ABSL Construction to cold plane asphalt concrete and load cuttings into trucks provided by the contractor.  
Portland cement concrete grinding is excluded from this quotation.

ABSL Construction will cold plane as close as possible to existing manholes, water valves, and other obstructions in cutting plane. Handwork and placing temporary asphalt tapers around these objects or at pavement edge for safety requirements are excluded.

Contractor to provide water or water meter and provide traffic control during cold planing operation.

All areas to be ground shall be clearly marked by the general or the job inspector.

Anything not specifically included in this price should be considered excluded.

ABSL Construction does not accept backcharges due to machine breakdown during operation above the machine's daily rental fee.

Back charges will only be based on the time the machine is broken and will reflect the cost of the equipment for that time. All others costs due to the equipment breakdown will not be charged to ABSL Construction.

ABSL does not accept force account rates or retention.

This quotation will be part of our contract or purchase order agreement and is valid for one month after the bid date.

If you have any questions regarding the above quote please call me at (916) 379-0442 or fax at (916) 379-0443.

Sincerely,

Todd Wheeler

**Prices are subject to the following terms and conditions:**

Haul only pricing is based on the customer's direct purchase and scheduling with the material supplier or dump site.

Delivered pricing includes scheduling, costs of materials, applicable tax and cost of trucking (tonnage rate conditions will apply).

Tonnage/Per Load rates will include the following conditions:

- Transfers are allotted 15 min. to load/20 min. to dump, end dumps and bottom dumps are allotted 15 min. to load/15 min. to dump; time exceeding the allotted time for each truck will be billed at a rate of \$1.50 per minute. If the standby time exceeds 30 minutes that truck will be billed at the applicable hourly rate.
- Flatbeds are allotted 1 hour to load and 1 hour to unload; if loading/unloading exceeds allotted time the truck will be billed at the applicable hourly rate.
- If the supplier or material changes during a shift the shift will be billed hourly.
- If the delivery site changes the shift will be billed hourly.
- Partial shifts will also be billed hourly.
- For work performed under this tonnage rate agreement on weekends or holidays, an additional 5% will be charged per ton.
- For work performed under this tonnage rate agreement after December 31, 2015 the rates are subject to a 5% cost of living increase.

On Site Hauling: If the project requires on site hauling, where prevailing wage rates or Davis-Bacon Act wage rates apply add an additional 30% to the applicable hourly or tonnage rate.

All prices quoted are subject to fuel increases. A copy of our Fuel Surcharge Assessment is attached. There is a four (4) hour minimum charge per truck. For night work there is a six (6) hour minimum charge per truck. There is a two (2) hour show-up time charge per truck if the job is cancelled and the truck(s) have already shown up on the job site. Payments for invoices are due within thirty (30) days of the invoice date. All prices are for work performed through December 31<sup>st</sup> 2015. For work performed after December 31<sup>st</sup> 2015 the rates are subject to a 5% cost of living increase. Prices quoted are good for a period of thirty (30) days from the bid date.

A signed work/purchase order constitutes acceptance of these terms.

Thank you,  
Jennifer Gemignani

## Fuel Surcharge Assessment:

A fuel surcharge is assessed when fuel prices reach \$4.25 per gallon as reported by the U.S. Energy Information Administration. The fuel surcharge is 1% for every \$0.10 increase in fuel prices, or portion thereof. The breakdown is as follows:

Diesel price \$/gallon	% increase to hourly/tonnage rate
\$4.25 - \$4.349	1%
\$4.35 - \$4.449	2%
\$4.45 - \$4.549	3%
\$4.55 - \$4.649	4%
\$4.65 - \$4.749	5%
\$4.75 - \$4.849	6%
\$4.85 - \$4.949	7%
\$4.95 - \$5.049	8%
\$5.05 - \$5.149	9%
\$5.15 - \$5.249	10%
\$5.25 - \$5.349	11%
\$5.35 - \$5.449	12%
\$5.45 - \$5.549	13%
\$5.55 - \$5.649	14%
\$5.65 - \$5.749	15%

\*\$5.75 and above add an additional 1% for each \$0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: [www.eia.doe.gov/oog/info/wohdp/diesel.asp](http://www.eia.doe.gov/oog/info/wohdp/diesel.asp).

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked within that week.

A signed work/purchase order constitutes acceptance of these terms.

Thank you.  
Jennifer Gemignani

Good Faith Efforts**

MBC is an Equal Opportunity Employer. MBC will work cooperatively with all interested subcontractors / suppliers seeking work on this project and will work to identify opportunities to break down items into economically feasible packages.

MBC maintains a database of MBE/WBE/DVBE/DBE/SBEs compiled over the past several years of business. The database is updated regularly as new MBE/WBE/DVBE/DBE/SBEs are identified.

MBC utilized the "Opt-in" on CDOT website to identify potential DBE firms that were missed or not included in our database. These firms were contacted via telephone call.

MBC regularly attends Pre-Bid conferences when offered by Owner / Agency as a means of keeping updated on program requirements.
