**To:** Lisa Davis  
**Cc:** Sequeira, Alicia N@DOT  
**Subject:** RE: Direction on assuring sufficient outreach to DBE's for contracts

Good morning Ms. Davis:

Thank you for reaching out to my office for assistance. To answer your question, determining whether DBE outreach is sufficient or not, depends on the contract. Bidders must tailor their good faith efforts to the project on which they are bidding.

Our evaluations of good faith efforts are based on 49 CFR Appendix A, "Guidance Concerning Good Faith Efforts." I would like to point out the passages below from 49 CFR Appendix A that may be of interest to you.

*"The bidder must show that it took all necessary and reasonable steps to achieve a DBE goal or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful."*

*"It is important for you to consider the quality, quantity, and intensity of the different kinds of efforts that the bidder has made, based on the regulations and the guidance in this Appendix."*

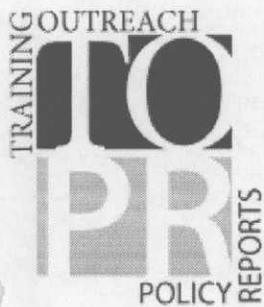

*"The efforts employed by the bidder should be those that one could reasonably expect a bidder to take if the bidder were actively and aggressively trying to obtain DBE participation sufficient to meet the DBE contract goal. Mere pro forma efforts are not good faith efforts to meet the DBE contract requirements."*

*"The following is a list of types of actions which you should consider as part of the bidder's good faith efforts to obtain DBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases."*

In addition, I would like to point out the key phrases: "all necessary and reasonable"; "quality, quantity, and intensity of different kinds of efforts that the bidder has made"; "actively and aggressively trying to obtain DBE participation"; and "other factors or types of efforts may be relevant in appropriate cases." Appendix A does not define these phrases further. If the bidder does not meet the goal, the bidder must demonstrate adequate good faith efforts by addressing the above-mentioned items and beyond, if applicable.

I hope this helps. Please let me know if you have additional questions. Thank you.

Have a wonderful weekend!

**Subject:** Direction on assuring sufficient outreach to DBE's for contracts

We have been working with Cal Trans for many years, and have performed DBE outreach for many contracts successfully, and one un successfully.

I notice that the DBE percentages seem to be increasing, and we are also bidding electronically. With those two changes I am interested to know what Cal trans will determine is "sufficient" outreach for DBE compliance.

I understand that the larger the contract, the more DBE subcontractors we need to solicit, a standard outreach for us would include:

- Listing Valentine as looking for subcontractors on the Cal trans web site
- Down loading plans and specs
- Listing Valentine as a GC looking for subs on the local builders exchanges
- Advertising not less than 10 days prior in two trade focused news/internet communications
- Search the United Certifications web site to locate subcontractors listed in the area to be served, who offer the services we are looking for, and fax them individual requests to bid.
- Follow up with phone calls to see if they are bidding
- Advertisements need to specifically offer bonding assistance, offer to break items into smaller units to facilitate bidding, instructions on how to obtain plans, and offer to assist with technical questions.

I do this for each project, and yet once my good faith effort was determined not to be sufficient. I want to assure that does not happen again, especially with the increase in the goal percentages.

What other things do you suggest that I do to assure we will be compliant with Good Faith Effort Outreach?

I would appreciate any ideas or suggestions you may have.

Thank you
