#### NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contractor, subcontractor, laborer, supplier or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers or suppliers remain unpaid.

To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or materials suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not have to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. It's purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to protect their lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recorder which then becomes a recorded lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your property is 90 days after substantial completion of your project.

**RE:** Caltrans Project – For Construction on State Highway in Alameda County from Fremont Boulevard in Fremont to High Street in Oakland, Contract # 04-2J0704, Bid Date: December 3, 2015, 2:00 p.m. DBE Goal: 18%

**Subject:** Price Quote for providing Water Pollution Control Program (WPCP) and Stormwater Pollution Control (WPC) Permit Compliance Services.

Dear Estimator:

S Kwok Engineers, Inc. is pleased to provide quotes for services as a **Qualified SWPPP Developer (QSD)/Qualified SWPPP Practitioner (QSP)** to perform the stormwater pollution control monitoring services for the referenced contract. Here is our company information for your bidding use:

We are a **Minority Business Enterprise (MBE)**, a California Unified Certification Program (CUCP) certified DBE (Cert No. 37060 – **Asian Pacific, Male**) and **Small Business Enterprise** firm certified by the Department of General Services of California (SBE # 55132). Our DIR registration number is 1000001343 and annual gross receipt is below \$500,000. We have operated for more than 7 years. Our California Civil Engineer License is C 54292 and our QSD/QSP certificate number is 00399. We provide professional services only and do not provide construction work in the field therefore we do not possess a contractor license number.

We provide you an economical way to monitor the storm water compliance work on your project site. **We will work with your construction team to perform storm water monitoring tasks.** Here are our quotes for the following items:

**Prepare WPCP for the Project.**

<b>Bid Item # 13 – Partial</b>	<b>Estimated fee</b>
Preparing WPCP certified by Qualified SWPPP Developer (QSD) – This quotes provide the Narrative of the WPCP and maximum of 5 Water Pollution Control Drawings, see NOTE 1 below. (We will increase the fee by 100% for preparing the WPCP if you don't hire us for the QSD/QSP Weekly Monitoring Services)	\$880

The WPCP will conform to the Caltrans Standard. The draft WPCP will be submitted electronically to you for review and approval.

The above estimated fee does not include the hardcopies of the WPCP. If you need hardcopies, the printing cost is \$250 per set plus shipping. The hardcopy of the WPCP will be bounded in a ring binder and delivered to you via UPS ground.

The WPCP quote does not include the effort of preparing the Dewatering and Discharge Plan (DDP). It also does not include preparing water pollution control items for aggregate crushing plant or, concrete or asphalt concrete batching plant.

**Note 1:** If temporary BMPs are needed to be shown on all locations along the project limits, we estimated additional 100 sheets of Water Pollution Control Drawings are needed to cover the impacted areas. The additional fees for the first 10 sheets of drawings are estimated at \$55 per sheets, the remaining sheets are estimated at \$30 per sheet. Therefore, the addition fees for preparing the additional Water Pollution Control Drawings = \$55/sheet x 10 sheets + \$30/sheet x 90 sheets = \$3,250 (We will **increase the fee by 100%** for preparing the WPCP if you don't hire us for the QSD/QSP Weekly Monitoring Services).

Payment shall be paid in full once the WPCP is approved or conditionally approved by the agency's Engineer for the beginning construction.

**Provide QSD/QSP Monitoring Services as the Water Pollution Control Manager for the project:**

Bid Item # 12- Partial	Estimated Unit Cost	Estimated Quantity	Estimated fee
<b>Job Site Management</b> Provide QSD/QSP Weekly Monitoring Services – Estimated <b>6 hours on a day of two weeks</b> including travelling time. This is a partial scope (reduced cost) of work, see <b>Note 2</b> below.	\$110 / hour x 6 hours bi-weekly is \$660 bi-weekly plus mileage cost is \$54/roundtrip =\$714 bi-week	570 Working Days = 57 bi-weekly	\$40,698

**Total Estimated Fees = \$41,578** (This is an estimated fee for our quoted items. The actual contracted fees might vary from this estimated fee. During the contract period, we will submit the actual executed tasks or hours on our weekly timecard, and send to you for approval before invoicing for payment.)

**Note 2:** We quoted the Job Site Management that our QSD/QSP will come to the project site every two weeks. If the owner insists that the QSD/QSP has to come on the project site every week, our estimated hours will be 5 hours per week and the estimated fee will be \$68,856. Your construction team will work with us and take responsibilities for the storm event (pre, during and post storm) monitoring, storm water samplings and analysis, and reporting tasks. We will train your specified employees to perform these tasks and reduce your cost to hire us fulltime for these tasks. The followings are the defined scopes between your staffs and us:

Under the scope of the Weekly Monitoring Service, S Kwok Engineers, Inc. will provide the following services:

- Perform bi-weekly visual inspection, prepare the Weekly Monitoring report,

- Review and approve Pre, During and Post storm visual inspection reports,
- Provide WPCP training class,

**Governing Law.** These Conditions and the Contract Documents shall be construed under, and governed by, the laws of the State of California.

**Severability.** If any provision contained herein is held to be invalid or unenforceable, such invalid or unenforceable provision(s) shall not affect the validity or enforceability of any other provision contained herein.

**Survivability.** The provisions contained in herein shall survive the completion, cancellation or other termination of Consultant's contract with Contractor.

If the proposal is acceptable to you, please send us your sub-contract or purchase order two (2) weeks before we start working on the project. This will allow us to resolve any contract issues if they arise.

We need ten (10) business days to prepare the draft WPCP for review pending on all the requested information and project schedule provided by you.

Please feel free to call me if you have any questions. These quotes are valid for 6 months from the below date.

**Additional information to demonstrate Good Faith Efforts.**

**FACT SHEET**  
**Federally Funded Contracts**  
**Evaluating DBE Participation**  
**Role of OBEO, Contract Evaluation Unit**  
*May 2013*

The California Department of Transportation (Caltrans), Office of Business and Economic Opportunity (OBEO), Contract Evaluation Unit (CEU), is responsible for evaluating all Caltrans federally funded contracts and is responsible for counting Disadvantaged Business Enterprise (DBE) participation towards contract goals according to federal regulation. The CEU determines whether the goal has been met or an adequate good faith effort has been made by the contractor.

<b>Bidder's Responsibility – For Meeting DBE Requirements</b>	
<p>Refer to the Special Provisions of the specific contract you are bidding on for your responsibilities. Contracts are advertised on the Office Engineer's (OE) website at <a href="http://dot.ca.gov/hq/esc/oe/weekly_ads/index.php">http://dot.ca.gov/hq/esc/oe/weekly_ads/index.php</a> and the Division of Procurement and Contracts' (DPAC) website at <a href="http://caltrans-opac.ca.gov/contract.htm">http://caltrans-opac.ca.gov/contract.htm</a>.</p>	
<b>Contract Evaluation Unit's Responsibility – Counting DBE Participation</b>	
Step 1	<p>A contract is received from Office Engineer (OE) or Division of Procurement and Contracts (DPAC) and the CALTRANS Bidder-DBE Commitment form from the prime contractor is reviewed to see if the prime contractor met the goal. If not, the good faith effort will be evaluated. See 49 CFR, Part 26, Appendix A, for good faith efforts guidance. This determination is based only on information timely submitted with the bid.</p>
Step 2	<p>Review the CALTRANS Bidder-DBE Commitment form from the prime contractor to:</p> <ul style="list-style-type: none"> <li>• ensure that the DBEs are certified by checking the California Unified Certification Program (CUCP) database [cross referencing DBE work category code(s) with contract bid items] <i>(If the DBE is not certified, their participation will not be counted.)</i></li> <li>• ensure that the DBEs possess the correct work category code for the type of work they are listed to perform <a href="http://www.dot.ca.gov/hq/bep/find_certified.htm">http://www.dot.ca.gov/hq/bep/find_certified.htm</a> <i>(If the DBE does not possess the correct work category code, their participation will not be counted.)</i></li> <li>• verify the dollar amount claimed for credit is accurate                             <ul style="list-style-type: none"> <li>◦ amount claimed for credit on DBE Commitment form is consistent with written confirmation (quote) from DBE.**</li> <li>◦ amount claimed for credit is consistent with the prime contractor's bid and subcontractor listing</li> </ul> </li> </ul> <p>Written confirmation (quotes) from the DBEs are reviewed to verify if the DBEs are committed to do the work on the Caltrans Bidder DBE Commitment form.**</p> <p><b>**Important Note:</b> Rate sheets that are generic will not be accepted in lieu of written confirmation (quotes). This determination is based only on information timely submitted with the bid.</p>
Step 3	<p>Counting DBE participation: DBE participation is "counted" only where it is demonstrated that a certified DBE possessing the correct work codes will be actively participating on the contract. CEU will count DBE participation as follows:</p> <ul style="list-style-type: none"> <li>• The entire amount of that portion of a construction contract that is performed by the DBE's own forces are counted.</li> <li>• DBE' participation will not be counted if the DBE is not certified at the time of bid or if a certified DBE does not possess the correct work codes.</li> <li>• The method for counting trucking towards the DBE goal requires the following additional documentation: motor carrier permit, truck title, registration, and proof of insurance, trailer or tanker registration, bills of lading, sub-hauling agreements, existing commitments of trucking on other jobs, and subcontract specific information (e.g., type of material hauled, number of trucks/trailers/tankers, load capacity, distance traveled, and schedule). Truckers need to own at least one, operable, insured truck.</li> <li>• DBE trucking firms receive 100 percent credit for the value of the hauling. DBE trucking firms who sublease to other DBE firms or DBE owner operators receive 100 percent of the value of the hauling.</li> <li>• DBE trucking firms who sublease to non-DBE trucking firms or non-DBE owner operators receive credit for the transportation arrangement or broker fees <i>only</i> – typically from 5 -20 percent of the value of the hauling.</li> <li>• Cost of material or supplies are counted at 60 percent for regular dealers. Those claiming to be regular dealers of bulk items must additionally demonstrate that they own and operate appropriate distribution equipment.</li> </ul> <p><b>Important Note:</b> There may be times when further clarification of commitment is requested for other types of work.</p>
Step 4	<p>Determination is made regarding whether goal was met. If goal was not met, the good faith effort documentation will be evaluated.</p> <p><b>Important Note:</b> The steps above are not all inclusive. Other steps may be taken in the contract evaluation process.</p>
Step 5	<p>The contracts are returned to OE or DPAC, whichever is applicable.</p>

**FACT SHEET**  
**Federally Funded Contracts**  
**Monitoring DBE Participation**  
**During Construction**  
*May 2013*

**Role of the Division of Construction**

California Department of Transportation (Caltrans) resident engineers and inspectors monitor the contract work to ensure the DBEs listed on the approved CALTRANS Bidder-DBE Commitment form perform the items of work specified at the time of bid opening and that no improper substitutions occur. Monitoring includes documenting the work DBEs perform by completing inspection reports. Resident engineers and inspectors ensure that all DBEs are performing a commercially useful function (CUF).

CUF is a matter of contract compliance that achieves two objectives: (1) ensures that dollars counted towards DBE goals are merited, and (2) ensures the Federal Government that funds entrusted to the State of California meet federal requirements.

Code of Federal Regulations 49, Part 26.55(c)(1)(2) states, "A DBE performs a commercially useful function when it is responsible for execution of the work on the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved."

To perform a commercially useful function, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating a price, determining quality and quantity, ordering the material, and installing where applicable and paying for the material itself.

A DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation.

To ensure DBEs are performing a CUF, the resident engineer or inspector documents the DBE's work in inspection reports and reviews additional documentation that verifies the DBE's participation. Some examples of the types of documents are:

- certified payroll records
- paid supplier invoices
- monthly trucking verification reports
- supplier bills of lading or purchase requests
- leases

**Service and Architect and Engineering Contracts**

Monitoring DBE participation, including whether a DBE is performing a CUF, are subject to the same guidelines as stated above [49 CFR, Part 26.55(c)(1)(2)].

For further details, please refer to 49 CFR, Part 26.55.

**CALIFORNIA DEPARTMENT OF TRANSPORTATION  
DISADVANTAGED BUSINESS ENTERPRISE PROGRAM REVISIONS  
FEBRUARY 2015**

On October 2, 2014, the United States Department of Transportation published revisions to the Disadvantaged Business Enterprise (DBE) program regulations found in Title 49 of the Code of Federal Regulations, Part 26 (49 CFR 26). The DBE regulations in 49 CFR 26 form the basis for the California Department of Transportation's (Caltrans) DBE program.

As a result of the changes to 49 CFR 26, the California Department of Transportation (Caltrans) has completed significant revisions to the following sections of its Standard Specifications:

- Section 2: Bidding
- Section 5: Control of Work

Following is a summary of changes:

**Counting DBE Participation 2-1.12A General**

- To count toward meeting a DBE goal, each listed DBE, at bid opening, must possess the work category code(s) applicable to the type of work they will perform on the contract.
- If a DBE leases trucks from a non-DBE truck leasing company, it must use its own employees as drivers in order to be eligible to receive credit for the total value of the hauling services.

**DBE Commitment Submittal 2-1.12B(2)**

- All bidders must submit, no later than 4 p.m. on the 4<sup>th</sup> business day after bid opening, the following information:
  - DBE Commitment form.
  - Quote from each listed DBE that describes the type and amount of work shown on the DBE Commitment form.
  - DBE Written Confirmation form for each listed DBE to establish that the DBE has agreed to participate in the type and amount of work shown on the form.
  - If the contract goal is not met, good faith efforts documentation. Good faith efforts documentation submitted outside of the specified timeline will not be considered as part of Caltrans' evaluation of good faith efforts.
- Caltrans has modified its DBE Commitment and DBE Good Faith Efforts Documentation forms based on changes in 49 CFR 26.

**Evaluation of Good Faith Efforts 2-1.2B(3)**

- Appendix A to 49 CFR 26, "Guidance Concerning Good Faith Efforts," has been revised. Highlights include:
  - Additional emphasis on a bidder's efforts to identify and solicit DBEs.
  - Additional emphasis on a bidder's efforts to negotiate in good faith with interested DBEs, including evaluation of quotes provided by DBEs.
  - Caltrans must consider the performance of other bidders in meeting the contract goal as part of an evaluation of good faith efforts.

**CALIFORNIA DEPARTMENT OF TRANSPORTATION  
DISADVANTAGED BUSINESS ENTERPRISE PROGRAM REVISIONS  
FEBRUARY 2015**

**Reporting 5-1.13B(1)**

- Caltrans must begin collecting and reporting DBE payment data for all ongoing contracts. This is in addition to the collection and reporting of DBE final utilization upon acceptance of contract work.
- Prime contractors must submit by the 15<sup>th</sup> of each month a Monthly DBE Payment form documenting payments made to DBEs during the previous month. Failure to submit this form each month by the specified due date will result in withholds pursuant to section 9-1.16E(3), Performance Failure Withholds, of the Caltrans Standard Specifications.

**DBE Substitutions 5-1.13B(2) General**

- A substitute DBE, at the time of substitution, must possess the work category code(s) applicable to the type of work the substitute DBE will perform on the contract.
- The prime contractor must submit good faith efforts documentation for DBE substitutions within 7 days; the timeline may be extended an additional 7 days at the contractor's request.
- A prime contractor's inability to find a replacement DBE at the original price is not alone sufficient to support a finding of good faith efforts to replace the original DBE.
