Also, when partial loads are sent back from the jobsite, back to the quarry: The time spent traveling back will be charged at the quoted hourly rate.
16. If Contractor chooses not to have loads weighted, then contractor is responsible for all overloads, overload tickets, and anything that occurs if load is not weighed.

Total chargeable time shall be computed to the nearest one-tenth of an hour. Deductions from the time only allowed for carrier equipment failure and meal delays.
18. R & S Trucking shall render to contractor invoices for services agreed to in the quote sheet/purchase order. Contractor agrees to pay R & S Trucking by the 20th day following the last day of the calendar month in which the work was performed, billed by the 5th day of the following month. 25. R&S Trucking is not responsible for project production due to availability of trucks or any other reason, on any job.
26. As it is standard practice in the construction industry for contractors not to sign truckers trucking quotes, If R & S Trucking sign's a contractor's agreement/contract for trucking services; this action will be construed as a contractor signing an R & S Trucking complete quote with its terms & agreements. This also means that an R & S Trucking quotes supersedes any/all contractors agreements/contract/purchase order, and contractor will hold harmless anything associated in that contract, including production.
27. **R&S Trucking Co. is a VENDOR, not a SUB CONTRACTOR.**
28. Yearly escalation raise on top of the base rate quoted shall occur at 6% yearly, commencing 1 year after the job start date, and shall continue yearly with 6% raises, year after year, for the continued duration of this same job.

This also includes other sticky materials: such as Bay Mud, Wet Concrete mixes, etc. The time spent on this additional clean-out is chargeable and accrues separately for this clean-out procedure, and this extra-time is not allowed to be averaged-out. In addition, R & S Trucking only hauls rubberized/open-grade type asphalts in 5-axle Double bottoms/Semi bottoms only, when available.

RE: Caltrans (04-265604) San Pedro Creek, Pacifica, CA

Silverado Contractors, Inc. is pleased to present this proposal for the above referenced project.

Item No.	Item Code	Item Description	Unit of Measure	Estimated Quantity
60	157550	BRIDGE REMOVAL	Lump Sum	\$ 74,800.00

➤ **BID ITEM NUMBER 60 is based on the following:**

Specification Section 15-4.01C (1)

- Remove San Pedro Creek Bridge.
- Remove the entire existing Portland cement concrete sack slope protection wall near existing Abutment 5.

Addendum No. 3, Dated January 29, 2014 "Information Handout"

- Page (18) – **3.2.9 Demolish Bridge and Build Roadway Embankment and Surcharge**, states: *"The entire existing bridge structure will be removed using heavy construction equipment including bulldozers, front end loaders, dump or soil haul trucks, backhoes/ excavators, and jackhammers or a hydraulic ram. The area is small and demolition will likely require only one or two of each of these pieces of equipment. It will be demolished into the creek channel, and loaded into trucks for off-haul. The existing pilings, including those in the creek and those in the south abutment (abutment 1) will be removed below grade. Per Caltrans Standard Specifications 15-4.01C(3), the piles will be removed to 1 foot below the existing ground line or 3 feet below the finished grade, whichever is lower. Piles at the existing north abutment will be removed to 6 inches below the proposed north abutment bottom of footing elevation"*.
