Fleet Information

Our Fleet

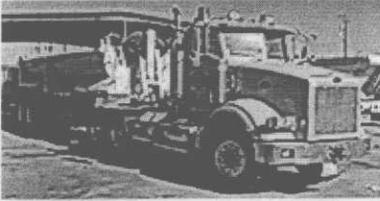

Our corporation dispatches over 20 units and 10 sets of trailers of its own. DVBE also maintains contracts with many other independent owner operators.

Transfer truck configurations can haul a wide variety of products up to 25 tons. The trailer box can transfer into the truck box to offer you the maneuverability of a 3-axle dump truck. A perfect choice for bringing a large payload into tight quarters.

Ten wheel dump trucks are for specialized hauling and dumping. They have a capacity of 10-12 cubic yards or approximately 14 tons and are a perfect choice for smaller jobs in tight quarters.

End dumps can haul up to 21 tons of material with a fast dump cycle.

Super Dump Super Dumps are somewhat of a "Hybrid" between a transfer and an End Dump. It brings the payload of a transfer, yet does not have any transfer time, there by making faster delivery times. On average it carries about 23 tons.

Water Truck 2,000 and 4,000 Gallon Water Trucks for dust Control, Compaction and street cleaning.
