.

ASSUMPTIONS

1. Job Site Management assumes a project duration of 90 days (field work), or 18 weeks of on-site field work. If the actual construction duration is less (or more), the Prime may multiply the number of field weeks by \$995.00.

$$18 \text{ weeks} \times \$995.00/\text{week} = \$17,910.00$$

This is a weekly rate for Veridico to conduct a half-day per week site visit to document required WPCP compliance; Caltrans forms 2030 and 2034 completed by or under the direction of a QSD/P, and physical site inspection. Pre-, during and post-rain event site inspections are not included but will be billed at the Job Site Management rate if required. No other plans, reports, monitoring or permits are included.

2. Field monitoring may be required for the Lead Compliance Plan. A CIH can be provided to oversee the monitoring for **\$2,500 per day** including all labor, travel, per diem, materials, supplies, and lab costs. For bidding purposes, assume **ONE (1) day** for the lead monitoring; or a **total of \$2,500.00** for the on-site monitoring.
3. The WPCP and the LCP are **guaranteed** acceptance for the quoted bid.
4. Contractor to provide completed questionnaire (supplied by Veridico upon notice of award) prior to start of work.
5. Print-ready electronic draft and final copies of plans and/or reports will be provided so hard copies can be produced; no hard copies will be provided by Veridico.

Veridico is a certified DBE contractor (No. 39572) with a number of associates that have supported Caltrans projects for many years. We have the necessary certified personnel to support your efforts on this project and we look forward to providing you our highest level of project support.
