Dear Mr. Burke:

The Department of Transportation (Caltrans) received the attached letter dated March 19, 2013 from Granite Construction Company (Granite) protesting Sierra Nevada Construction's (Sierra Nevada) bid. The protest alleges that Sierra Nevada failed to meet the Disadvantaged Business Enterprise (DBE) goal of 8 percent.

Caltrans conducted a review of the protest and found that Sierra Nevada did meet the stated DBE goal for the contract.

Based on the above, Caltrans finds Granite's protest lacks merit and will proceed to award the contract to the lowest responsible bidder provided that all requirements are met.

If you have any questions, please contact Mulissa Smith, Contract Awards Branch Manager, at (916) 227-6228.

Sincerely,

A handwritten signature in black ink, appearing to read "John C. McMILLAN", with a stylized flourish.

RE: Caltrans Contract #03-3F0304

Subject: Bid Protest

Dear Mr. McMillan,

Granite Construction Company (Granite) hereby protests the potential award of the above referenced Contract to Sierra Nevada Construction (SNC). On February 27, 2013, SNC submitted the apparent low bid on the Contract. Granite submitted the second low bid, thus having standing for this protest.

While SNC's listed amounts on the "Caltrans Bidder - DBE - Commitment" form show that SNC purportedly met the DBE goal, discrepancies exist nullifying SNC's bid. As supported by the enclosed documentation, the inconsistencies in the following bid items prices versus DBE commitment values show that SNC inflated its DBE participation in the DBE Commitment Form.

Bid Item	Description	Bid Price	DBE Commitment	Variance (Amount Claimed Over the Bid Price)
#1	Lead Compliance Plan	\$ 500.00	\$ 1,900.00	\$ 1,400.00
#2	Construction Area Signs	\$ 3,300.00	\$ 3,400.00	\$ 100.00
#5	Portable Changeable Message Sign (LS)	\$ 3,000.00	\$ 9,600.00	\$ 6,600.00
Total Excess DBE Commitment				\$ 8,100.00

SNC claims more DBE commitment value than referenced in the respective bid item prices, overstating SNC's claimed DBE value by \$8,100. As a result, SNC failed to meet the DBE Goal of 8% for this Contract by 0.48%.

Due to the errors stated above, SNC's bid should be deemed non-responsive, and Granite should be declared the lowest responsive bidder and awarded the contract

**I. SNC Failed to Make Contract DBE Goal**

Since SNC's claimed DBE commitment should be reduced by the discrepancy between the commitment values and bid item prices, SNC failed to meet the Contract's DBE Goal by 0.48%. Granite submitted the lowest responsive bid on this project, meeting the DBE Goal.

Per the Contract's Specifications, bidders are required to "[t]ake necessary and reasonable steps to ensure that DBEs have the opportunity to participate in the contract." (See Standard Specification 2-1.12A). To this end, each bidder was required to meet the 8% Contract DBE goal or demonstrate that it made adequate good faith efforts to meet that goal.

## II. Defects in SNC's Bid Are Material

California Public Contract Code §10180 requires the Department to award its construction contracts to the lowest responsive bidder via competitive bidding. "A basic rule of competitive bidding is that bids must conform with specifications, and that if a bid does not so conform, it may not be accepted." *Konica Business Machines USA, Inc. v. Regents of University of California* (1988) 206 Cal. App. 3d 449, 454. "The purpose of requiring governmental entities to open the contracts process to public bidding is to eliminate favoritism, fraud and corruption; avoid misuse of public funds; and stimulate advantageous market place competition." (See legislative intent declared in the citations to Pub. Cont. Code, § 10300.)

A bid that does not strictly conform to the call for bids cannot be accepted if the variance could have affected the amount of the bid or given the bidder an advantage or benefit not allowed other bidders. In other words, a public agency can only waive a deviation from bid specifications that is inconsequential and not material. A bid containing a material deviation must be rejected as non-responsive. See 47 Ops.Cal.Atty.Gen. 129, 130 (1966); *Konica*, supra, 206 Cal. App. 3d at 454; see also *Valley Crest Landscape, Inc. v. City Council* (1996) 41 Cal. App. 4th 1432. Factors considered in determining whether a deviation is a minor irregularity or material departure include whether the deviation could be a vehicle for favoritism, affect the amount of the bid, influence potential bidders to refrain from bidding, or affect the awarding entity's ability to make bid comparisons. *Konica*, supra, 206 Cal. App. 3d at 455.

In this case, SNC's violations of the Department's Bid Specifications and governing DBE regulations created an advantage for SNC not available to other bidders. The defects in its bid enabled SNC to claim more DBE participation than that to which it was entitled. In sum, SNC failed to satisfy the mandates contained in specifications and significantly overstated its DBE participation. Such defects are material, give SNC a competitive advantage over other bidders, and render SNC's bid non-responsive. Because Granite submitted the lowest responsive and responsible bid, it should be awarded the Contract.

If you have any questions or require additional information please contact me at your convenience.

Sincerely,

Chris Burke

Dear Mr. Burke:

The Department of Transportation (Caltrans) received the attached letter dated March 19, 2013 from Granite Construction Company (Granite) protesting Sierra Nevada Construction's (Sierra Nevada) bid. The protest alleges that Sierra Nevada failed to meet the Disadvantaged Business Enterprise (DBE) goal of 8 percent.

Caltrans conducted a review of the protest and found that Sierra Nevada did meet the stated DBE goal for the contract.

Based on the above, Caltrans finds Granite's protest lacks merit and will proceed to award the contract to the lowest responsible bidder provided that all requirements are met.

If you have any questions, please contact Mulissa Smith, Contract Awards Branch Manager, at (916) 227-6228.

Sincerely,

  
JOHN C. McMULLAN  
Deputy Division Chief  
Office Engineer  
Division of Engineering Services
