Find A Certified DBE Firm

The Disadvantaged Business Enterprise (DBE) Database contains information on certified DBE firms and is updated daily. To ensure that the database has the most current DBE's contact information regard your firm, please email the Office of Business and Economic Opportunity, Certification Office at DBE_Certification@dot.ca.gov.

Use the following database query form to find certified DBE firms for solicitation to meet DBE goal and contracting requirements. The entire Unified Certification Program (UCP) Database can be download by selecting the "Start Search – Export Options" button on the query form. The export feature allows you to download data in Excel, XML, PDF and CSV formats.

Important note regarding Commercially Useful Function (CUF): Per DBE regulation 49 CFR 26.73 et seq, consideration of whether a firm performs CUF is NOT reviewed when making decision to certify firms as DBEs. Certification is based primarily on the disadvantaged owner proving that he/she can own and control a firm engaged in the primary activity it is being certified for. It is therefore imperative that prime contractors complete their own due diligence regarding CUF before committing and hiring firms listed on this directory. For details, review the regulation here: <http://bit.ly/Myih1u>

- [Click here to Access the Work Code Template](#)
You may need to upgrade your Browser to view/download this

The Work Codes supplement NAICS Codes that are used by the UCP during DBE certification process. It is classification scheme of equivalent detail and specificity, describing work a DBE firm states it can perform, whether on initial certification or when a new type of work is added to an existing certification.

These codes provide a general overview of the process used to determine code assignment, which in part includes taking into consideration the description of work and the licenses which may be necessary to prove control of the business.

The template is not an all encompassing list of work DBE firms perform and should be used as a guide only. Certified DBE firms can always request their certifying agency (any time) to review their business activities and add or remove codes as and when necessary.

Should you have suggestions or concerns regarding the work code template, please send those to us at DBE_Certification@dot.ca.gov.

Find A Certified DBE Firm

The Disadvantaged Business Enterprise (DBE) Database contains information on certified DBE firms and is updated daily. To ensure that the database has the most current DBE's contact information regard your firm, please email the Office of Business and Economic Opportunity, Certification Office at DBE_Certification@dot.ca.gov.

Use the following database query form to find certified DBE firms for solicitation to meet DBE goal and contracting requirements. The entire Unified Certification Program (UCP) Database can be download by selecting the "Start Search – Export Options" button on the query form. The export feature allows you to download data in Excel, XML, PDF and CSV formats.

Important note regarding Commercially Useful Function (CUF): Per DBE regulation 49 CFR 26.73 et seq, consideration of whether a firm performs CUF is NOT reviewed when making decision to certify firms as DBEs. Certification is based primarily on the disadvantaged owner proving that he/she can own and control a firm engaged in the primary activity it is being certified for. It is therefore imperative that prime contractors complete their own due diligence regarding CUF before committing and hiring firms listed on this directory. For details, review the regulation here: <http://bit.ly/Myih1u>

You may need to upgrade your Browser to view/download this

The Work Codes supplement NAICS Codes that are used by the UCP during DBE certification process. It is classification scheme of equivalent detail and specificity, describing work a DBE firm states it can perform, whether on initial certification or when a new type of work is added to an existing certification.

These codes provide a general overview of the process used to determine code assignment, which in part includes taking into consideration the description of work and the licenses which may be necessary to prove control of the business.

The template is not an all encompassing list of work DBE firms perform and should be used as a guide only. Certified DBE firms can always request their certifying agency (any time) to review their business activities and add or remove codes as and when necessary.

Should you have suggestions or concerns regarding the work code template, please send those to us at DBE_Certification@dot.ca.gov.

This database extract contains firm records sorted by Certifying Agency, NAICS Codes, Work Codes, etc. Should you need assistance in downloading these records, please call or email Office of Business & Economic Opportunity Certification Office.

The North American Industry Classification System (NAICS) Code:

The NAICS Code is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. Use the U.S. Census Bureau [NAICS Search](#) page to determine the NAICS Code.

compliance monitoring, pre-construction surveying and compliance reporting. And, with the addition of our new fisheries biologist (previously with CDFG), we are now specializing in fish salvage plans, electro-fishing, and SWAMP (Surface Water Ambient Monitoring Program) monitoring. Based on our excellent track record and our extensive knowledge of local, state and Caltrans/FHWA processes, NorthStar has been selected by Caltrans to provide the above noted services on emergency projects. NorthStar also now has the ability to provide UDBE compliance by teaming with Uma Hinman Consulting, Environmental Planning. Please visit our website located at www.NorthStareng.com. In addition to our biological permitting and monitoring our Parent Company, NorthStar Engineering, provides SWPPP plans and monitoring. Our team approach provides consistency on the job site for all of your environmental monitoring, as well as discounted rates when both teams are utilized.

03-3E6204	Services offered: The NorthStar's Environmental team; formerly known as Gallaway Consulting, has served the north state for 20 years. Although our name has changed, we are still comprised of the same great team of biologists, botanists and environmental planners that you have worked with for years. NorthStar has Caltrans approved biologists and regulatory specialists that are capable of meeting all Caltrans requirements. Our biologists are permitted under our Federal Fish and Wildlife Take Permit #TE54667A-0. We continue to provide expertise and experience in Natural Resource Protection Plans, Biological Resource Information Plans, migratory bird and bat surveys and plans, giant garter snake monitoring, benthic invertebrate assessments,

compliance monitoring, pre-construction surveying and compliance reporting. And, with the addition of our new fisheries biologist (previously with CDFG), we are now specializing in fish salvage plans, electro-fishing, and SWAMP (Surface Water Ambient Monitoring Program) monitoring. Based on our excellent track record and our extensive knowledge of local, state and Caltrans/FHWA processes, NorthStar has been selected by Caltrans to provide the above noted services on emergency projects. NorthStar also now has the ability to provide UDBE compliance by teaming with Uma Hinman Consulting, Environmental Planning. Please visit our website located at www.NorthStareng.com. In addition to our biological permitting and monitoring our Parent Company, NorthStar Engineering, provides SWPPP plans and monitoring. Our team approach provides consistency on the job site for all of your environmental monitoring, as well as discounted rates when both teams are utilized.
