Prices are subject to the following terms and conditions:

Haul only pricing is based on the customer's direct purchase and scheduling with the material supplier or dump site.

Delivered pricing includes scheduling, costs of materials, applicable tax and cost of trucking (tonnage rate conditions will apply).

Tonnage/Per Load rates will include the following conditions:

- Transfers are allotted 15 min. to load/20 min. to dump, end dumps and bottom dumps are allotted 15 min. to load/15 min. to dump; time exceeding the allotted time for each truck will be billed at a rate of \$1.47 per minute. If the standby time exceeds 30 minutes that truck will be billed at the applicable hourly rate.
- Flatbeds are allotted 1 hour to load and 1 hour to unload; if loading/unloading exceeds allotted time the truck will be billed at the applicable hourly rate.
- If the supplier or material changes during a shift the shift will be billed hourly.
- If the delivery site changes the shift will be billed hourly.
- Partial shifts will also be billed hourly.
- For work performed under this tonnage rate agreement on weekends or holidays, an additional 5% will be charged per ton.
- For work performed under this tonnage rate agreement after December 31, 2013 the rates are subject to a 5% cost of living increase.

On Site Hauling: If the project requires on site hauling, where prevailing wage rates or Davis-Bacon Act wage rates apply add an additional 30% to the applicable hourly or tonnage rate.

All prices quoted are subject to fuel increases. A copy of our Fuel Surcharge Assessment is attached. There is a four (4) hour minimum charge per truck. For night work there is a six (6) hour minimum charge per truck. There is a two (2) hour show-up time charge per truck if the job is cancelled and the truck(s) have already shown up on the job site. Payments for invoices are due within thirty (30) days of the invoice date. All prices are for work performed through December 31st 2013. For work performed after December 31st 2013 the rates are subject to a 5% cost of living increase. Prices quoted are good for a period of thirty (30) days from the bid date.

Fuel Surcharge Assessment:

A fuel surcharge is assessed when fuel prices reach \$4.25 per gallon as reported by the U.S. Energy Information Administration. The fuel surcharge is 1% for every \$0.10 increase in fuel prices. The breakdown is as follows:

Diesel price \$/gallon	% increase to hourly/tonnage rate
\$4.25 - \$4.349	1%
\$4.35 - \$4.449	2%
\$4.45 - \$4.549	3%
\$4.55 - \$4.649	4%
\$4.65 - \$4.749	5%
\$4.75 - \$4.849	6%
\$4.85 - \$4.949	7%
\$4.95 - \$5.049	8%
\$5.05 - \$5.149	9%
\$5.15 - \$5.249	10%
\$5.25 - \$5.349	11%
\$5.35 - \$5.449	12%
\$5.45 - \$5.549	13%
\$5.55 - \$5.649	14%
\$5.65 - \$5.749	15%

*\$5.75 and above add an additional 1% for each \$0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: www.eia.doe.gov/oog/info/wohdp/diesel.asp.

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked within that week.

A signed work/purchase order constitutes acceptance of these terms.

Thank you.
