Bid No. 306-15 Job Name: CA 04-1SS034 – I-580 Retaining Wall near Livermore

MALCOLM DRILLING CO., INC. (MDCI) STANDARD CONDITIONS

This proposal is based upon the following conditions, exclusions and requirements.

1. **PRIME CONTRACTOR COORDINATION AND SUPPORT.** Throughout the project, the Prime Contractor shall be responsible for providing MDCI with each of the following, which are excluded from MDCI's scope of work:

   a. coordinating all work of other contractors and suppliers so as not to hinder, interfere with or delay MDCI work;

   b. all required soil, concrete and materials testing, and inspection;

   c. suitable areas on or adjacent to the site for MDCI's office, storage of materials and equipment and fabrication of materials.

   d. protection (including capping side sewer laterals), location (including potholing), relocation, removal, and/or repair of all pavement, sidewalks, conduits, wires, pipelines and other utilities, whether underground or overhead, in the project area and on adjacent property, as required to prevent interference with MDCI's work;

   e. furnishing water, sanitary facilities and electrical power, in such quantity and quality as required by MDCI and available within 200 feet of each work location.

2. **EXCLUSIONS.** Unless otherwise stated in the accompanying proposal, the following items of work are excluded from MDCI's scope and shall be paid for as additive change orders if required:

   a. removal of subsurface obstructions of any kind that were not disclosed in the project soils information provided to MDCI at bid time;

   b. removal of materials after they have been installed, except when such removal is caused by MDCI defective work;

   c. unscheduled overtime required by Owner and/or Prime Contractor;

3. **SCHEDULE.** Time is of the essence in this agreement. Prime Contractor and MDCI shall adhere to a mutually agreed upon schedule. Prime Contractor shall provide workmen, materials, and supervision as needed to expedite the work to meet or exceed the project schedule.

4. **HAZARDOUS MATERIALS.** MDCI shall not be required to remove, transport or dispose of hazardous substances or contaminated materials (as designated by any government agency). Before MDCI's work begins, Prime Contractor shall disclose in writing all information it has and can obtain from Owner regarding hazardous and contaminated materials at the project site. Prime Contractor shall arrange for all tests, inspections, and notices required by law.

   The encountering of any hazardous substance or contaminated material that affects MDCI's work shall constitute a differing site condition for which MDCI shall be entitled to equitable price and schedule adjustments. If such a condition is discovered, MDCI shall be entitled to stop all affected work and shall have no obligation to perform investigation or remedial work. Prime Contractor shall immediately arrange for investigation of the condition and give prompt notice as to how it will be handled. If the Prime Contractor certifies that the condition is alleviated and directs MDCI to proceed, MDCI may require the Prime Contractor to provide insurance with mutually agreed policy limits to cover any personnel health risks and remediation liabilities to which MDCI may thereby be exposed.

   Prime Contractor shall indemnify, hold harmless, and defend MDCI and its officers, employees, subcontractors of any tier, suppliers, and consultants from and against any liability, claim, loss, or expense (including legal and expert expenses) arising out of the existence, encountering, handling, disposal, release, or remediation of any hazardous substance or contaminated material other than materials brought to the site by MDCI.

5. **LIMITATIONS ON DAMAGES.** MDCI will accept a reasonable amount for liquidated damages proportionate to MDCI's contract value. MDCI shall under no circumstances be liable to Owner and/or Prime Contractor or to any of Owner's and/or Prime Contractor's employees, contractors or consultants for any indirect, consequential, or exemplary damages.

6. **DIFFERING SITE CONDITIONS.** Notwithstanding any other provision in any contract documents, MDCI shall be entitled to an equitable adjustment to its price and schedule whenever its work is adversely affected by encountering any latent condition at the project site that differs from conditions (a) indicated by the Contract documents or soils data furnished to MDCI at bid time, or (B) ordinarily encountered and generally recognized as inherent in work of the character provided in the Contract.

7. **INDEMNITY.** MDCI shall defend and indemnify Prime Contractor and Owner (each an "Indemnitee") with respect to any claim against it for loss or damage negligently or intentionally caused by MDCI, its subcontractors or agents in the performance of work under this contract, but only in the same proportion as that causation bears to the whole of the causation, including that attributable to the Indemnitee on the basis of either active or passive liability or fault, giving rise to such loss or damage. Amending Your Marketing Strategy to More Effectively Reach a Changing America

nonmulticulturals. Marketers have to dive into the key behavioral aspects of multicultural individuals, because each culture varies in terms of experience, values and behaviors. And those factors have a profound impact on consumer motivations and shopping patterns.

Obtaining information on how connected these groups are, in terms of their mobile and social media behaviors, presents opportunities to create brand advocates who can carry your branding message to a burgeoning audience group for years to come.

Millennials.

Like multiculturals, millennials are a growing force within the U.S. consumer base. There are 75 million millennials in the U.S. today, spending $1.3 trillion annually. They are more racially and ethnically diverse than any previous generation, and will surpass the baby boomers in 2015 as the largest generation alive.

More importantly, millennials are the first completely digital generation. According to a comScore report, millennials spend an average 96 hours per month engaged with digital media (65.9 on mobile devices, 49.1 on desktop ones). That's a four full days a month.

The best way to market to millennials goes back to one of the other "M's" -- mobile. Millennials are extremely mobile-heavy: 81 percent own a smartphone. They also watch TV much less, preferring video on-demand or online streamed content -- at the rate of almost 360 online videos per month, in fact. Also, millennials view more digital ads than any other group: 2,311 impressions per month.

Mobile

The secret is out about mobile. "Monsumers" now spend nearly three hours per day on their favorite devices (phone/tablet), which is 12 minutes more than their use of desktop and laptop computers (the first time ever that mobile traffic has exceeded PC traffic). Consumers are spending 15 hours a month watching mobile video, and 65 percent of all social activity happens on a mobile device.

Mobile is the platform that consumers are turning to for content discovery and branded engagements, so brands need to ensure they are not just visible but aggressive in their mobile presence, in order to stay top of mind with consumers. Marketers are able to deliver more dynamic brand experiences through mobile devices due to the interactive and social nature of the platform, helping consumers to form a stronger bond with your brand.
