GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

- 1) All areas to be ground shall be clearly marked by the General Contractor or Inspector before grinding operation starts.
- 2) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
- 3) A minimum of two weeks notice is requested to schedule move in. Machines are on a first come first served basis subject to availability. A 72 hours notice of change in schedule is requested.
- 4) Modification to the work may require a change in the quote.
- 5) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
- 6) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
- 7) Prices are good for 30 days of the date of this proposal, after that date the prices are subject to adjustment.
- 8) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
- 9) This proposal to be attached and made part of any and all resulting contracts.
- 10) The above price does not include permits, fees, bonding, state or local taxes.
- 11) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
- 12) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
- 13) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Todd Wheeler

INVITATION TO BID

CTM Construction, Inc. is bidding on the above referenced Caltrans project. We hereby encourage responsible participation of local Disadvantaged Business Enterprises (9% Goal), and solicit their subcontractor or material quotation for the following types of work. This is a highway project with the typical items of work associated, but not limited to: Lead Compliance Plan, Construction Area Signs, Traffic Control System, Type III Barricade, Temp Pavement Marking, Portable Changeable Message Sign, Temporary Railing, Temp Crash Cushion, Job Site Management, SWPPP, Temporary Erosion Control, Public Safety Plan, Rapid Setting Concrete (Patch), Remove Chain Link Fence, Remove Guardrail, Remove Traffic Stripe, Remove Asphalt Concrete Dike, Remove Inlet, Remove Asphalt Concrete Surfacing, Cold Plane Asphalt Concrete Pavement, Remove Unsound Concrete, Prep Concrete Bridge Deck Surface, Furnish Poly Concrete Overlay, Remove Chip Seal, Remove Concrete, Bridge Removal, Roadway Excavation, Shoulder Backing, Class 2 Aggregate Base, Hot Mix Asphalt, Tack Coat, Structural Concrete, Aggregate Base, Minor Concrete, Paving Notch Extension, Drill and Bond Dowel, Clean Expansion Joint, Joint Seal, Rebar, Galvanic Anode, Flume Downrain, Rock Slope Protection, Minor Concrete, Misc. Iron and Steel, Fence and Railing, Alternative In-Line Terminal System, Concrete Barrier, Pavement Marking and Striping, Maintaining Existing Traffic Management System Elements During Construction, Modify Service, Inductive Loop Detector, Construction Equipment and Rentals, Trucking.

CTM Construction, Inc. is willing to break down items of work into economically feasible units to encourage DBE participation. If you are interested in any of this work, please provide us with a scope letter or contact us immediately. Plans and Specifications are available from the Caltrans website at http://www.dot.ca.gov/hq/esc/0e/contractor_info/.

Conditions or exceptions in Subcontractor's quote are expressly rejected unless expressly accepted in writing. CTM Construction, Inc. requires Subcontractor and Supplier quotes 24 hours prior to the bid date to enable thorough evaluation. Contact CTM Construction, Inc. for assistance with obtaining bonds, insurance, lines of credit, equipment, supplies or project plans and specifications.

Each Subcontractor shall be prepared to submit faithful performance and payment bonds equal to 100% of their quotation. The Contractor will pay standard industry rates for these bonds.

Trumark Urban Breaks Ground on Two San Francisco Projects in One Day

By Greg Aragon

Trumark Urban has been busy lately. On May 22 the developer broke ground on two different mixed-use projects in its hometown city of San Francisco. In the morning, the company cut the ribbon on Rowan in the city's burgeoning Inner Mission district, and in the afternoon, it launched construction on Knox, in the Dogpatch neighborhood. Together, both projects are valued at more than \$100 million.

Featuring an external, cast-in-place concrete structure designed by the San Francisco office of Handel Architects, the seven-story Rowan will offer 70 residents in one-, two-, and three-bedroom units. The 71,000-sq-ft mixed-use condominium development will be highlighted by vibrant communal spaces, and an impressive 3,200 sq-ft roof terrace with gas barbecues, vertical gardens, and stunning views of the San Francisco skyline. The project is scheduled to complete in fall of 2016 and be GreenPoint Rated, while boasting one dedicated City CarShare space and electric vehicle charging stations.

After breaking ground at Rowan, Trumark and project officials headed over to Knox, a 91-unit mixed-use project in the vibrant and eccentric Dogpatch neighborhood. Knox will feature 91 units in a variety of sizes, including several family-friendly three-bedroom units, along with intimate communal spaces and locally-sourced artwork, including a water feature created from a reclaimed bridge.

Designed by San Francisco-based BDE Architects, with the interior design by SCB Architects of San Francisco, the roughly 135,000 sq-ft Knox

will be GreenPoint Rated, and feature an electric vehicle charging station, a sustainably landscaped courtyard with a butterfly habitat; two dedicated City CarShare spaces, and a green roof. The project is slated to complete in spring 2016.

Rowan and Knox are the latest projects in Trumark's California portfolio. In March of this year, the firm broke ground on TEN50, a 151-unit luxury high-rise condominium tower in downtown Los Angeles, and in San Francisco, construction continues on The Pacific, the high-profile former dental school located in Pacific Heights that boasts sweeping Golden Gate Bridge views. Amero, a boutique residential property in the city's Cow Hollow neighborhood, was completed in 2014. Through the company's various developments, Trumark Urban will create over 2,500 new jobs nationally, say company officials.

"In the next three years Trumark Urban will add over 1000 condos throughout San Francisco and Los Angeles," said Trumark managing director Arden Hearing, in a recent press release. "We have worked closely with city and community leaders, neighborhood stakeholders and local residents to ensure that we are true partners and create developments that respect and enhance the unique neighborhoods that our projects call home."

Trumark Urban Breaks Ground on Two San Francisco Projects in One Day

By Greg Aragon

Trumark Urban has been busy lately. On May 22 the developer broke ground on two different mixed-use projects in its hometown city of San Francisco. In the morning, the company cut the ribbon on Rowan in the city's burgeoning Inner Mission district, and in the afternoon, it launched construction on Knox, in the Dogpatch neighborhood. Together, both projects are valued at more than \$100 million.

Featuring an external, cast-in-place concrete structure designed by the San Francisco office of Handel Architects, the seven-story Rowan will offer 70 residents in one-, two-, and three-bedroom units. The 71,000-sq-ft mixed-use condominium development will be highlighted by vibrant communal spaces, and an impressive 3,200 sq-ft roof terrace with gas barbecues, vertical gardens, and stunning views of the San Francisco skyline. The project is scheduled to complete in fall of 2016 and be GreenPoint Rated, while boasting one dedicated City CarShare space and electric vehicle charging stations.

After breaking ground at Rowan, Trumark and project officials headed over to Knox, a 91-unit mixed-use project in the vibrant and eccentric Dogpatch neighborhood. Knox will feature 91 units in a variety of sizes, including several family-friendly three-bedroom units, along with intimate communal spaces and locally-sourced artwork, including a water feature created from a reclaimed bridge.

Designed by San Francisco-based BDE Architects, with the interior design by SCB Architects of San Francisco, the roughly 135,000 sq-ft Knox

will be GreenPoint Rated, and feature an electric vehicle charging station, a sustainably landscaped courtyard with a butterfly habitat, two dedicated City CarShare spaces, and a green roof. The project is slated to complete in spring 2016.

Rowan and Knox are the latest projects in Trumark's California portfolio. In March of this year, the firm broke ground on TEN50, a 151-unit luxury high-rise condominium tower in downtown Los Angeles, and in San Francisco, construction continues on The Pacific, the high-profile former dental school located in Pacific Heights that boasts sweeping Golden Gate Bridge views. Amero, a boutique residential property in the city's Cow Hollow neighborhood, was completed in 2014. Through the company's various developments, Trumark Urban will create over 2,500 new jobs nationally, say company officials.

"In the next three years Trumark Urban will add over 1000 condos throughout San Francisco and Los Angeles," said Trumark managing director Arden Hearing, in a recent press release. "We have worked closely with city and community leaders, neighborhood stakeholders and local residents to ensure that we are true partners and create developments that respect and enhance the unique neighborhoods that our projects call home."

Trumark Urban - Vision

Trumark Urban brings over 27 years of history and an exemplary track record to each new opportunity. At our foundation, we believe the duty of a real estate developer extends beyond creating impeccable buildings to strengthening surrounding neighborhoods and shaping their positive long-term trajectory.

FIFTH NATIONAL CONFERENCE

WOMEN BUILDING THE NATION

MAY 1-3, 2015
Sheraton Gateway LAX • Los Angeles, CA

When 1,000 tradeswomen who work in every craft in the building and construction trades come together, it's powerful. Women Building the Nation is the largest conference of its type in the world.

Although the percentage of women who work with the tools remains far too low, Women Building the Nation welcomes women into the trades and offers both new and experienced tradeswomen opportunities for networking, skill building, leadership development and organizing.

This national conference grew out of the annual Women Building California conference, sponsored by the State Building and Construction Trades Council of California since 2002. This will be the fifth national conference, co-sponsored by North America's Building Trades Unions (BCTU).

Each year, tradeswomen, union leaders, apprenticeship coordinators, contractors, and politicians facilitate more than 40 workshops and plenary sessions. Workshop tracks include: Pre-apprentices; Staying In and Staying Strong; Promoting Leadership; Policy & Politics; Career Ladders; and Nourishing Extras.

Opening this year's conference on the evening of May 1 will be a "Meet and Greet" event for women who are leaders and mentors. Closing the conference will be a Policy Forum on May 3, sponsored by the National Task Force on Tradeswomen's Issues.

A special Pre-Apprenticeship Institute will be held on May 1 for those who coordinate and staff pre-apprenticeship programs. (Note: this event is for practitioners not for pre-apprentices.) Workshops, round-tables and

More ways to participate!

Video: Are you an established or aspiring video maker? Here's your chance to showcase your stuff. We're soliciting videos about working in the trades to show during the conference. (Maximum length is 3 minutes—no exceptions!) All videos must be received on DVD or Fire Drive by April 10.

Art: Are you an artist with tradeswomen-related art to display? We love to see it!

Spoken Word: We're looking for tradeswomen who are poets or spoken word artists to perform at the conference.

Union Banners: We can't hang these on the walls, but please bring your union banner for the "banner parade" — always a great photo op!

Items for the Tradeswomen Archives: Bring photos and memorabilia of yourself (or friends) on the job. Be prepared to tell your story of working in the trades!

Workshop Ideas/Presenters: Do you have an idea of a workshop topic you'd like to see or present about. Let us know!

For more info about submitting videos, art, being a spoken word artist or submitting workshop ideas at the conference, e-mail dchaplan@sbctc.org.

Digital Action

Have you ever thought about getting more involved in local or national issues that impact you as a tradeswoman, but are not sure how to get started? Stop by the **Tradeswomen Action Clinic** table and learn about important issues ranging from state-by-state Right to Work campaigns, to safety, to federal compliance and antidiscrimination policy changes. Our volunteers will have information about how you can take action—during the conference, through digital advocacy on your smart phone, as well as how to write a letter to your legislators. We will have lots of information available for you to make your voice heard!

How to be a successful contractor

San Clemente ☺

You may be the most skilled worker in your craft, but becoming a licensed, successful contractor is a whole different animal. You need to be able to manage people, understand bidding, pay all the right taxes, file the right forms, identify clients, and market your services. Hear from contractor representatives about the challenges of being a business owner in the construction industry and the value of contractors getting bonded and licensed.

Linda Clifford, CFO, CC Myers, Inc., Rancho Cordova, CA.
Board Member, State of California, Contractors State License Board

Doris Velasquez, Enforcement Representative, Contractors State License Board, Norwalk, CA

Facilitator: **Lisa Dickerson**, Enforcement Representative I, California State Licensing Board; Tradeswomen, Inc., Oakland, CA

Tradeswomen's history: Learning from our past Laguna

Tradeswomen have a long and proud history. Did you know that in 14th century France women were accepted equally with men as carpenters? That in 1813 Tabitha Babbitt invented the circular saw? That today San Francisco's Stella Cheng is a mason in France and a Guild member restoring gothic cathedrals? In this workshop learn your history: people, laws, unions, change. Analyze past successes and failures. Discover the history in your community and tell your own story. Develop a plan to pass this information on to others. Meet Rosie the Riveter and Libby Howard—don't know who she is? You'll find out. As sister Addie Wyatt, CLUW co-founder and leader of the Packinghouse Workers, often said, "If you don't know where you come from, you don't know where you're going."

Molly Martin, Tradeswoman activist, Retired Electrician, IBEW, San Francisco, CA

Brigid O'Farrell, Independent Scholar, National Writers Union, UAW Local 1981, Moss Beach, CA

Round Table Discussions

(These sessions all take place in the Grand Ballroom. Look for signs on the round tables.)

Blueprint reading

Grand Ballroom

This fun, hands-on workshop will provide an overview of blueprint reading and some tricks of the trades as we decode the instructions for that all important question, "You want me to build what...where?"

Elena Salinas, SMART Local 104, San Jose, CA

Missy Lewis and **Connie Mrdutt-Spratt**, SMART Local 104, San Ramon, CA

What's in your lunch bucket?

Grand Ballroom

How can you expect to think well and work hard all day when you're eating and drinking junk foods or sodas? Your body recreates itself completely every 90 days to three years and can only do that if you're giving it good food and lots of pure water to flush out toxins and move healthy nutrition into each cell! We'll talk about the importance of detoxification, how to change your stinking thinking, breathing exercises, super foods to give you energy all day, recipes for green smoothies, juicing, dehydrated foods, natural remedies, essential oils and homeopathics to carry in your lunch bucket.

Jan Jensen, a 25+ year ironworker and a health coach since 1968 wrote a book for the 2009 conference called "What's In Your Lunch Bucket?" This book is for everyone who wants to feel and look good doing what they love!

Recruiting women vets

Grand Ballroom

Women are achieving full equality in the armed forces, and when they come back stateside, they're as prepared to begin a new career in the trades as their male counterparts. Learn about what Helmets to Hardhats is doing to help women get into the trades and if you're a vet exploring the trades, what they can do for you. If you're a veteran already in the trades, this is a great place to network with other vets!

Lisa Ford, Helmets to Hardhats
