R&S Trucking will accept "NO EXPENSE CHARGES OR BACK CHARGE CLAIMS" unless we are notified as stated above. R & S Trucking will then respond back to customer after investigating the incident. All claims for recovery by contractor for loss or damage to commodity hauled must follow this procedure. To clarify: R & S Trucking treats invoices billed as revenue and claims or back charges as expenses, so as such, any claims or back charges need to be received as an invoice, not a deduction on any R & S Trucking invoice. Any deviation from this procedure will not change the costs incurred and may cause immediate withdrawal of trucking from said job
12. **It is the contractor's responsibility to FAX notice to R&S Trucking Estimator prior to job bidding if certified payroll and/or union participation is required (also see item.32 following).**

Also, when partial loads are sent back from the jobsite, back to the quarry: The time spent traveling back will be charged at the quoted hourly rate.
16. If Contractor chooses not to have loads weighed, then contractor is responsible for all overloads, overload tickets, and anything that occurs if load is not weighed.
17. Contractor agrees to pay R & S Trucking by the 20th day following the last day of the calendar month in which the work was performed, billed by the 5th day of the following month. When large truck orders are continuous in a given period it may be required that the contractor will be billed weekly and said payment to be no later than 10 days of receipt of invoice. Interest to be charged on all past due accounts at the maximum allowed by law.
19. Please provide R & S Trucking Estimator with all specific job information, which will be the basis of our quotes. Specific details such as lane closures, traffic control points, project labor agreements/organized labor unions, locations for transfers to drop trailers, State, County & City agencies road closures, on and/or off-ramp turn-around access, designated truck routes per job specific contract language, etc., are needed to qualify per ton or per load rates, as these types of rates reflect time constraints. R & S Trucking reserves the right to void quoted rates that reflect time constraints (per ton or per load) at any time, due to lack of specific accurate information given at time of request. Default to hourly rates might prevail, however that could change also dependent on information given at time of request!
20. R & S Trucking provides a "Commercially Useful Function" as defined by 49 CFR 26 in achieving awarded contractors DBE commitment goals. DBE contract commitment goals, whether in dollars or percentages, are strictly the contractor's achievement responsibility, as defined by 49 CFR 26.
21. Contractor must provide a site on each job for all truckers to clean out trailers daily at end of the last load.
22. R & S Trucking is not responsible for delays caused by equipment failure of employees, agents or sub haulers of R & S Trucking, or by act of God, strikers, lockouts or similar matters beyond the control of R & S Trucking.
23. If any action at law or in equity, including an Action for Declaratory Relief, is brought to enforce or interpret the provisions of this agreement, the prevailing party shall be entitled to reasonable attorney's fee which may be set by the court in the same action or in a separate action brought for that purpose in addition to any other relief to which that party may be entitled. This agreement will be governed by and construed in accordance with the laws of the State of California.
24. Any changes to R & S Trucking freight tags must be received by FAX in the R & S Trucking main office within 2 working days from date of work performed by R & S Trucking for review.
25. Notices will be deemed communicated to either party to this agreement by either fax or certified mail using date of actual receipt of notice to receiving party.
26. R&S Trucking is not responsible for project production due to availability of trucks or any other reason, on any job.
27. As it is standard practice in the construction industry for contractors not to sign truckers trucking quotes, if R & S Trucking sign's a contractor's agreement/contract for trucking services: this action will be construed as a contractor signing an R & S Trucking complete quote with its terms & agreements. This also means that an R & S Trucking quotes supersedes any/all contractors agreements/contract/purchase order, and contractor will hold harmless anything associated in that contract, including production.
28. **R&S Trucking Co. is a VENDOR, not a SUB CONTRACTOR.**
29. Yearly escalation raise on top of the base rate quoted shall occur at 6% yearly, commencing 1 year after the job bid date, and shall continue yearly with 6% raises, year after year, for the continued duration of this same job.
30. All Asphalt mix designs, such as **Polymer blends, Rubberized, Open-Grade, etc.**, require the contractor to supply a designated clean-out area on the jobsite, and to supply release agents, such as: United Products, Smart Solve Tar Remover # 603, along with additional equipment & manpower to help facilitate the clean-out of any and all truck and trailer(s). This also includes other sticky materials: such as Bay Mud, Wet Concrete mixes, etc. The time spent on this additional clean-out is chargeable at the hourly rates listed and accrues separately for this clean-out procedure, and this extra-time is not allowed to be averaged-out. In addition, R & S Trucking only hauls rubberized/open-grade type asphalts in 5-axle Double bottoms/Semi bottoms only, when available.
31. All rates quoted reflect a diesel cost per gallon up to and including: \$ 3.25/per gallon. After it rises to: \$ 3.26/per gallon, R & S Trucking will apply a **diesel fuel surcharge rate of 1% for every \$.10 cent per gallon cost increase**, as reported by the U.S. Dept. of Energy weekly on-highway diesel cost reports. Applying a diesel surcharge, after \$ 3.26/per gallon, shall be billed thru the previous weeks trucking work (1 week in arrears).
32. All quoted rates DO NOT reflect the cost of an on-site truck boss. If the need of one is required, and mutually agreed upon by R & S Trucking and the contractor requesting this need, then the requesting contractor agrees to pay all costs associated for an on-site truck boss type monitor: This additional fee typically runs approx. \$ 350.00/per day/per 8 hour shift; plus fuel cost. This rate is subject to change accordingly.

Continued.....

- 33. R & S Trucking is not a union company. We are not affiliated or part of any union organization or any union subsidiary. We do not follow any union structure, including but not limited to any union laws, guidelines, wage structure, rules or regulations.
- 34. R & S Trucking is not obligated to become a member of the Teamsters or join into any other agreement with any organized union organization arising from PLA (project labor agreements).
- 35. When "budget trucking only estimates" are provided alongside quoted hourly rates, these budgets are provided reflecting the contractors/estimators desire & requests to help arrive to a: "Approximation of time cycles and/or tonnage estimate to help create a budget cost +/-". These budget costs/rates are not to be considered accurate enough for a commitment and are created only for a convenience. therefor only the hourly rates quoted at the time shall prevail.

Mr. Abel Canlas

Petaluma, CA 94952

Subject: Quality Control Testing and Inspection for Caltrans Contract No. 04-1J1704 on Route 1 between Valley Ford Rd and Bay Hill Rd.

Dear Abel:

We are providing a proposal for Quality Control Testing and Inspection for the subject project.

The will be constructed with both HMA and RHMA. The HMA may require compaction testing, but will be placed at low tonnage. The RHMA will require sampling and monitoring of placement. No compaction is required because the lift thickness is less than 0.15 ft. The supplier will perform materials testing. Our scope of work will consist of a quality control plan, pre-construction meeting, mix designs, and daily paving inspection and testing. Our inspection and testing fees are provided per day and are based on prevailing wage.

This project has more testing required than previous Caltrans projects. In addition to production TSR's, the specifications also require Hamburg Wheel Track testing every 10,000 tons. Full aggregate property tests including: VMA, VFA and dust proportion testing is required for each 10,000 tons of HMA or RHMA placed. In the past this testing has only been performed at production start-up.

The following is a breakdown of our QC Management Services:

<u>QC MANAGEMENT</u>		
ITEM		FEE
QC PLAN		\$350
CALTRANS MEETINGS: Includes preparation, travel, and time spent at the meeting for one engineer or project manager to attend a pre-paving conference, weekly paving conference, or other meeting with Caltrans at which the contractor requests our attendance.	Each	\$350

700

Mr. Abel Canlas
 August 19, 2015
 MP15-369
 Page 2

The QC management portion of the work includes all costs associated with developing an approved QC Plan and attendance at the pre-pave meeting and any other required QC meeting requested by the contractor or Resident Engineer.

The following is the cost for developing mix designs:

MIX DESIGNS		
ITEM		FEE
SUPERPAVE HMA MIX DESIGNS	Each	\$2,750
SUPERPAVE RHMA MIX DESIGNS	Each	\$4,500
TSR TESTS - Laboratory Produced for Mix Design (Treated and Un-treated required)	Each	\$1,150
HAMBURG TESTS - Laboratory Produced for Mix Design (Treated and Un-treated required)	Each	\$1,000

19,750

Typically these services are provided by the supplier and in many instances the supplier already has a verified JMF.

The following is the cost breakdown for RHMA production paving if the supplier provides plant inspection and testing, and is based on an 8-hour workday:

PRODUCTION PAVING – HMA AND RHMA		
ITEM		FEE
PAVING TESTING & INSPECTION: Includes QC manager/engineer (1 hour per day for test result review), one person performing mat inspection/sampling, and monitoring compaction by observing rolling patterns (1 person crew). Also includes laboratory testing for AASHTO T275 and T209 for mix voids.	Per Day	\$1,200
HMA & RHMA PRODUCTION START-UP: in addition to standard daily fee for the additional required RHMA testing (2 each).	Each	\$650
HMA & RHMA PRODUCTION TSR's: at start-up and one per 10,000 tons (2 Each).	Each	\$875
RHMA PRODUCTION HAMBURG: at start-up and one per 10,000 tons (2 Each).	Each	\$950
HMA MIX PROPERTY TESTS: (includes VMA) one per 10,000 tons (1 Each).	Each	\$850

15,600
10,400
3,500
3,800
850

Overtime for workdays over 8 hours will be \$100 per hour for a 1-man crew and \$200 hour for a 2-man crew.

39,150

These rates assume the supplier will perform plant inspection, gradation testing, sand equivalent testing and asphalt content testing. If the supplier does not provide plant inspection and materials testing, PEI can provide this service at an additional daily rate of \$1,200 per day.

Mr. Abel Canlas
August 19, 2015
MP15-369
Page 3

The supplier will be responsible for sending asphalt binder samples from each day of paving to Translab on a weekly basis, as described in the project special provisions.

DATA CORES		
ITEM		FEE
DATA CORES (Approximately 15 each)	Each	\$250

Required at the beginning and the end of the project as well as 1 per every 1/2 mile. Cores only obtained in one direction 2 lane road, both directions on 4 lane roads and 2 lanes each direction for roads 6 lanes or greater. Data cores are backfilled with high strength concrete. The prices are based on the contractor providing traffic control. The price is based on doing a minimum of 4 cores per day. The price is based on the contractor providing traffic control.

Thank you for the opportunity to provide a proposal for the above project. If you have any questions, please do not hesitate to contact our office at (530) 224-4535.

Very truly yours,
