If the standby time exceeds 30 minutes that truck will be billed at the applicable hourly rate.
- Flatbeds are allotted 1 hour to load and 1 hour to unload; if loading/unloading exceeds allotted time the truck will be billed at the applicable hourly rate.
- If the supplier or material changes during a shift the shift will be billed hourly.

Fuel Surcharge Assessment:

A fuel surcharge is assessed when fuel prices reach $3.50 per gallon as reported by the U.S. Energy Information Administration. The fuel surcharge is 1% for every $0.10 increase in fuel prices, or portion thereof. The breakdown is as follows:

Diesel price $/gallon	% increase to hourly/tonnage/load rate
$3.50 - $3.599	1%
$3.60 - $3.699	2%
$3.70 - $3.799	3%
$3.80 - $3.899	4%
$3.90 - $3.999	5%
$4.00 - $4.099	6%
$4.10 - $4.199	7%
$4.20 - $4.299	8%
$4.30 - $4.399	9%
$4.40 - $4.499	10%
$4.50 - $4.599	11%
$4.60 - $4.699	12%
$4.70 - $4.799	13%
$4.80 - $4.899	14%
$4.90 - $4.999	15%

*$5.00 and above add an additional 1% for each $0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: **www.eia.doe.gov/oog/info/wohdp/diesel.asp**.

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked, tons or loads hauled within that week.

A signed work/purchase order constitutes acceptance of these terms.

Thank you.

RE: Proposal for SWPPP for Caltrans 03-1F4004, Widen Eastbound Roadway on State Route 80, Bids 11/18/15

Dear Prime Contractor;

Thank you for the opportunity to provide a bid for this work. We provide civil and stormwater engineering services. This proposal assumes the project is a Risk Level 2.

We are currently the WPC Manager for another District 3 project on State Route 80 and want to let the contractor know to expect significant SWPPP, BMP Maintenance and Monitoring expectations from this District.

Scope of Work:

A. Prepare Stormwater Pollution Prevention Plan (SWPPP).
   - I. Prepare SWPPP per State and contract requirements. Include Rain Event Action Plan (REAP) template, Construction Site Monitoring Plan and Sampling and Analysis Plan where required.
   - II. Prepare Water Pollution Control Drawings as part of the SWPPP.
   - III. Exclusions: Installation and implementation of water pollution practices, providing a WPC Manager, conducting training, and monitoring, inspection and correcting water pollution control practices are excluded. A WPC Manager, training, monitoring and inspection are available as an additional service upon request.

B. Rain Event Action Plans (REAPs).
   - I. Prepare REAPs prior to a rain event with 50% or more chance of occurrence; prepared by a Qualified SWPPP Developer (QSD).
   - II. Exclusions; this contract item can only be provided if we are selected to also perform Stormwater inspection or WPC Manager services. This does not include a pre-storm inspection which would be covered under other bid items.

C. Storm Water Sampling and Analysis Day.
   - I. Provide pH and turbidity sampling of runoff. Collect 3 minimum grab samples per day of stormwater runoff during a qualifying rain event. A qualifying rain event is one that produces 0.5" or more of rain with 48 hours of dry weather in between storm events. Sampling will be done using field meters. Document sampling on the Caltrans CEM2052 Field Test report form.

D. Storm Water Annual Report
   - I. Prepare Stormwater Annual Report in accordance with SWRCB and Caltrans requirements.
   - II. Report will be prepared by a Qualified SWPPP Developer (QSD).

E. Provide Weekly Stormwater Inspection and Water Pollution Control Manager
   - I. Provide Water Pollution Control Manager (WPC Manager) with appropriate Qualified SWPPP Developer (QSD) certification.
   - II. Provide inspection 1 day per week of stormwater Best Management Practices (BMP's) and oversee BMP implementation; inspections will be done or overseen by a QSD.
   - III. Provide quarterly non-stormwater monitoring inspection.
   - IV. Check NOAA weather forecast daily.
   - V. Provide stormwater inspection reports once a week.
   - VI. Prepare SWPPP Amendments as needed.
   - VII. Provide initial SWPPP training to contractor's staff and subcontractors at beginning of job.

PHONE: 707-693-1926 • FAX 707-471-0318 • ROBIN@TULLYGROUP.COM OR KATELYN@TULLYGROUP.COM

VIII. Exclusions; Does not include any onsite sampling or lab testing if there is an event that triggers non-stormwater, non-visible pollutant or other testing. Assumes contractor's staff can provide the daily, pre-storm, during storm and post-storm visual BMP rain event inspection to reduce costs unless otherwise contracted for (See Item F for rain event inspection).

F. Provide Stormwater Inspector for Pre-Storm, During Storm or Post Storm Inspection
   I. Provide Pre-storm inspection; before a forecasted storm event which is defined as one with a 50% chance or more of occurrence.
   II. Provide During storm inspection. This is required every 24 hours during extended storm events. A storm event is defined as one that produces or is forecasted to produce at least 0.10 inch of rain within a 24 hour period (per Caltrans definition).
   III. Provide Post storm inspection; after a qualifying rain event. A qualifying rain event is one that produces ½" or more of rain with a 48 hour or greater period between rain events.
   IV. Inspections will be done or overseen by a QSD or QSP.

G. Prepare SWPPP Amendments as needed. Caltrans requires SWPPP Water Pollution Control Drawings to be kept current with work operations. On large projects, it would be prudent to anticipate several SWPPP amendments will be needed.

Fee:

The SWPPP will be prepared for a Fixed Fee of the following, with fees billed monthly based upon percent completion:

A.	Prepare SWPPP (Part of Bid Item No. 16)	$2,400
B.	Rain Event Action Plan, $125 EA x 30 (Part of Bid Item No. 17)	$3,750
C.	Storm Water Sampling and Analysis Day, $500 EA x 80 (Bid Item No. 18)	$40,000
D.	Storm Water Annual Report, $500 EA x 3 (Bid Item No. 19)	$1,500
		$47,650.00

The following services will be provided on a Time and Materials basis as needed:

E. Provide Weekly Stormwater Inspection and Water Pollution Control Manager $ 725 per week

$125/hr x 6 hours = $750/week x 60 weeks = **$45,000 Not to Exceed**

F. Provide Stormwater Inspector for Pre-Storm, During Storm or Post Storm Inspection $ 500 EA
$125/hr x 4 hours = $500 per visit x 30 visits = **$15,000**

For quantity purposes, we estimate no more than 30 events (based upon Caltrans REAP quantities)

Estimators please note that a Prestorm Inspection (Under item F) will be required in addition to the REAP.

This is based on the project lasting 96 weeks.

G. Prepare SWPPP Amendments as needed $ 2,700

Assumes 5 amendments, 4 hours each
$135 / hr x 4 hours x 5 = $2,700 Budget

Contractors should take note that Items E and F above are required items under the Caltrans "Prepare SWPPP" Bid Item as per the 2010 Standard Specifications, Section 13-2.01A page 163. Item G should be included in the Prepare SWPPP Item as well.

For any additional services,
Rates for a QSD are: $135/hr
Rates for a QSP are $125/hr.

Fees will be due within 30 days of client's receipt of invoice. Late payments beyond 30 days past due can be subject to a 1.5% per month interest charge. Payment arrangements can be made to coincide with any owner to contractor payment installments.

Timing and deliverables:

The SWPPP will be provided within 2 weeks of authorization to proceed. The document will be provided in hard copy (4 copies) and electronic PDF format.

Sincerely,

Robin Tully

Subject: Disadvantaged Business Enterprise Certification No. 38334

Dear Ms. Koprek:

We are pleased to advise you that after careful review of your application and supporting documentation, the Bay Area Rapid Transit District (BART) has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under the following specific areas of expertise that you have identified on the NAICS Codes form of the Application Package:

NAICS Codes
541620

Your DBE certification is good for five years from the date of this letter and applies only for the above codes. Any additions and revisions must be submitted to the Bay Area Rapid Transit District (BART) for approval.

Near the end of your five-year certification period, your entire file will be reviewed in order to ascertain continued DBE certification status. You will be notified of the pending DBE status review and any documentation updates necessary several weeks prior to the renewal due date.

The Regulations also require annual updates during this five-year period. In order to assure continuing DBE status, you must submit annually a No Change Declaration form (which will be sent to you), along with supporting documentation. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until the end of your five-year certification period.

Also, should any changes occur that could affect your certification status prior to receipt of the DBE Declaration, such as changes in your firm's name, business/mailing address, ownership, management or control, or failure to meet the applicable business size standards or personal net worth standard, please notify me immediately. DBE certification is subject to review at any time. Failure to submit forms and/or change of information will be deemed a failure to cooperate under Section 26.109 of the Regulations.

You should know that all U.S. DOT recipients in California will honor your DBE certification status if your firm is certified by **any** one of the CUCP certifying agencies listed below:

- California Department of Transportation (Caltrans)
- Central Contra Costa Transit Authority (CCCTA)
- City of Fresno
- City of Los Angeles
- Los Angeles County Metropolitan Transportation Authority (METRO)
- Orange County Transportation Authority (OCTA)
- San Diego County Regional Airport Authority
- San Francisco Bay Area Rapid Transit District (BART)
- San Francisco International Airport
- San Francisco Municipal Transportation Agency (SFMTA)
- San Mateo County Transit District (SamTrans)/Peninsula Corridor Joint Powers Board (JPB)
- Santa Clara Valley Transportation Authority (VTA)
- Yolo County Transportation District (Yolobus)

RE: Proposal for SWPPP for Caltrans 03-1F4004, Widen Eastbound Roadway on State Route 80, Bids 11/18/15

Dear Prime Contractor;

Thank you for the opportunity to provide a bid for this work. We provide civil and stormwater engineering services. This proposal assumes the project is a Risk Level 2.

We are currently the WPC Manager for another District 3 project on State Route 80 and want to let the contractor know to expect significant SWPPP, BMP Maintenance and Monitoring expectations from this District.

Scope of Work:

A. Prepare Stormwater Pollution Prevention Plan (SWPPP).
   - I. Prepare SWPPP per State and contract requirements. Include Rain Event Action Plan (REAP) template, Construction Site Monitoring Plan and Sampling and Analysis Plan where required.
   - II. Prepare Water Pollution Control Drawings as part of the SWPPP.
   - III. Exclusions: Installation and implementation of water pollution practices, providing a WPC Manager, conducting training, and monitoring, inspection and correcting water pollution control practices are excluded. A WPC Manager, training, monitoring and inspection are available as an additional service upon request.

B. Rain Event Action Plans (REAPs).
   - I. Prepare REAPs prior to a rain event with 50% or more chance of occurrence; prepared by a Qualified SWPPP Developer (QSD).
   - II. Exclusions; this contract item can only be provided if we are selected to also perform Stormwater inspection or WPC Manager services. This does not include a pre-storm inspection which would be covered under other bid items.

C. Storm Water Sampling and Analysis Day.
   - I. Provide pH and turbidity sampling of runoff. Collect 3 minimum grab samples per day of stormwater runoff during a qualifying rain event. A qualifying rain event is one that produces 0.5" or more of rain with 48 hours of dry weather in between storm events. Sampling will be done using field meters. Document sampling on the Caltrans CEM2052 Field Test report form.

D. Storm Water Annual Report
   - I. Prepare Stormwater Annual Report in accordance with SWRCB and Caltrans requirements.
   - II. Report will be prepared by a Qualified SWPPP Developer (QSD).

E. Provide Weekly Stormwater Inspection and Water Pollution Control Manager
   - I. Provide Water Pollution Control Manager (WPC Manager) with appropriate Qualified SWPPP Developer (QSD) certification.
   - II. Provide inspection 1 day per week of stormwater Best Management Practices (BMP's) and oversee BMP implementation; inspections will be done or overseen by a QSD.
   - III. Provide quarterly non-stormwater monitoring inspection.
   - IV. Check NOAA weather forecast daily.
   - V. Provide stormwater inspection reports once a week.
   - VI. Prepare SWPPP Amendments as needed.
   - VII. Provide initial SWPPP training to contractor's staff and subcontractors at beginning of job.

PHONE: 707-693-1926 • FAX 707-471-0318 • ROBIN@TULLYGROUP.COM OR KATELYN@TULLYGROUP.COM

VIII. Exclusions; Does not include any onsite sampling or lab testing if there is an event that triggers non-stormwater, non-visible pollutant or other testing. Assumes contractor's staff can provide the daily, pre-storm, during storm and post-storm visual BMP rain event inspection to reduce costs unless otherwise contracted for (See Item F for rain event inspection).

F. Provide Stormwater Inspector for Pre-Storm, During Storm or Post Storm Inspection
   I. Provide Pre-storm inspection; before a forecasted storm event which is defined as one with a 50% chance or more of occurrence.
   II. Provide During storm inspection. This is required every 24 hours during extended storm events. A storm event is defined as one that produces or is forecasted to produce at least 0.10 inch of rain within a 24 hour period (per Caltrans definition).
   III. Provide Post storm inspection; after a qualifying rain event. A qualifying rain event is one that produces ½" or more of rain with a 48 hour or greater period between rain events.
   IV. Inspections will be done or overseen by a QSD or QSP.

G. Prepare SWPPP Amendments as needed. Caltrans requires SWPPP Water Pollution Control Drawings to be kept current with work operations. On large projects, it would be prudent to anticipate several SWPPP amendments will be needed.

Fee:

The SWPPP will be prepared for a Fixed Fee of the following, with fees billed monthly based upon percent completion:

A.	Prepare SWPPP (Part of Bid Item No. 16)	$2,400
B.	Rain Event Action Plan, $125 EA x 30 (Part of Bid Item No. 17)	$3,750
C.	Storm Water Sampling and Analysis Day, $500 EA x 80 (Bid Item No. 18)	$40,000
D.	Storm Water Annual Report, $500 EA x 3 (Bid Item No. 19)	$1,500

The following services will be provided on a Time and Materials basis as needed:

E. Provide Weekly Stormwater Inspection and Water Pollution Control Manager $ 725 per week

$125/hr x 6 hours = $750/week x 60 weeks = **$45,000 Not to Exceed**

F. Provide Stormwater Inspector for Pre-Storm, During Storm or Post Storm Inspection $ 500 EA
$125/hr x 4 hours = $500 per visit x 30 visits = **$15,000**

For quantity purposes, we estimate no more than 30 events (based upon Caltrans REAP quantities)

Estimators please note that a Prestorm Inspection (Under item F) will be required in addition to the REAP.

This is based on the project lasting 96 weeks.

G. Prepare SWPPP Amendments as needed $ 2,700

Assumes 5 amendments, 4 hours each
$135 / hr x 4 hours x 5 = $2,700 Budget

PROPOSAL INCLUSIONS:

1. One mobilization / demobilization to the project site for the CIPP lining crew. If the Add Alternate is provided by SAK, one mobilization / demobilization to the project site for the pre-lining cleaning & CCTV inspection crew will also be provided. Any additional mobilizations will be negotiated as extra work.

CA STATE CONTRACTOR LICENSE NO.: 984560
CA DIR REGISTRATION NO.: 1000002435

2. IF THE ADD ALTERNATE IS PROVIDED BY SAK: Prior to lining operations, perform cleaning of the existing mainline pipe to remove debris that can be removed with standard pipe cleaning equipment and dispose of the collected debris at a site provided by the General Contractor. Subsequent to cleaning operations and prior to CIPP lining, perform CCTV inspection of the existing mainline pipe and provide required documentation of the inspection to the General Contractor. Pre-lining cleaning & CCTV inspection of the host pipe is offered as an Add Alternate for the General Contractor, and only pipes being lined with CIPP by SAK will be cleaned and CCTV inspected. If the General Contractor elects to self-perform the pre-lining cleaning and CCTV inspection, or have it performed by others, then the Add Alternate containing the pre-lining cleaning and CCTV inspection items may be deleted in its entirety from this proposal without affecting the remaining pricing, terms, and conditions contained herein.
3. Install approximately 5,150 LF of cured-in-place pipe (CIPP) in the designated 18" – 48" diameter pipelines. The CIPP will utilize a polyester resin system and be installed per the requirements of the Cured-in-place Pipeliner (CIPP) specification section 15-6.11.
4. If needed, provide reinstatement of any laterals or downdrains encountered in the CIPP-lined pipes on a negotiated basis. Currently, the project documents do not show any laterals or downdrains entering the pipelines designated for CIPP installation that would require reinstatement by SAK after lining.
5. Provide required testing of samples of the installed CIPP at an independent laboratory to confirm conformance with minimum specified physical properties. Sampling methods and frequency will conform to specified parameters.
6. Perform CCTV inspection of the CIPP-lined mainline pipe immediately subsequent to CIPP lining and provide required documentation of the inspection to the General Contractor. Only mainline pipes that have been lined with CIPP by SAK will be inspected.
7. Payment of California State Sales Tax as applicable for the scope of work covered under this proposal.
8. Provide standard 1-year construction warranty on CIPP materials and workmanship.
9. Provide certificate of insurance and endorsements evidencing typical coverage and limits for General Liability ($1 million / $2 million), Automobile Liability ($1 million), Workers' Compensation & Employer's Liability ($1 million), and if required, Excess Liability ($5 million). If insurance coverage above and beyond this is required, the General Contractor will be responsible for securing any additional insurance coverage or reimbursing SAK for the costs associated with obtaining the additional insurance.
10. When payment of prevailing wages is applicable, provide the required documentation showing workers on this project have been paid in accordance with the relevant prevailing wage determination for the appropriate laborer classification.

PROPOSAL EXCLUSIONS:

The following items are not included in this proposal, and when required, will be provided by the General Contractor at no cost to SAK. If SAK is required to provide any of these items, the costs will be charged to the General Contractor as extra work.

1. IF THE ADD ALTERNATE IS PROVIDED BY THE GENERAL CONTRACTOR OR OTHERS: If the Add Alternate containing the items for pre-lining cleaning & CCTV inspection of the host pipe is deleted from this proposal and SAK's scope of work, then the General Contractor shall perform the complete cleaning of the existing mainline pipe required prior to lining and dispose of the collected debris. The General Contractor shall also perform the CCTV inspection of the existing mainline pipe required subsequent to cleaning and prior to CIPP lining to confirm the adequacy of the cleaning operations and to confirm that no obstacle remains in the pipe that would impede lining. This shall also include taking measurements of the actual diameters, circumferences (for non-circular pipe), and lengths of the pipelines to be lined. The General Contractor shall provide records & documentation of the completed cleaning, CCTV inspection, and pipe measurements to SAK sufficiently in advance of the start of lining so that SAK may confirm that the pipe is ready to be lined and arrange for the necessary CIPP materials in a timely manner. The General Contractor shall also provide any required records & documentation of the completed CCTV inspection to the Owner.
2. Provide any necessary traffic, parking, &/or pedestrian control. Traffic, parking, &/or pedestrian control systems shall be coordinated to accommodate SAK's operations and placed in a timely manner such that SAK's operations are not impeded or delayed. The General Contractor shall also be responsible for all required traffic control plans.

3. Provide any point repairs or other repairs necessary or required to repair or prepare the existing pipeline for CIPP lining. This shall include providing any grouting or cement slurry backfill of holes in the pipe or voids outside the pipe required prior to or after lining
4. Provide legal and physical access to the pipeline, manholes, structures, inlets, outlets, catch basins and other access points sufficient to allow CIPP lining operations to be conducted, and to allow large trucks and equipment to access the inlets, outlets, catch basins, structures, and manholes directly when in streets, or as near as possible for easement locations. This shall include locating, exposing, and making accessible any manholes, structures, inlets, outlets, catch basins, or other access points associated with the lining work, including any necessary alterations to fencing, trees, and vegetation; snow &/or ice removal; excavation, clearing, or regrading of existing flowlines or channels; clearing of brush, trees, and debris outside of the pipe or obstructing the ends of the pipe; and providing any final restoration once lining operations are complete. When necessary, this shall also include providing expanded access by either staging construction of new storm drain structures or temporarily altering existing storm drain structures where the existing or new structure configuration will impede lining operations.
5. Provide any final repair, testing &/or inspection of CIPP-lined pipes when additional work has been performed in or on those pipes by others subsequent to the completion of SAK's work.
6. Provide access to a high-volume water supply at the project site either from fire hydrants, or other high-volume on-demand sources, as designated by and coordinated with SAK. Access to the water source must be within a mutually agreed upon distance from the installation sites.
7. Provide access to appropriate dump sites at the project site for disposal of liquids and material collected from the pipelines during pipeline cleaning and lining operations and other waste materials from the project. If SAK will be providing the pre-lining cleaning, the General Contractor shall also provide any required containment and filtration of cleaning wastewater prior to discharge.
8. Provide access to a secure yard at or near site for staging and storage of equipment and materials.
9. Provide all required notifications of agencies and other parties affected by the work. This shall include providing any necessary public relations work.
10. Obtain and pay for all special licenses, permits, variances, or other fees required to perform the work. The only exception to this is that SAK will obtain and pay for its own city &/or county business license(s), when required.
11. Subcontract bonds are not included. If subcontract bonds will be required, they can be provided for an additional fee of 1.5% of the bonded amount. Period of coverage for the bonds shall not exceed 1 year.

OTHER CONDITIONS:

1. Work covered by this proposal will be performed under a mutually agreed upon subcontract agreement which incorporates the terms and conditions contained in this proposal either by direct attachment, by insertion, or by reference. In case of conflict, the terms and conditions of this proposal shall prevail. The subcontract agreement shall not require either party to be liable to the other for consequential damages arising out of or relating to the subcontract or contract.
2. Work covered by this proposal will be performed under a mutually agreed upon project schedule. No material acquisition or mobilization will commence prior to the execution of a mutually agreed upon subcontract agreement. Once crews have been mobilized to site, work covered under this proposal must be able to proceed at an unrestricted pace without impediment or delay. If CIPP operations are delayed by the General Contractor or others, then standby costs &/or additional mobilization costs will be charged to the General Contractor accordingly.
3. This proposal is based on performing the CIPP lining work after an extended period of dry weather, so that flows in the storm drains are eliminated and a diversion or bypass is not required. If this is not the case, and work must be scheduled prior to the storm drains being in a dry condition, of if the storm drains never achieve a dry condition, then the General Contractor shall provide any necessary plugging, damming, diversion, and/or bypass pumping of existing pipeline flows, including providing any necessary dewatering of the pipelines, structures, and liner termination points once the plugs, dams, diversion, &/or bypass systems are in place and operating. Bypass or diversions systems shall be coordinated to accommodate SAK's operations and placed in a timely manner such that SAK's equipment and personnel are not obstructed by suction & discharge locations, and CIPP lining operations are not impeded or delayed.

4. Normal working hours for installing CIPP are 24-hours a day due to the nature of the product, which requires that once an install is started, it cannot be suspended until it is completed. To the extent that SAK will incur overtime expenses due to this schedule, those costs have been anticipated and are covered in this proposal. However, SAK will not be liable for any penalties, liquidated damages, overtime inspection costs, or other fees that may result from these required working hours.

5. Progress and final payments are due within 30 days of invoice, or when applicable regulations require, whichever is soonest. Release of any withheld retention shall be no later than 30 days from the completion and acceptance of the work covered under this proposal, excluding any subsequent work required in the warranty period, and regardless of whether the General Contractor's retention has been released by the Owner. If retention is not withheld from the General Contractor's payments, then retention shall not be withheld from SAK's payments. Overdue amounts will be subject to interest at a rate of 1.5% monthly, 18% annually.

6. This proposal covers only the scope of work specifically included above. It does not cover performing any cleaning or inspection of pipe or structures not specifically included above; warranty inspections or testing; verification of active/inactive status of laterals; alteration, repair, installation, or rehabilitation of manholes or other structures; abandonment of any pipe or structures; bypassing, plugging, damming, diversion, or dewatering of existing pipe flows or structures; pedestrian control, parking control, or traffic control; sampling or testing of the installed CIPP liner not specifically included above; sampling or testing of any substances or materials on the project not specifically included above; alteration, testing, sealing, repair, replacement, or rehabilitation of any lateral pipes or lateral connections, aside from any internal reinstatement specifically included above; grouting or repair of obstructions, voids, or defects in the host pipe prior to or after lining; mandrel testing or other similar testing of the pipe; or any work requiring excavation. This proposal also does not cover providing any field yards, meeting facilities, or office facilities for the project; phones, cameras, computer software, or computer equipment for the use of the General Contractor or Owner; photos or other documentation for record of pre- or post-construction site conditions; tree or vegetation clearing, trimming, removal, protection or restoration; snow &/or ice removal; handling, transportation, or disposal of hazardous materials; surveying or staking; engineered plans, designs, or drawings; preparation or implementation of any pollution control or environmental protection programs or plans; environmental stewardship; street sweeping; security; fire control truck and operator; fencing of any kind; erosion or sedimentation control; public relations work; project signs or advance notification signs; and any necessary archaeological, biological, or ground settlement / movement monitoring and mitigation. If any of this type of work is required to be performed by SAK, it will be considered to be extra work and charged accordingly.

7. For the purposes of this proposal, the General Contractor shall be defined to be the entity contracting with SAK to perform the work covered under this proposal.

8. For this proposal to remain valid, SAK must receive a subcontract, purchase order, or binding letter of intent within 90 days from the date of proposal submission as indicated above. SAK understands that the work covered under this proposal may not occur until potentially as late as the end of summer 2016.

SAK acknowledges receipt of THREE (3) addenda for this project
