Thanks Melissa,

It would be helpful to know what portion of Item 28 is material and what part is monitoring. We can only claim 60% of materials supplied by DBE's but can claim 100% of services. Please let me know.

Best regards,

Chris Brimhall

 Tullis, Inc.

Fax: 530-241-5570

We have included the following items in our proposed price:

Code	Description	Quantity	UM	Unit Price	Valid Through:	
					Oct-28-15	Nov-27-15
				Total Price		
Bid Item No 61	Textured and Colored Hot Mix Asphalt Paving - Standard Pattern and Color per submittal approval. Products shall be installed per plans and manufacturer's specifications. Coating to be StreetBond120.	780	SY	\$ 35.25	\$	27,495.00

Asphalt Impressions is a certified applicator of Ennis-Flint® TrafficScapes™ Thermoplastics products.
 Asphalt Impressions is an accredited applicator of StreetPrint® and StreetBond™.

Specific Conditions Unique to this Proposal:

- Price includes test plot (HMA furnished and placed by others) for inspection and approval of Engineer. When no longer required test panel shall be removed and disposed of by others.
- Compacted hot mix asphalt (furnished and installed by others) shall be reheated, textured and color coated per manufacturer's specification.
- It is the customers responsibility to insure that the areas requiring asphalt enhancements be thoroughly cleaned and dry prior to the installation. Asphalt Impressions charges \$115.00 per Man Hour to pressure wash if required.

Specific Exclusions Unique to this Proposal:

- Traffic Control - estimated duration - 5 days
- Light Towers if night work is required.
- Furnish and placement of hot mix asphalt.

The above unit prices shall prevail. Final pay quantities shall be jointly determined by the Engineer or other representative of the Customer and the Contractor, upon completion of all work hereunder.

The Following items are Exclusions from this Proposal if Marked with a Check Box

General Conditions Exclusions

- Construction Permits, Encroachment Permits and Special Fees.
- Performance or payment bonds (add 1.5% of bid to price for this requirement).
- Multiple move-ins, unless noted otherwise.
- Weekend or overtime work, unless noted otherwise.
- Striping, Signage and Pavement Markings.
- Providing multiple move-ins and working in shorter time limits with loss of estimated productivity due to cooler temperatures and unfavorable weather conditions. Responsibility for job delays due to customers schedule to install products during unfavorable weather conditions.
- Responsibility for accelerated coating wear if customer opens the roadway surface to traffic before the polymers in the coating have set up or the thermoplastics have sufficiently cooled and hardened.
- Responsibility for variations in color between samples and finished product.
- Phasing of work areas for convenience of others which affects productivity requirements (unless stated above in work description).
- When work is barricaded after completion of colorbonding, responsibility for damages made by unauthorized entry into the protected area.
- Water washing or Steam - Cleaning pavement of foreign materials unless specified in scope of work. Dirt, Pre-existing Diesels and Oils on Pavement will prevent desirable results for which Asphalt Impressions will not be responsible.
- Guarantees for products to adhere to Oil Spots or other foreign materials on pavement.
- Guarantees of satisfactory results from StreetPrinting over Seal Coats. Removal of Seal Coat by Sandblasting or other means.

- Notification to Seal Coaters and Strippers of the requirement not to Seal Coat or Stripe in enhancement areas.
- Costs Incurred for Returning Materials and Templates ordered specific for project. Manufacturers charges for restocking fees along with associated freight charges for changes made after procurement of the contract materials and templates.
- Product application over utility boxes and Manhole lids (utility boxes and manhole covers will not be colorbonded unless specifically directed to do so).

Payment Terms / Legal Clarifications

PAYMENT IS DUE UPON COMPLETION AND PAST DUE AFTER THIRTY (30) DAYS from Invoice date.

The Customer agrees to pay late charges on any billings not paid when due, from the due date until paid, at the rate of 18% per annum or the maximum rate allowed by law, whichever is less.

Upon satisfactory payment being made for any portion of the work performed, if requested, Asphalt Impressions shall furnish a full and unconditional release from any claim or mechanic's lien for that portion of the work for which payment has been made.

In the event payment is not made to Asphalt Impressions at the times and in the amounts provided for in this agreement, Asphalt Impressions may, upon three (3) working day's written notice, elect to suspend work until payment on the amount owing has been received. If this occurs Asphalt Impressions' time for performance shall be extended appropriately and it's reasonable costs of shut down, delay, and start-up shall be paid and the contract adjusted accordingly.

Prior to commencement of work, Customer shall furnish Asphalt Impressions with written confirmation from his lender or bank that sufficient funds have been committed and will be available to make payments called for under this agreement, furnishing this written confirmation to Asphalt Impressions to act as a condition precedent to the obligation of Asphalt Impressions to perform under this agreement. This provision is solely for Asphalt Impressions' protection and shall not limit Asphalt Impressions' right to receive payment for its work if it proceeds with work without, or prior to receipt of the written confirmation.

General Conditions

Changes in Work: Customer may from time to time by instructions or drawings issued to Asphalt Impressions, make changes in the scope of work, issue additional instructions, request additional work or direct the omission of work previously ordered, and the provisions of this agreement shall apply to all such changes, modifications and additions with the same effect as if they were embodied in the original agreement. The price or the formula for establishing the price for such work will be set forth in a written change order, either prior to the commencement or as soon as practical thereafter.

Extra costs incurred due to loss of production or delays outside our control to be paid on a time & material basis

Unavoidable Delays - Extension Of Time: In the event Contractor shall be delayed in the performance of the work under this contract by causes beyond the control of the contractor, and without the fault or negligence of the contractor, including but not limited to change orders, acts of god or of the public enemy, acts of government, fire, flood, strikes, inclement weather, unsuitable ground conditions or delays caused by Vendors and other Contractors, Contractor shall have such period of time to complete the performance of this contract as shall be necessary as a result of any such causes

Commercial General Liability Coverage - Customer acknowledges Asphalt Impressions is proposing to provide services based on risk insurance coverages in effect at the time of the proposal. The coverages could be construed as standard for the industry. However, there are no representations made herein that that the coverages in effect from time to time may meet the coverage requirements of the customer. Upon request, Asphalt Impressions can furnish its evidence of insurance along with its supplementary declarations and exclusions that are applicable to services performed in the State Of California.

Prior to commencement of work, if this proposal is not executed to constitute the official contract, a contract containing terms mutually agreeable to both parties shall be prepared and executed. The Contents of this proposal document shall be inserted electronically or physically attached to become an integral part of the contract. In the event of any inconsistency between any such contract and this proposal, the terms of this proposal shall prevail.

All material is guaranteed to be as specified and are subject to their limited warranty. All work to be completed in a workmanlike manner according to manufacturers recommendations and standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents or delays beyond our control

NOTICE TO OWNER

Under the "California Mechanics' Lien Law", any contractor, subcontractor, laborer, supplier, or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment.

This means that after a court hearing a court officer could sell your home, land, and property and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers, or suppliers remain unpaid. To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or material suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not have to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property. Its purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to perfect their lien rights, a contractor, subcontractor, supplier, or laborer must file a mechanics' lien with the county recorder, which then becomes a recorded lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your property is 90 days after substantial completion of your project. Contractors are required by law to be licensed and regulated by the Contractor's State License Board which has jurisdiction to investigate complaints against contractors if a complaint is filed within three years of the date of the alleged violation. Any questions concerning a contractor may be referred to the Registrar of Contractors' State License Board, P.O. Box 28000, Sacramento CA. 95826.

"STATE LAW REQUIRES ANYONE WHO CONTRACTS TO DO CONSTRUCTION WORK TO BE LICENSED BY THE CONTRACTORS' STATE LICENSE BOARD IN THE CATEGORY IN WHICH THE CONTRACTOR IS GOING TO BE WORKING -- IF THE TOTAL PRICE OF THE JOB IS \$300.00 OR MORE (INCLUDING LABOR AND MATERIALS).

LAWS DESIGNED TO PROTECT THE PUBLIC REGULATE LICENSED CONTRACTORS. IF YOU CONTRACT WITH SOMEONE WHO DOES NOT HAVE A LICENSE, THE CONTRACTORS' STATE LICENSE BOARD MAY BE UNABLE TO ASSIST YOU WITH A COMPLAINT. YOUR ONLY REMEDY AGAINST AN UNLICENSED CONTRACTOR MAY BE IN CIVIL COURT, AND YOU MAY BE LIABLE FOR DAMAGES ARISING OUT OF ANY INJURIES TO THE CONTRACTOR OR HIS OR HER EMPLOYEES. YOU MAY CONTACT THE CONTRACTORS' STATE LICENSE BOARD TO FIND OUT IF THIS CONTRACTOR HAS A VALID LICENSE. THE BOARD HAS COMPLETE INFORMATION ON THE HISTORY OF LICENSED CONTRACTORS, INCLUDING ANY POSSIBLE SUSPENSIONS, REVOCATIONS, JUDGMENTS, AND CITATIONS. THE BOARD HAS OFFICES THROUGHOUT CALIFORNIA. PLEASE CHECK THE GOVERNMENT PAGES, IN THE WHITE PAGES OF YOUR PHONE BOOK FOR THE OFFICE NEAREST YOU OR CALL 1- 800-321-CSLB FOR MORE INFORMATION."

In the event of non-payment and in the event of a mechanics lien needing to be filed. The prevailing party in the court action will receive all attorneys' fees, court costs, and any other costs pursuant to perfecting the lien. As well, there will be interest charged at a rate of 18% per annum, from time the lien is filed, up to and including the day that the lien has been satisfied in full.

Thanks Melissa,

It would be helpful to know what portion of Item 28 is material and what part is monitoring. We can only claim 60% of materials supplied by DBE's but can claim 100% of services. Please let me know.

Best regards,

Chris Brimhall

Project:

CONSTRUCTION ON STATE HIGHWAY IN GLENN COUNTY NEAR ORLAND AT VARIOUS LOCATIONS FROM COUNTY ROAD (CR) 16 OVERCRSSING TO CR 3 OVERCROSSING, GLENN COUNTY, CA (Caltrans Contract No. 03-0F3704 / Federal-Aid Project ACIMNP-0057(97))

Project Understanding:

Caltrans proposes to lower the roadway profile to improve vertical clearance at 3 locations along Interstate 5 (County Road (CR) 16, CR 7, and CR 3). The project is scheduled to occur over 115 working days per the Special Provisions. According to the Special Provisions, Section 14 - Environmental Stewardship, the project is within or near habitat for the regulated species listed below:

Species	Monitoring Schedule	Protective Radius
Migratory and nongame birds (including raptors)	Bi-weekly beginning February 1, when active attempts to nest by swallows and other mud-nest builders begins	100 feet

Caltrans anticipates nesting or attempted nesting by migratory and nongame birds from February 1 to August 31. Exclusionary devices will need to be installed to prevent active nests from being built within 100 feet of project areas. Caltrans is requiring the following measures for compliance with environmental stewardship:

1. Pre-construction, initial, regular, incident (if needed), and final monitoring surveys with reports.
2. Preparation of a Natural Resource Protection Plan (NRPP) for all species with potential to occur within the project area.
3. Preparation of a Biological Resources Information Program (BRIP) with presentation to on-site construction personnel.

Cost Table (CALTRANS BID ITEM NO. 27):

Item No.	Description	Contractor Supplied Biologist - Tasks	# / Unit	Cost / Unit	Total

*** See Optional Item Descriptions on page 5

Scope of Work/Services Provided:

Item 1: Contractor Supplied Biologist (14-6.05)

The contractor-supplied biologist (Biologist) will meet PLAC requirements. Required qualifications will be provided to the Engineer for transmittal to regulatory agencies and Caltrans.

A. Pre-Construction Survey [14-6.05a(2)(c)]:

This survey shall be conducted no more than 14 days prior to initiation of construction activities. If a regulated species is discovered, the biologist will establish a 100 foot protective radius around the discovery, unless otherwise specified by the PLAC requirements, and notify the project engineer. Pre-construction surveys will include search and detection of any migratory or non-game birds. Writing of a pre-construction survey report is included in the cost of the survey. The pre-construction survey report will include one of the following:

1. Detailed observations and locations where regulated species were observed.
2. Statement that no regulated species were observed by each biologist.

The biologist will submit a pre-construction survey report within 14 days before starting construction activities.

B. Initial Monitoring Survey and Report [14-6.05a(2)(d)]:

This survey shall be completed on the day ground disturbing activities begin. The report will be submitted within 12 hours after starting ground-disturbing activities. If a regulated species is discovered, the biologist will establish a 100 foot protective radius around the discovery, unless otherwise specified by the PLAC requirements, and notify the project engineer.

C. Regular Monitoring Surveys and Reports [14-6.05a(2)(e)]:

Regular monitoring will be conducted in accordance with the schedule set forth in the NRPP. This will include a monthly inspection in December and January, and bi-weekly inspections beginning February 1, 2016. Bi-weekly inspections will be conducted during active nesting season to ensure no nests are established within 100 feet of the project area to ensure no stoppage of work occurs. Additionally, inspections will ensure both the effectiveness and the safety of exclusionary devices in regards to wildlife that is passing through the project area.

D. Incident Survey and Report [14-6.05a(2)(f)]:

If an incident inspection and report become necessary secondary to the take of a regulated species, the effort will be billed at a time and materials basis and will include regulatory agency consultation if needed. Time will be billed at the biologist hourly rate of \$90/hour. An incident report will include:

1. Description of any take incident
2. Species name and number taken
3. Details of required notifications with contact information
4. Corrective actions proposed or taken
5. Disposition of taken species

E. Final Monitoring Report [14-6.05a(2)(h)]:

The Final Monitoring Report must be a cumulative report following the format of an Annual Monitoring Report. The Final Monitoring Report will contain photos of the construction site upon completion of the project. The final report will be submitted within 20 days after completion of project.

All reports will include:

1. PLAC requirement implementation
2. Name(s) of the biologist(s) conducting biological activity
3. Date(s) and time(s) of monitoring
4. Locations and activities monitored
5. Representative photographs
6. Findings
7. If regulated species are observed, reports must recommend actions to protect regulated species
8. Name of the biologist who prepared the report
9. Signature of the biologist certifying the accuracy of the report

Monitoring Duties:

The Biologist must:

1. Monitor for regulated species within the project area.
2. Assure that construction activities do not result in take of regulated species.
3. Assure that construction activities comply with PLACs.
4. Immediately notify the Engineer of any take of regulated species.

Item 2: Preparation of a Natural Resource Protection Plan (NRPP) [14-6.07]

The contractor-supplied biologist will prepare an NRPP that defines measures that will be taken to maintain project compliance with all environmental laws, regulations, and PLAC requirements. The NRPP must be prepared and signed by a biologist knowledgeable of the species or habitats discussed and address species protection measures. The NRPP will include:

1. List of species and habitats addressed in the plan
2. Protection measures for regulated species likely to occur in the project site
3. Implementation plan for protection measures, including monitoring schedule
4. Monitoring duties
5. Justification for each instance where protection measures and an implementation plan are not necessary for a regulated species
6. Schedule for inspecting protection measures
7. Schedule for maintaining and removing protection measures
8. Schedule for submittal of monitoring reports
9. Response plan for instances where regulated species are encountered
10. Content and schedule for a Biological Resource Information Program

Item 3: Preparation of a Biological Resource Information Program (BRIP) [14-6.08]

The contractor-supplied biologist will prepare and present training to personnel as required in PLACs regarding regulated species, related laws and regulations, and protection measures. The contractor and engineer will be notified of a scheduled training class at least 7 days in advance of the first training session.

An attendance list, including the printed and signed name of each attendee of the BRIP training, will be provided to the engineer within 2 working days following each environmental education session. A separate attendance list will be submitted to the engineer for each subsequent session for new workers.

In accordance with the Special Provisions, workers must receive BRIP training before performing on-site work. Workers include laborers, tradesmen, material suppliers, equipment maintenance personnel, supervisors, foremen, office personnel, food vendors, and other personnel who stay on the projects site longer than 1 day.

A handout will be provided to each attendee to implement species protection measures. The handout will describe the species, habitats, and actions as listed in species protection or in PLACs. A copy of the handout will be maintained on-site for the duration of construction.

The BRIP will include:

1. Description of regulated species that may be affected by construction
2. Requirements for the protection of the regulated species
3. Definition and consequences of "take"
4. What to do when you see a regulated species or a species that looks like a regulated species
5. Permit requirements to touch or move a regulated species
6. Identification of work area and ESA
7. Description of avoidance and minimization measures
8. Natural Resources Protection Plan
9. Description and general ecology of regulated species
10. Description of specific habitats used by the regulated species and their location
11. Handout to implement species protection measures that describe species, habitats, and actions as listed in section 14-6.02 (in the Special Provisions) or in PLACs

OPTIONAL ITEM A:

Migratory Bird Nest Removal / Active Nest Monitoring

Migratory Bird Nest Removal:

Prior to February 1, 2016, NSE will provide a qualified biologist for 1 day to assist with the removal of old nests and direction of the installation of exclusion materials, if needed. NSE assumes the contractor will provide/purchase the materials, and the equipment necessary to properly remove old nests and install exclusion materials. The contractor is responsible for installing exclusionary materials. The type and method of exclusion will be determined following a site inspection and will be in accordance with the NRPP. Exclusion is an adaptive process that may require alterations to initial methods, depending on the behavior of the birds. It will be the responsibility of the contractor to maintain all exclusionary devices. Per Environmental Stewardship Protection Measure 14-6.02C:

Within the project limits, implement the following protection measures:

1. A preconstruction survey to determine if swallows or other structure-nesting birds are nesting on the bridges, as described in the NRPP.
2. Prior to March 1, all abandoned bird nests shall be removed from bridges (as will be described in the NRPP).
3. Prior to March 1, exclusionary devices or other nesting prevention measures will be installed to prevent swallows or other structure-nesting birds from nesting on bridges.
4. Exclusionary devices will be removed from the bridges upon completion of project construction.

Active Nest Monitoring:

If an active nest is discovered within 100 feet of construction activities and daily monitoring is required by a regulatory agency, the billing rate is lump sum at \$900 for an 8 hour work day.

Estimated Costs:

NSE will bill on a lump sum basis according to the Cost Table on page 2, following completion of each task. Invoices will be submitted monthly and are due and payable upon receipt. A service charge of 1.8% will be billed on unpaid balances 30 days after billing. Costs represented in this proposal are estimates and may vary based on existing conditions.

Schedule:

NSE will be available to begin tasks upon execution of this proposal. As the BRIP is due within 7 days after contract award, NSE appreciates as much notice as possible to complete the BRIP.

Assumptions/Terms and Conditions/Limitations to Services:

- 1) If the Client requests additional services not specified pursuant to The Scope of Work, the Client agrees to pay for all such additional services as extra work following negotiations with NSE. In the event all or any portion of the work prepared or partially prepared by NSE is suspended, abandoned, or terminated, Client shall pay NSE for all fees, charges, etc. until notified of such termination at which time NSE will provide originals or copies of all work performed up to date of termination.
- 2) For any additional monitoring days (outside of those specified in Item 1), NSE will notify the Client and require written approval prior to conducting additional work. Additional monitoring will be billed on a lump sum basis at a rate of \$900 per day.

- 3) In the event monitoring activities exceed 8 hour work days, the daily lump sum rate is increased to \$1170 for 8-10 hours and \$1440 for 11-12 hours. Each additional hour after 12 will be billed at \$180/hour.
- 4) Any changes to this scope must be made in writing and agreed to by the Client and NSE.
- 5) This proposal is valid for 30 days from the date above.
- 6) This scope of work will be included in the contract documents.

RE: Proposal for SWPPP for Caltrans 03-0F3704, Bids 10/28/15

Dear Prime Contractor;

Thank you for the opportunity to provide a bid for this work. We provide civil and stormwater engineering services. This proposal assumes the project is a Risk Level 2.

Scope of Work:

- A. Prepare Stormwater Pollution Prevention Plan (SWPPP).
 - I. Prepare SWPPP per State and contract requirements. Include Rain Event Action Plan (REAP) template, Construction Site Monitoring Plan and Sampling and Analysis Plan where required.
 - II. Prepare Water Pollution Control Drawings as part of the SWPPP.
 - III. Exclusions: Installation and implementation of water pollution practices, providing a WPC Manager, conducting training, and monitoring, inspection and correcting water pollution control practices are excluded. A WPC Manager, training, monitoring and inspection are available as an additional service upon request.
- B. Rain Event Action Plans (REAPs).
 - I. Prepare REAPs prior to a rain event with 50% or more chance of occurrence; prepared by a Qualified SWPPP Developer (QSD).
 - II. Exclusions; this contract item can only be provided if we are selected to also perform Stormwater inspection or WPC Manager services. This does not include a pre-storm inspection which would be covered under other bid items.
- C. Storm Water Sampling and Analysis Day.
 - I. Provide pH and turbidity sampling of runoff. Collect 3 minimum grab samples per day of stormwater runoff during a qualifying rain event. A qualifying rain event is one that produces 0.5" or more of rain with 48 hours of dry weather in between storm events. Sampling will be done using field meters. Document sampling on the Caltrans CEM2052 Field Test report form.
- D. Storm Water Annual Report
 - I. Prepare Stormwater Annual Report in accordance with SWRCB and Caltrans requirements.
 - II. Report will be prepared by a Qualified SWPPP Developer (QSD).
- E. Provide Weekly Stormwater Inspection and Water Pollution Control Manager
 - I. Provide Water Pollution Control Manager (WPC Manager) with appropriate Qualified SWPPP Developer (QSD) certification.
 - II. Provide inspection 1 day per week of stormwater Best Management Practices (BMP's) and oversee BMP implementation; inspections will be done or overseen by a QSD.
 - III. Provide quarterly non-stormwater monitoring inspection.
 - IV. Check NOAA weather forecast daily.
 - V. Provide stormwater inspection reports once a week.
 - VI. Prepare SWPPP Amendments as needed.
 - VII. Provide initial SWPPP training to contractor's staff and subcontractors at beginning of job.
 - VIII. Exclusions; Does not include any onsite sampling or lab testing if there is an event that triggers non-stormwater, non-visible pollutant or other testing. Assumes contractor's staff can provide the daily, pre-storm, during storm and post-storm visual BMP rain event inspection to reduce costs unless otherwise contracted for (See Item F for rain event inspection).

Civil Engineering and Stormwater Solutions

- F. Provide Stormwater Inspector for Pre-Storm, During Storm or Post Storm Inspection
 - I. Provide Pre-storm inspection; before a forecasted storm event which is defined as one with a 50% chance or more of occurrence.
 - II. Provide During storm inspection. This is required every 24 hours during extended storm events. A storm event is defined as one that produces or is forecasted to produce at least 0.10 inch of rain within a 24 hour period (per Caltrans definition).
 - III. Provide Post storm inspection; after a qualifying rain event. A qualifying rain event is one that produces 1/2" or more of rain with a 48 hour or greater period between rain events.
 - IV. Inspections will be done or overseen by a QSD or QSP.

Fee:

The SWPPP will be prepared for a Fixed Fee of the following, with fees billed monthly based upon percent completion:

- A. Prepare SWPPP (Part of Bid Item No. 13) \$2,600
- B. Rain Event Action Plan, \$125 EA x 6 estimated (Part of Bid Item No. 14) \$ 750
- C. Storm Water Sampling and Analysis Day, \$375 EA x 8 estimated (Bid Item No. 15) \$ 3,000
- **We are willing to teach the contractor's staff how to self-perform sampling.
- D. Storm Water Annual Report \$ 1,000
(\$500 EA x 2, Bid Item No. 16)

The following services will be provided on a Time and Materials/Not to Exceed basis as needed:

- E. Provide Weekly Stormwater Inspection and Water Pollution Control Manager \$ 375 per week
\$125/hr x 3 hours = \$375/week x 23 weeks = \$8,625 Not to Exceed

- F. Provide Stormwater Inspector for Pre-Storm, During Storm or Post Storm Inspection \$ 375 EA
\$125/hr x 3 hours = \$375 per visit x 6 visits = \$2,250

For quantity purposes, we estimate no more than 6 events

This is based on the project lasting 23 weeks.

Contractors should take note that Items E and F above are required items under the Caltrans "Prepare SWPPP" Bid Item as per the 2010 Standard Specifications, Section 13-2.01A page 163.

Fees will be due within 30 days of client's receipt of invoice. Late payments beyond 30 days past due can be subject to a 1.5% per month interest charge. Payment arrangements can be made to coincide with any owner to contractor payment installments.
