RE: Contract 04-3A8704; bids opened 3-5-2014

Mr. McMillan,

Golden State Bridge (GSB) submitted the low responsive bid for contract 04-3A8704 on March 5, 2014. GSB also submitted the 24 hour subcontractor listing with column 2 and 3 completed in accordance with our listed subcontractor bids.

For PC&N construction we inadvertently left in the descriptions in column 4 – “GR Deliniator” and “object marker”; however PC&N did not bid this work. These descriptions were inadvertently left in as originally we had listed Dirt and Aggregate Interchange for a similar scope of work and they included these items. These items (item 119 and 120) represent only \$1,200.00 worth of work on this project (less than one hundredth of one percent of the total). I have discussed this with PC&N and they concur that this was an inadvertent error and do not wish to perform work for which they did not bid.

In accordance with the Public Contract code, section 4107.5; GSB asserts a claim of an inadvertent clerical error as outlined above, and requests the State award the contract to GSB, the lowest responsive bidder.

The above inadvertent clerical error in no way affects our bid as submitted.

Attached are the bids from PC&N and Dirt and Aggregate Interchange, as well as the excerpt from the public contract code for your reference, and a copy of our subcontractor list submitted within 24 hours.

Please contact me should you have any questions.

Respectfully,

David Riccitiello
President, GSB

labor to be performed unless he or she specified the subcontractor in his or her bid for that subcontract to the prime contractor.

4107.5. The prime contractor as a condition to assert a claim of inadvertent clerical error in the listing of a subcontractor shall within two working days after the time of the prime bid opening by the awarding authority give written notice to the awarding authority and copies of that notice to both the subcontractor he or she claims to have listed in error and the intended subcontractor who had bid to the prime contractor prior to bid opening.

Any listed subcontractor who has been notified by the prime contractor in accordance with this section as to an inadvertent clerical error shall be allowed six working days from the time of the prime bid opening within which to submit to the awarding authority and to the prime contractor written objection to the prime contractor's claim of inadvertent clerical error. Failure of the listed subcontractor to file the written notice within the six working days shall be primary evidence of his or her agreement that an inadvertent clerical error was made.

The awarding authority shall, after a public hearing as provided in Section 4107 and in the absence of compelling reasons to the contrary, consent to the substitution of the intended subcontractor:

(a) If (1) the prime contractor, (2) the subcontractor listed in error, and (3) the intended subcontractor each submit an affidavit to the awarding authority along with such additional evidence as the parties may wish to submit that an inadvertent clerical error was in fact made, provided that the affidavits from each of the three parties are filed within eight working days from the time of the prime bid opening, or

(b) If the affidavits are filed by both the prime contractor and the intended subcontractor within the specified time but the subcontractor whom the prime contractor claims to have listed in error does not submit within six working days, to the awarding authority and to the prime contractor, written objection to the prime contractor's claim of inadvertent clerical error as provided in this section.

If the affidavits are filed by both the prime contractor and the intended subcontractor but the listed subcontractor has, within six working days from the time of the prime bid opening, submitted to the awarding authority and to the prime contractor written objection to the prime contractor's claim of inadvertent clerical error, the awarding authority shall investigate the claims of the parties and shall hold a public hearing as provided in Section 4107 to determine the validity of those claims. Any determination made shall be based on the facts contained in the declarations submitted under penalty of perjury by all three parties and supported by testimony under oath and subject to cross-examination. The awarding authority may, on its own motion or that of any other party, admit testimony of other contractors, any bid registries or depositories, or any other party in possession of facts which may have a bearing on the decision of the awarding authority.
