**RE: HIGHWAY 1 SAN PEDRO CREEK BRIDGE REPLACEMENT, PACIFICA,
CalTrans CONTRACT 04-265604**

**SUBJECT: PROPOSAL FOR PHOTO DOCUMENTATION, AND VIBRATION
MONITORING DURING CONSTRUCTION**

Please find herein our proposal for photo surveys and vibration monitoring in connection with the **Construction on state highway in San Mateo County from 0.3 mile south of Linda Mar Boulevard to Linda Mar Boulevard Intersection (CalTrans Contract # 04-265604)**. With extensive experience in various forms of geotechnical instrumentation and vibration monitoring, we are uniquely qualified to handle this assignment. With eighty (80) seismographs, thirty (30) high end sound level meters, multiple in-situ inclinometer sensors, multiple vibrating wire joint meters and dataloggers in service, we do more of this work than any firm west of the Mississippi. In addition:

**** *We are Reliable* ****

Over 22 years experience and a strong record of repeat clients/business.

**** *We are Experienced* ****

We have conducted more pre-construction photo surveys and performed more vibration monitoring than anyone on the West Coast.

**** *We are Safety Conscious* ****

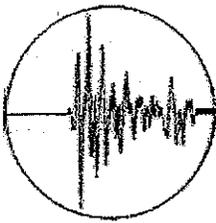

We hold regular weekly "toolbox" safety meetings as our personnel are regularly tending our equipment on or adjacent to contractor heavy construction sites. Our personnel have been given orientation and training for work adjacent to active railroad lines, on freeways, and inside of tunnels. **Our personnel are e-railsafe certified.**

*** * *We are experienced in Community Relations* * ***

We have conducted extensive large scale pre-construction photo survey projects and have successfully coordinated with public agencies and local Police/Sheriff organizations.

*** * *We are Certified* * ***

Municon Consultants

Vibration Monitoring, Construction Instrumentation, Photo Surveys

PRECONSTRUCTION PHOTO SURVEYS

Municon specializes in pre-construction photo surveys with large numbers of buildings (as many as 350) and the document control of data. Municon has completed preconstruction surveys for blasting projects throughout California and Nevada, for highway and road improvement projects in San Francisco, Oakland, Fremont, San Jose, and elsewhere throughout the Bay Area. We have performed photo surveys for the seismic retrofit of the historic San Francisco City Hall, the Richmond Transport Tunnel, the New Irvington Tunnel, and multiple projects at the San Francisco International Airport.

SOUND MONITORING

We have monitored construction generated noise with sound level meters during multiple contracts on the San Francisco Oakland Bay Bridge East Span replacement, for the Oakland Airport Connector project. We have recorded air overpressure on numerous blasts in Reno and the Sierra foothills. We have been remotely monitoring sound at the Doyle Drive project in San Francisco for the past 3 years, are concluding two years of remote sound monitoring at the New Irvington Tunnel Jobsites, are currently monitoring at the I-10/I-605 flyover in Baldwin Park, and have started sound monitoring at the Cathedral Hill Hospital project in San Francisco.

PROJECT DESCRIPTION

We reviewed the project plans and specifications, and Addenda 1 through 4, available on the CalTrans website, to determine the extent of photo/video documentation, noise monitoring, vibration monitoring and geotechnical instrumentation required for the Project.

Our review finds a requirement for a pre-construction and post-construction photo/video survey of two (2) adjacent properties, along with crack monitoring at those properties. Vibration monitoring is required at one of the two properties. Settlement monitoring using riser pipes is required; we do not perform this work. Sound or noise monitoring is not required.

Our proposal for pre construction photo/video surveys, crack monitoring and vibration monitoring at the San Pedro Creek Bridge Replacement project follows. Please call me at 415-641-2570 with any questions or email me at anthony@municon.net. Thank you for your consideration – we look forward to working with you on this and other projects!

Vibration Monitoring, Construction Instrumentation, Photo Surveys

1.00 PHOTO AND VIDEO SURVEYS AND CRACK MONITORING

1.01 GENERAL.

Special Provisions section 5-1.36E "Survey and Monitoring Of Existing Adjacent Property" requires, in subsection (1)(a), *"Perform photo and video survey and crack monitoring of existing adjacent properties including buildings and other improvements that may be damaged by construction activities. Conduct photo and video survey and crack monitoring at the adjacent properties listed in the table below, or as directed."*

1223-1353 Linda Mar Shopping Center

5400-5550 Pacific Coast Highway

Special Provisions section 5-1.36E(1)(c)(i) requires the Contractor to: *"Submit pre-construction photo and video survey and crack monitoring documentation before commencement of any significant impact work as defined above."*

Special Provisions section 5-1.36E(3)(a) requires the Contractor to: *"Perform pre-construction survey and monitoring at least 20 working days before beginning any significant impact work. Perform additional survey and monitoring as the work progresses and as directed. Perform post construction survey and monitoring on the same properties within 10 working days after the completion of any impact work, including excavation, demolition activity, pile-driving activity, or other significant impact work that has a potential to cause damage to existing properties."*

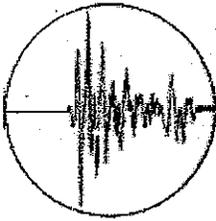

Special Provisions section 5-1.36E(3)(b) requires the Contractor to: *"Photo and video survey the condition of the listed properties, including any and all deficiencies in the properties such as cracks, settlement, leakage, distress and the like. The photo survey must document the condition of the foundation, walls, ceiling, roof, improvements and other building elements on the interiors and exteriors of the listed properties."*

Special Provisions section 5-1.36E(3)(c) requires the Contractor to: *"Perform crack monitoring on all existing cracks in each of the properties included in this survey. Perform crack monitoring concurrent with the photo survey."*

1.10 SCOPE.

1.11 WORKPLAN

Special Provisions section 5-1.36E(1)(c)(i) requires: *"The Contractor shall submit a list of digital photo equipment proposed for use, including digital cameras, photographic software, photo printers and photo quality glossy heavyweight paper. The submittal shall include actual recent samples of digital photos taken with the proposed camera and printed with the proposed printer."*

Municon Consultants

Vibration Monitoring, Construction Instrumentation, Photo Surveys

We will prepare and submit the required workplan as described in the specifications for a LUMP SUM\$1,500.

1.20 PHOTO AND VIDEO SURVEY

We will take photos using a digital SLR camera and/or still photos using our video camera, and take video with narration using a digital video camera. We will print copies of our photos onto photo-quality paper and complete an index with the photo file name, photographer, date and time of the photo, location, and description of each photo. We will provide CDs or DVDs with electronic copies of the original photos and the index, and DVDs of the video recorded and bind them into a 3-ring binder for submittal to the Engineer, as described in the Special Provisions. We will prepare 4 copies of each report, one for your use, and three for submittal to CalTrans. We will **not** insert photo prints in protective sleeves, as doing so is wasteful of time, money, and environmental resources.

The list of buildings to be surveyed includes 3 commercial properties – most of the main building of the Linda Mar shopping center, and two buildings (with separate owners) in the Pedro Point shopping center. We will contact the owners and/or tenants to arrange access for \$100/each. We will perform the photo/video surveys for the prices shown below. We will charge the same price for pre-construction and post-construction surveys.

We will contact owners and occupants and **attempt to arrange access** for pre-construction photo/video surveys at 3 properties @ \$100/each\$300.

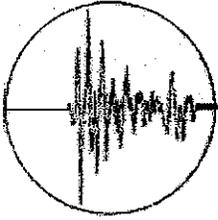

We will perform **pre-construction photo and video surveys** at the following properties at the following LUMP SUM prices:

- 1223 – 1353 Linda Mar Shopping Center.....\$7,500.
- 5400 – 5500 Pacific Coast Highway.....\$2,400.
- 5550 Pacific Coast Highway (Fresh & Easy).....\$3,100.

We will contact owners and occupants and **attempt to arrange access** for post-construction photo/video surveys at 3 properties @ \$100/each\$300.

We will perform **post-construction photo and video surveys** at the following properties at the following LUMP SUM prices:

- 1223 – 1353 Linda Mar Shopping Center.....\$7,500.
- 5400 – 5500 Pacific Coast Highway.....\$2,400.
- 5550 Pacific Coast Highway (Fresh & Easy).....\$3,100.

Municon Consultants

Vibration Monitoring, Construction Instrumentation, Photo Surveys

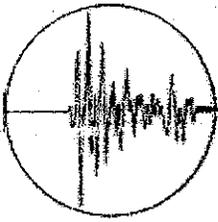

1.30 CRACK GAUGES

Special Provisions section 5-1.36E(3)(c) requires the Contractor to: *“Perform crack monitoring on all existing cracks in each of the properties included in this survey. Perform crack monitoring concurrent with the photo survey.”*

We will provide industry-standard crack gauges capable of measuring cracks to the nearest 0.04 inch, which we will epoxy to the face of the buildings at significant cracks. We will provide you with blank monitoring records. **It will be more cost-effective for you to monitor crack gauges with your own forces.** We will install up to five crack gauges per building during our photo survey:

Allowance for 5 crack gauges each @ 3 buildings @ \$100/each\$1,500.

TOTAL PHOTO AND VIDEO SURVEY ALLOWANCE.....\$28,100.

Municon Consultants

Vibration Monitoring, Construction Instrumentation, Photo Surveys

2.00 VIBRATION MONITORING

Special Provisions section 14-8.03A(1) requires "...*vibration monitoring to protect the following properties and underground facilities from excess vibration from construction activities.*

1223-1353 Linda Mar Shopping Center

5400-5550 Pacific Coast Highway

PG&E Gas Line (South of the Bridge)

The maximum particle velocity for adjacent properties and underground utilities must not exceed 0.2 inch/second.

Special Provisions section 14-8.03A(3) requires the Contractor to: "*Submit vibration measurement and recording report no later than 24 hours after each monitoring. Include information such as measurement location, date, and source of vibration. Include measured vibration levels at three axes and associated frequencies. Include the highest measured vibration levels for each axis and their relationship to the criteria.*"

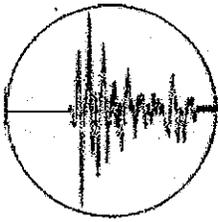

Special Provisions section 14-8.03A(4) requires "*The person responsible for the vibration monitoring and analysis must have the following qualifications:*

- 1. Professional Engineer, Geologist, Bachelor of Science or higher degree from a qualified program in engineering, geology or physics offered by an accredited university or college, and five years experience in vibration monitoring and control.*
- 2. Demonstrated substantial and responsible experience in preparing and implementing construction vibration monitoring plans and analyzing vibration impacts in an urban setting.*

A technician under the supervision of the qualified person may conduct the actual measurements..

Special Provisions section 14-8.03C requires the Contractor "*Conduct vibration measurements and recordings before and during the course of all pile-driving, hauling of dirt, placing of base material, compaction, and during paving operations or other significant activity when that activity occurs within 200 feet of the above listed facilities. Conduct baseline vibration monitoring at each work site before the start of construction activities or when there is a break in the construction activities.*

Furnish and install properly functioning vibration monitoring instruments before any construction within 200 feet of the above listed properties or underground facilities. Place vibration monitoring instruments on the side of the properties/underground facilities facing the

Municon Consultants

Vibration Monitoring, Construction Instrumentation, Photo Surveys

work site. Place vibration monitoring instruments in a manner such that no part of the above listed facilities is more than 20 feet from the monitoring instruments for work that is within 200 feet of the above listed facilities.

Set up vibration monitoring instruments to give immediate warning when peak particle velocity equal to or exceeding 75 percent of the maximum velocity of vibration specified above is measured.

Based on our review of the plans, we anticipate that vibration monitoring will be required at two separate times during piledriving, for up to two weeks each time. The buildings in the Pedro Point Shopping Center are more than 200 feet from any piledriving, and therefore, will not require vibration monitoring.

The special provisions require monitoring *“during the course of all pile-driving, hauling of dirt, placing of base material, compaction, and during paving operations or other significant activity”*. However, it has been our experience that hauling of dirt, compaction, and paving operations do not generate vibrations likely to cause damage or complaints when more than 25 to 50 feet away from existing buildings, and that CalTrans does not usually require monitoring for such work at the distances in this project. Therefore, we have **not** included an allowance for vibration monitoring during any hauling of dirt, placing of base material, compaction, or during paving operations. If monitoring is required during grading and paving operations, we will perform the monitoring at the rates given below; however, **given the possible durations of grading and paving work, our costs will be substantially higher than shown below.**

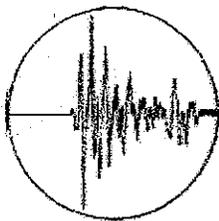

2.01 General

Municon Consultants has personnel who meet the requirements for the “person responsible for the vibration monitoring and analysis” as specified.

Based on our review of the plans, we anticipate that piledriving work will require monitoring at two locations along the Linda Mar Shopping Center building, and one location for the PG&E gas line.

2.02 Vibration Monitoring Work Plan

If required, we will prepare a work plan including the name and qualifications of the instrumentation specialist and other personnel, manufacturer’s product specifications and operators’ manual, methods of installation and monitoring, monitoring schedule, and other data as required by the Special Provisions, for a LUMP SUM of\$1,500.

Municon Consultants

Vibration Monitoring, Construction Instrumentation, Photo Surveys

2.20 Installation and Set Up of Monitoring Stations.

We will configure our seismographs to record vibrations per the Speical Provisions, and to have flasher alarms or SMS (text-message) alarms when specified vibration levels are exceeded. We will set up our seismographs in our Christy utility vaults with lockable covers. We will bolt or otherwise secure the vaults to concrete surfaces where available, or secure the seismographs and Christy utility vaults to posts, fences or poles. We may require you to provide traffic control where vibration monitoring locations are within the travelled way of any streets or highways. Removal of the monitoring location after it is no longer needed is included. We include an allowance to set up three (3) monitoring locations at two (2) separate times, for \$700/ea location x 6 deployments=\$4,200.

2.30 Seismograph Use charges.

We anticipate providing for our use up to three (3) of our industry standard construction monitoring seismographs to monitor vibrations at any one time. We will charge a seismograph equipment use charge of \$700 per month or fraction thereof for each seismograph for an average three (3) seismographs x estimated two (2) months (or fractions thereof) for a total use charge of =\$4,200.

2.30 Maintenance Services During Construction.

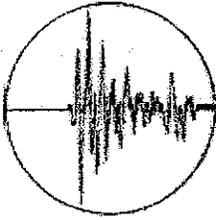

Where vibration monitoring locations will remain in place for more than two weeks, we will have our experienced technicians visit the site to service the seismographs and change batteries monthly during the construction work. We will charge an allowance of \$600/month (for all seismographs) if monitoring lasts more than two weeks in any calendar month. However, we anticipate not needing to charge for this work =\$0.

2.40 Professional Services for Vibration Monitoring

We will have our experienced technicians download data from the seismographs regularly and produce a report documenting the results of the vibration monitoring every day. We will generate the reports and provide them to you via email. The reports will include the monitoring equipment used, a deployment sketch showing the location of the seismograph and the nearby structures and the data results of our vibration monitoring.

We will prepare reports for \$300/day x 20 days =\$6,000.

TOTAL VIBRATION MONITORING ALLOWANCE.....\$15,900.

Municon Consultants

Vibration Monitoring, Construction Instrumentation, Photo Surveys

3.00 SETTLEMENT MONITORING.

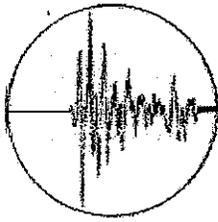

Special Provisions section 19-6.03F(3) requires the Contractor to *“Install settlement monitoring pipe riser devices at the following seven (7) locations:*

- 1. Four settlement monitoring pipe riser devices on the approach embankment behind Abutment 1*
- 2. Three settlement monitoring pipe riser devices on the approach embankment behind Abutment 3*

Maintain all settlement monitoring devices functional for the entire duration of the settlement monitoring program. Repair or replace malfunctioning or damaged device. At the completion of the settlement monitoring program, remove the upper portion of the control pipe and protective sleeve of the pipe riser settlement device to a depth of at least 2 feet below finish grade.

Settlement monitoring data collection must be performed by a land surveyor registered in the State of California.

Municon Consultants does not install nor monitor pipe-riser or survey-monument type settlement monitors, and we are not licensed land surveyors; this work should be performed by the General Contractor and the construction surveyor.

4.00 TERMS AND CONDITIONS.

4.01 Plans, Specifications and Addenda.

We have based this proposal on our experience and interpretation of the documents pertaining to our work. General Contractor to provide two sets of conformed plans and specifications and anticipated blasting plans.

4.10. Form of Authorization.

Authorization to be by simple purchase order and/or professional service contract conforming to ACEC standard form. Payment within 30 days. No retention.

4.20 Access.

Access arrangements to be provided by project owner or general contractor, except as described herein.

4.30 Nature of Service.

This is an offer to perform professional services. We are a consultant and not a subcontractor for purposes of certified payroll or workforce reporting, Mobile Daily Diary Systems and scheduling. We do not anticipate any excessive lead time constraints assuming you authorize our work in a timely manner and process and obtain approvals of any submittals of your work such as schedules and other submittals in a timely manner.

4.40 Performance Bonds.

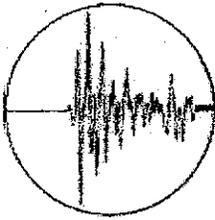

We are a professional service consultant. No performance bonds are offered.

4.50 Insurance.

Insurance coverage will be limited by our existing policies.

4.60 Reports.

Unless specifically called for or offered herein, data reports, written interpretations or professional opinions other than those explicitly called for under the specs and addressed herein are not included.

Municon Consultants

Vibration Monitoring, Construction Instrumentation, Photo Surveys

Our cost estimate is a unit-rate proposal based on our estimate of the quantities and times required to complete our portion of the work. If the scope of the work changes, our costs will change accordingly, as described in the unit rate sections of our proposal.

We believe that the estimate and proposal herein addresses most if not all costs which might be attributable to provide a reasonable good faith effort towards mitigating potential complaints and minimizing your risks of possibly causing structural distress and look forward to working with you on this project. All work proposed here will be under the direction of the undersigned.

RE: Quote for 04-265604 San Pedro Creek Bridge Replacement Project, Pacifica, Ca.

Dear Mr. Snyder,

It was a pleasure to meet your associate, Paul Brizzolara, at the Caltrans pre-bid meeting on January 8, 2014. Our company, BioMaAS, Inc., is a DBE/SBE certified business that has over 15 years experience on Caltrans projects and has been working in San Pedro Creek and along the coastline of Pacifica and Half Moon Bay on both large and small-scale construction projects.

We are pleased to submit the following scope of work for **Bid Items #16-Prepare Storm Water Pollution Prevention Plan, #17-Rain Event Action Plan, #18-Storm Water Sampling and Analysis Day, #19-Storm Water Annual Report, #31 Water Quality Sampling and Analysis Day, and #32 Water Quality Monitoring Report.**

If you have additional questions regarding permits or services we can offer, please do not hesitate to contact us. Thank you for the opportunity to provide biological and water quality service for the San Pedro Creek Bridge Replacement Project.

Sincerely,

Jill Grant

GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

- 1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
- 2) Modification to the work may require a change in the quote.
- 3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
- 4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
- 5) All teeth over one complete set will be charge to the contractor.
- 6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
- 7) In the event there is an increase in the cost of fuel of more than \$0.50 per gallon during the performance of this contract, ABSL will be entitled to a \$75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
- 8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: \$425.00 per hour.
- 9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
- 10) This proposal to be attached and made part of any and all resulting contracts.
- 11) The above price does not include permits, fees, bonding, state or local taxes.
- 12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
- 13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
- 14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence for backcharges.
- 15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
- 16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Furthermore, customer agrees to be responsible for all damage to both utilities themselves and to our company's equipment by reason of ABSL equipment encountering unmarked utilities.
- 17) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Daryl Vorne

Good Faith Efforts
Documentation – DBE #1

1. List items of work the bidder made available to DBE firms. Identify those items of work the bidder might otherwise perform with its own forces and those items that have been broken down into economically feasible units to facilitate DBE participation. For each item listed, show the dollar value and percentage of the total contract. The bidder must demonstrate that sufficient work to meet the goal was made available to DBE firms.

**RE: BID INVITATION (Bridge Replacement, Roadway & Creek Realign – Contract
No. 04-265604)**

BID INVITATION

January 20, 2014

To: **Certified DBE Subcontractors or Suppliers**

We would appreciate your Subcontractor/Supplier quote on the following project:

TITLE: Bridge Replacement, Roadway & Creek Realign – Contract No. 04-265604

OWNER: Caltrans
LOCATION: Pacifica
BID DATE: Tuesday, February 4 at 2:00 PM
BUDGET: \$9,100,000.

All bid items are available to certified DBE firms, particularly these:

LCP, Construction Area Signs, Traffic Control, PCMS, SWPPP, Erosion Control, Sweeping, Dewatering, ESA Fence, Striping, Roadside Signs, Cold Plane AC, Bridge Removal, Clear & Grub, Planting & Irrigation, CISS Piles, Joint Seal, Rebar, MBGR, Concrete Barrier, Bridge Railing, Signal and Lighting and Trucking.

Plans and Specifications are available in our Estimating Office located at 120 Granite Rock Way, San Jose, CA 95136, or at Caltrans website www.dot.ca.gov/hq/esc/oe/. Graniterock is signatory to Operating Engineers, Laborers, Teamsters, Cement Masons and Carpenters unions. 100% payment and 100% performance bonds in the amount of the subcontractors bid will be required from a qualified surety company. Bonding assistance is available. Graniterock will pay bond premium up to 1.5%. In addition to bonding assistance, subcontractors are encouraged to contact Graniterock Estimating with questions regarding obtaining lines of credit, insurance, equipment, materials and/or supplies, or with any questions you may have. Subcontractors will be required to enter into our standard contract. Subcontractors must possess a current contractor's license, insurance and worker's compensation coverage. Graniterock will break down items of work to facilitate DBE participation.

Denise,

All certified DBEs are found in the CUCP Database. You are accessing the same information that we are. The "Opt in" is also a very good resource. As far as the project with the DVBE and SBE goals, I can forward your email to our contacts if you give me a list of the type of bid items you are requesting.

We are bidding a few district 4 projects in the near future.

04-3E3104 – DVBE requirement & SBE incentive
04-235624 – DBE goal
04-153304 – DBE goal
04-265604 – DBE goal

My questions are . . . do you have sub listings that we wouldn't have access to outside of the CUCP database? Do you think that we are pretty much reaching the largest list of DBE firms to solicit by searching on the CUCP database, and by inviting firms on the project "Opt In" list to participate?

We are trying to reach out to as many firms as we can that might be interested in participating in our contracts. All local public agency outreach programs point you to the CUCP program for searching DBE firms.

That's a pretty good amount. ☹ Bummer about the contract postponement... Let us know in advance to its restart if you need our assistance. We can give you a list of subs from previous outreaches.

Between the firms "Opting in" and our search on the CUCP website, I came up with approximately 200. Unfortunately the project has been postponed until end April, so we'll start all over again then. Thank you for checking with me.

Hi Denise,

I'm just following up to see if you were able to find DBE firms for your contract, and if not, do you still need some?

Thank you for your direction. I have completed a download on the CUCP site, and have included the 'Opt In' subcontractor firms interested in participating in contract no. 04-2A2504. Graniterock solicits DBE participation in all areas of work listed on the bid item list, but some of the larger subcontractor scopes would be striping, construction area signs, traffic control, clearing & grubbing, erosion control, shotcrete, & soil nails. If you have some contacts that might help us, that would be great. I hope to send bid invitations out early next week as the project bids December 3rd.

Thank you again for your help.

Hi Denise,

George Crosby of the District 4 Small Business Program asked that I contact you regarding your need to reach out to DBE contractors. The primary site for the search is the CUCP site you used. However, the Office of Engineering (OE) has the 'Opt In' feature where primes can search for subs who have submitted for interest in particular projects (http://www.dot.ca.gov/hq/esc/oe/contractor_info/). You can go to the 2nd column, 4th from the top, and click there to begin your search.

Lastly, if you send me a description of the scope of work you are seeking to fill with DBEs, I can put together a list of contractors from our internal contacts list and send it to you.

Respectfully,

We have searched on both databases and are reaching out to firms that "opt-in". We hope to optimize DBE participation on this and future projects. Thank you for your response.

Denise,

I'm glad to hear that you are reaching out to DBEs and SBEs. You have used the two main databases that Caltrans uses. The SB database allows you to search for companies using keywords and location. You can choose the location where the project is located and all companies willing to do work in that area will come up. Also, there is the "looking for help" button on the OE website. Our subs are very good about opting in.

I have seen contracts coming in with higher DBE goals than required, so they are out there. You just need to reach out to them with enough time to allow them to put their bids together. Let me know if you have any more questions.

Subject: District 4 DBE Search

Graniterock is bidding contract no. 04-2A2504 to Caltrans on December 3rd as a prime. Caltrans has recommended to us that we contact district 4 Small Business Liaisons in an effort to search for more DBE firms that would be interested in participating as subcontractors on this and other projects. I have already searched Caltrans UCP database and will be sending bid invitations to those firms coming up in my search. At one time it was suggested to me that I search out DBE's on the small business database, but there doesn't seem to be a way to do that on the query form.

Can you recommend any other outlet or way to search for DBE firms? Thank you in advance for your help.
