Flatiron performed a Caltrans CUCP database search on 11/23/2013. The database search provided a list of 358 potential DBE firms. 298 DBE firms were selected and contacted by email invitation on 11/23/2013 by Flatiron West Inc. (list of firms and copy of email sent is attached)

100 additional firms were contacted by Compliance news outreach services on 11/25/2013 by fax and follow up invitations with new bid dates.

Phone calls were made on 1/7/2014 to follow up with the DBE's that had been faxed and emailed who had not yet indicated their intention to bid and to inform them of the new bid date of February 19, 2014.

Please see the attached list of firms Invited/Solicited to bid to Flatiron, including method of contact and follow up to confirm with certainty the DBE firms intent to bid to Flatiron.

Our outreach helped us achieve 7.87% of DBE participation and we exceeded the contract goal of 7%.

PRICE INDEX PROVISIONS

This is an Asphalt Index project and is subject to one of the following.

- Where the General Contractor does not "opt out" of compensation/payment adjustments for asphalt price index fluctuations in the bid book, the following will apply (note, this is not an adjustment in the price per ton of the HMA, but rather an adjustment in the payment due for invoiced HMA that is delivered during a particular pay period for the project, and will be separately invoiced) :

  Buyer's payments for the HMA shall be subject to adjustment in accordance with the Caltrans special provisions in the Caltrans/Govt Agency contract that are referred to in the specifications for asphalt as either "Compensation Adjustment for Price Index Fluctuations" or "Payment Adjustments for Price Index Fluctuations." The adjustments shall be made at the time the adjustment amount (the "Adjustment") is properly determined and identified as such by the Govt Agency that owns the project. Buyer shall deliver to Seller a copy of the Govt Agency supporting documents for the Adjustment at the time of the Adjustment. If the Adjustment results in an increased or reduced payment from the Govt Agency, then Buyer's payment to Seller for that HMA shall be increased or reduced, as the case may be, by the same amount.

  Buyer is primarily responsible for obtaining the proper Adjustment determination from the Govt Agency in the pay period immediately following Seller's delivery of the HMA to Buyer. Seller may, but shall not be required to, estimate the proper Adjustment amount for those deliveries, and in that event Buyer shall pay Seller on the estimated basis. If the proper Adjustment amount as determined by the Govt Agency differs from the estimated amount, then billings and payments will be corrected to conform to the Govt Agency determination.

- Where the General Contractor has "opted-out" of compensation/payment adjustments for asphalt price index fluctuations in the bid book, HMA prices will be adjusted as follows:

  The price per ton/tonne of HMA will go up at the time of delivery, for a $10.00 or greater increase in the rack price of liquid asphalt oil from the current rack price for liquid asphalt oil of $580.00 per ton. Any increase will be reflected to your account at the time of delivery at the rate of 6% per ton/tonne for every $10.00 or greater increase in the current rack price of liquid asphalt oil. It is the responsibility of Purchaser to request current liquid asphalt oil pricing for HMA.

All Sales are subject to the attached Standard Terms and Conditions.

STANDARD TERMS AND CONDITIONS

Prices: Prices are subject to change after the Expiration Date, or 30 days if no date is stated, and Seller reserves the right to increase prices in the event of increases in the costs of natural gas, diesel fuel and electricity. Hot mix asphalt ("HMA"; defined as any product where Seller adds asphalt oil) price is based on current asphalt oil prices, and Seller reserves the right to increase the price of HMA at the time of delivery in the event asphalt oil prices have increased. Additional charges apply for purchases outside of Seller's regular business hours. Prices F.O.B. Jobsite (deliver) are subject to change if (a) less than 25 tons of material per truck load are actually transported, (b) the most direct route to the jobsite is not available, and (c) Standby Charges apply. If Buyer fails to comply with credit terms of payment, Seller reserves the right to require satisfactory security or guarantee that invoices will be paid, or to cancel the unfilled portion of the comract without notice. **Prompt Payment Discount:** Seller allows the following cash discount on materials quoted, if payment is received by the 10th of the month following the billing period and all past due balances are paid in full: rock, sand & gravel at $.25 per ton/tonne; HMA at $1.00 per ton/tonne.

Cash Sales. For cash sales, Buyer is responsible for all charges for the materials. If paying by Visa or MasterCard, a signed authorization form must be completed and submitted before material is sold. If paying by check, a new check is needed every day material is sold. For dishonored checks or checks not promptly honored, Buyer is responsible for a $25 check fee and a monthly finance charge of 1.5% of the amount of the dishonored check from the date of sale as well as Seller's costs of collection, including attorney's fees and court costs.

Acceptance of Material: Unless otherwise indicated all sales are F.O.B. Seller's plant (pickup). Buyer is responsible for confirming that the material described on Seller's scale ticket is the material ordered. Buyer shall accept or reject materials prior to unloading. Once materials are unloaded, Buyer's acceptance is final.

Material Specification and Use. Buyer is solely responsible for selecting the appropriate materials, including HMA mix designs, for Buyer's intended use. The design specification of Seller's materials is available upon request. Seller is not responsible for the selection of HMA mix designs for the intended use of the materials and the environmental conditions for the intended application of the materials.

Warranties: Seller warrants that at delivery, aggregate materials will meet Seller's design specifications for the indicated material. Seller warrants that at the time it is loaded HMA will meet the specification of the mix design for the indicated material. Buyer is solely responsible for and Seller's warranties do not apply to (1) finished work in which the Seller's materials will be used, and meeting field performance requirements (including but not limited to compaction) as Seller has no control over the handling, placing, finishing, or curing of materials, and the atmospheric conditions, ground conditions, and proper equipment usage upon which field performance of HMA depends; (2) Seller's material to which Buyer has added any substance, including but not limited to water; and/or (3) contact of Seller's material to contaminants or deleterious substances, including but not limited to cold surfaces, water, or reactive soils. EXCEPT AS EXPRESSLY SET FORTH HEREIN, THERE ARE NO WARRANTIES, EXPRESS OR IMPLIED, WHICH EXTEND BEYOND THESE STANDARD TERMS AND CONDITIONS, AND SELLER EXPRESSLY DISCLAIMS THE IMPLIED WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE.

Limit on Liability: In no event shall Seller be liable for any incidental, special, indirect, or consequential damages, whether resulting from non-delivery or from negligence of Seller or other tort. This exclusion applies regardless of whether such damages are sought for breach of warranty, breach of contract, negligence, or strict liability in tort or under any other legal theory, and Buyer's sole remedy shall be limited, at the option of Seller, to (1) replacement of the non-conforming materials to the FOB delivery point, (2) refund of the purchase price of the materials purchased.

Delivery Schedule/Delay: Materials shall be delivered to Buyer in accordance with a schedule mutually agreed upon by Buyer and Seller. Buyer will schedule delivery of materials with Seller's designated dispatcher. Materials and plants are subject to prior reservation. Transportation for F.O.B. Jobsite sales is subject to the availability of trucks and the accessibility to the jobsite. Seller shall not be responsible for delays or cancellations for reasons beyond the reasonable control of Seller, including but not limited to traffic, weather, plant or equipment breakdown, unavailability of materials, strikes, lockouts, and/or labor disputes. Seller reserves the right to provide Buyer with equivalent or better materials and/or materials from a different location other than specified on the order.

Broken Asphalt/Concrete Recycling: If Seller has agreed that Buyer may deliver broken asphalt pavement and/or broken concrete to Seller's designated plant for recycling, then Buyer is required to complete and sign the Seller's Broken Asphalt and Concrete Acknowledgement and Indemnity that accompanies the Seller's Broken Asphalt and Concrete Acceptance Policy that is attached to this Quote/Order.

Entire Agreement: This Agreement sets forth the entire agreement between the Buyer and Seller with regard to its subject matters, and supersedes any and all prior or contemporaneous oral or written agreements between the Buyer and Seller regarding the subject matters.

Agreement: These Standard Terms and Conditions apply to any and all quotes/orders and/or purchases of materials from Syar Industries, Inc. This Agreement shall bind Buyer upon acceptance by Buyer by any expression of acceptance, ordering or accepting materials, or Seller's commencement of performance, whichever comes first. Any terms or conditions proposed by Buyer in acknowledging or accepting Seller's offer which are different from or in addition to the terms set forth in this Agreement shall not become part of this Agreement, except as expressly accepted in writing by Seller's Authorized Representative. This Agreement can only be modified by a writing signed by Buyer and Seller.

Providing a "Commercially Useful Function" since 1984

Terms & Conditions:

1. All quotes must be on an R & S Trucking quote sheets (pages 1, 2, 3 & 4): all purchase orders/letter of intent to duplicate the same. **PLEASE ATTACH A COPY OF QUOTE, WITH ALL PURCHASE ORDERS OR WORK AUTHORIZATIONS.**
2. **Purchase orders/letter of intent must be issued within 14 working days of bid date; Hourly rates only will be honored during the transition period.**
3. When per load / un-scaled loads are quoted, the following allowable times apply: Quarry site / Load site with Aggregates for all truck (4 and 5 axle) types: 5 minutes. And at the Dumpsite / Job site with Aggregates for Double bottoms / Semi ends / Super dumps: 5 minutes.
4. **Demurrage / Standby Time charges will be charged, after the standard allowable times listed, based on the hourly rates quoted, on page 1) as an example:** $85.00 hourly = $1.42 per minute. Or $ 90.00 hourly = $1.50 per minute, or $ 98.00/hourly = $ 1.63 per minute, etc. Also standby time / demurrage starts upon arrival at the jobsite, including but not limited too; when governmental agencies/general contractors require traffic control points before the actual jobsite (traffic control points, flagmen control, lane closure etc.), and then standby time / demurrage charges will commence starting at the point of that traffic control location.
5. **It will be the contractor's /customers sole responsibility to collect all demurrage /standby time at any quarry site/ load site.**
6. **Never will any "Averaging of Standby Time" be allowed.** In other words; standby averaging is not allowed at all, as first stated on page 1, reflective in qualifying maximum allowable times in tonnage rate quotes. Demurrage / standby time will be billed and become due & payable after the maximum allowable times listed at the rate per minute quoted.
7. **Semi End Dumps, Double bottoms, Semi Bottoms and 10-Wheelers are hourly unless agreed in writing by R&S Trucking & Contractor prior to job commencing.**
8. **All quotes reflect 100% trucking of said job. R & S Trucking reserves the right to void any /all prices if less than 100%.**
9. Please call truck orders in by 2:00 p.m., to check availability. Please notify us several days in advance of any new jobs starting and/or any large truck orders of 10 or more.
10. On all jobs that require certification rosters, additional names may be added at any time.
11. PROBLEMS ON PROJECTS: The contractor must FAX into our main office a detailed description of the occurrence, including the sub hauler and/or drivers name, owner of the truck, truck number/trailer(s) number and description of truck/trailer(s), and copy of the freight tag that pertains to this incident or occurrence, along with estimated dollar ($) amount of loss (when applicable) on the same day of the incident or occurrence. R&S Trucking will accept "NO DEDUCTS OR BACK

CHARGES" unless they are notified as stated above. R &S Trucking will then respond back to customer after investigating the incident. All claims for recovery by contractor for loss or damage to commodity hauled must follow this procedure. Any deviation from this procedure will not change the costs incurred and may cause immediate withdrawal of trucking from said job

12. **It is the contractor's responsibility to FAX notice to R&S Trucking Estimator prior to job bidding if certified payroll and/or union participation is required (also see item.32 following).**
13. **Saturday rates: add 12.5% to the weekday rates, listed on Page 1. Also, Sunday & Holiday rates: add 25 % to the weekday rates, listed on Page 1. This applies to all rates quoted, regardless of hourly, per ton, per load = ALL RATES.**
14. **Minimum Show-up time: On every truck dispatched to customers project, customer will be responsible for paying at least a 4 hour minimum daytime, & 6 hour minimum nighttime, unless previously arranged with dispatch.**
15. All un-scaled tonnage quotes will be based on **26.20 tons** per load for Double bottoms. All scaled tonnage quotes for partial loads will be based on 24.00 tons for Transfers. All scaled tonnage quotes for partial loads will be based on 19.00 tons for Semi ends, Semi bottoms and Super Dumps These quotes are based on R&S Trucking performing all trucking requirements on said project. Also, when partial loads are sent back from the jobsite, back to the quarry: The time spent traveling back will be charged at the quoted hourly rate.
16. If Contractor chooses not to have loads weighted, then contractor is responsible for all overloads, overload tickets, and anything that occurs if load is not weighed.
17. Hourly time to be charged will start from the time reporting to work (time truck was ordered to be at load site), to the time completing the hourly service, which includes travel time back to the load site on the last load. Time to be charged shall include time for transportation in both directions, time for loading and unloading, and waiting or standby time, at origin and/or destination. Total chargeable time shall be computed to the nearest one-tenth of an hour. Deductions from the time only allowed for carrier equipment failure and meal delays.
18. R & S Trucking shall render to contractor invoices for services agreed to in the quote sheet/purchase order. Contractor agrees to pay R & S Trucking by the 20th day following the last day of the calendar month in which the work was performed, billed by the 5th day of the following month. When large truck orders are continuous in a given period it may be required that the contractor will be billed weekly and said payment to be no later than 10 days of receipt of invoice. Interest to be charged on all past due accounts at the maximum allowed by law.
19. Please provide R & S Trucking Estimator with all specific job information, which will be the basis of our quotes. Specific details such as lane closures, traffic control points, project labor agreements/organized labor unions, locations for transfers to drop trailers, State, County & City agencies road closures, on and/or off-ramp turn-around access, designated truck routes per job specific contract language, etc., are needed to qualify per ton or per load rates, as these types of rates reflect time constraints. R & S Trucking reserves the right to void quoted rates that reflect time constraints (per ton or per load) at any time, due to lack of specific accurate information given at time of request. Default to hourly rates might prevail, however that could change also dependent on information given at time of request!
20. **Contractor must provide a site on each job for all truckers to clean out trailers daily at end of the last load.**
21. R & S Trucking is not responsible for delays caused by equipment failure of employees, agents or sub haulers of R & S Trucking, or by act of God, strikers, lockouts or similar matters beyond the control of R & S Trucking.
22. If any action at law or in equity, including an Action for Declaratory Relief, is brought to enforce or interpret the provisions of this agreement, the prevailing party shall be entitled to reasonable attorney's fee which may be set by the court in the same action or in a separate action brought for that purpose in addition to any other relief to which that party may be entitle. This agreement will be governed by and construed in accordance with the laws of the State of California.
23. Any changes to R & S Trucking freight tags must be received by FAX in the R & S Trucking main office within 2 working days from date of work performed by R & S Trucking for review.
24. Notices will be deemed communicated to either party to this agreement by either fax or certified mail using date of actual receipt of notice to receiving party.
25. R&S Trucking is not responsible for project production due to availability of trucks or any other reason, on any job.
26. As it is standard practice in the construction industry for contractors not to sign truckers trucking quotes, If R & S Trucking sign's a contractor's agreement/contract for trucking services; this action will be construed as a contractor signing an R & S Trucking complete quote with its terms & agreements. This also means that an R & S Trucking quotes supersedes any/all contractors agreements/contract/purchase order, and contractor will hold harmless anything associated in that contract, including production.
27. **R&S Trucking Co. is a VENDOR, not a SUB CONTRACTOR.**
28. Yearly escalation raise on top of the base rate quoted shall occur at **6% yearly**, commencing 1 year after the job start date, and shall continue yearly with 6% raises, year after year, for the continued duration of this same job.
29. All Asphalt mix designs, such as **Polymer blends, Rubberized, Open-Grade, etc.,** require the contractor to supply a designated clean-out area on the jobsite, and to supply additional equipment & manpower to help facilitate the clean-out of any and all truck and trailer(s). This also includes other

sticky materials: such as Bay Mud, Wet Concrete mixes, etc. The time spent on this additional clean-out is chargeable and accrues separately for this clean-out procedure, and this extra-time is not allowed to be averaged-out. In addition, R & S Trucking only hauls rubberized/open-grade type asphalts in 5-axle Double bottoms/Semi bottoms only, when available.

30. All rates quoted reflect a diesel cost per gallon up to and including: **$ 4.10/per gallon.** After it rises to: **$ 4.11/per gallon,** R & S Trucking will apply a **diesel fuel surcharge rate of 1% for every $ .10 cent per gallon cost increase,** as reported by the U.S. Dept. of Energy weekly on-highway diesel cost reports. Applying a diesel surcharge, after $ 4.11/per gallon, shall be billed thru the previous weeks trucking work (1 week in arrears).
31. All quoted rates DO NOT reflect the cost of an on-site truck boss. If the need of one is required, and mutually agreed upon by R & S Trucking and the contractor requesting this need, then the requesting contractor agrees to pay all costs associated for an on-site truck boss type monitor: This additional fee typically runs approx. $ 350.00/per day/per 8 hour shift, plus fuel cost. This rate is subject to change accordingly.
32. If & when and any & all Teamsters Local 315 or any other union local initiation fees and monthly union dues are required for any type of on-site/off-site/import/export trucking or trucks or owner-operators or independents that are pulling R & S Trucking's boxes or trailers = <u>All dues payable will be paid out thru the general contractor awarded the above mentioned job</u>. This applies to Project Labor Agreements also. **R & S Trucking is not obligated to be a member of the Teamsters or join any other agreement with any organized union, or any project labor agreements.**
33. When "budget trucking only estimates" are provided alongside quoted hourly rates, these budgets are provided reflecting the contractors/estimators desire & requests to help arrive to a: "Approximation of time cycles and/or tonnage estimate to help create a budget cost +/-". These budget costs/rates are not to be considered accurate enough for a commitment and are created only for a convenience, therefor only the hourly rates quoted at the time shall prevail.

Corporation. Specifications state the Project Engineer is expected to measure the quantities. Cell-Crete requires the opportunity to be present for procedures that determine our material quantity, including surveying/shooting grade, before placement of initial lift of material.

5. Cell-Crete accepts no responsibility for the placing of concrete products into lines, vessels or any areas not properly isolated. Our materials, when used for pipe fills, must be contained during the placement process. Creation of containment structure will be the responsibility of others. Cell-Crete is not responsible for the integrity of the void to be filled, nor its ability to contain grout. This includes pipes, structures or formed-off areas.
6. All excavations for placement of cellular concrete must be free of standing water.
7. Excludes traffic control, third party testing, de-watering, bulkheads, feed and vent pipes, cleaning, shoring, formwork, excavation, backfill and access.
8. Contractor is expected to provide safe access and a minimum setup area of 24' x 80' adjacent to fill with good access for up to 6 trucks at one time.
9. Cement prices are good until December 31, 2014. For work to be performed in 2015, add $2/CY to the unit price listed above. For work to be performed in 2016, add $4/CY to the unit price listed above.
10. Cell-Crete works a typical 7-3:30, 40-hour work week unless specifically contracted otherwise. All prices are based upon normal working hours.
11. Grade setting will be the responsibility of others. We are a material provider and not on the job long enough to be knowledgeable about setting the grades.
12. Contractor is expected to provide at least 2 weeks notice for each mobilization and schedule to be agreeable to Cell-Crete.
13. Contractor is expected to provide washouts near our equipment on the job.
14. Contractor is expected to provide OSHA requirements, e.g., safety rails, protection of openings and access ladders. Cell-Crete is expected to provide standard safety equipment for our crews and equipment.
15. Contractor is expected to provide all lane closure permits and flagmen for such closures.
16. There shall be no clauses requiring Cell-Crete Corp. to assume liability for any act by others.
17. Purchase orders, contracts and change orders must be executed before the start of associated work.
18. This quotation shall be attached and be part of the final Contract. Contract is to be acceptable to Cell-Crete Corporation.
19. Bid does not include local hire labor to meet requirements, if any. Our crews are only 2 or 3 people, and we cannot obtain useful labor from the hall for short duration jobs. If a hire is required, please include the direct cost to our contract.

Low Density Cellular Concrete Backfill Quote

Geo-Cell Solutions, Inc. (GCS) is pleased to provide a quote for approximately 1,070 Cubic Yards of **Cellular Concrete Backfill** for the above referenced project for the following prices and conditions:

1) Cellular Concrete Backfill Class III – 1,070 Cubic Yards

Description	Unit	Unit Price
Mobilization	Lump Sum	$8,000.00
Cellular Concrete (36-41 PCF & 80 PSI)	Cubic Yard	$135.00

The following items clarify and qualify the Scope of Work:

1. If additional mobilizations are required throughout project duration please add $8,000.00 per mobilization. Additional mobilizations will only be charged if we are required to remove our equipment completely from the project and remob at a later date.
2. Due to the tight access and environmentally sensitive area in which the cellular concrete work will be performed, GCS will provide a wet-mix unit which is substantially smaller and can fit into tighter areas than a full batch plant. It will also allow the majority of the mix to be pre-batched off site by a ready mix company and then delivered to us on site to complete the mix with the foaming agent and pump into place. This will limit the potential risk of utilizing a batch plant with bulk cement and trucks into the environmentally sensitive area. GCS is the only cellular concrete sub contractor with this type of equipment in California.
3. Above pricing includes all equipment, materials, labor, supplying, pumping and placement of the lightweight foam/cellular concrete.
4. ***GCS form work includes interior forming with plywood for containment of material on daily pours only. Any exterior bulk heading/forming or storm drain/utility forming will be the responsibility of the General Contractor. Forming of cellular concrete outside edges, joint trenches, utility block outs, or sloped edges is not included in the above price.***

5. Above pricing is based on continuous work being available at a minimum of 150 cubic yards per day on average. Standby time @ $495.00 per hour will be charged if continuous work is not available on the days we pour.
6. Above price is good through the end of 2015.
7. GCS will work Saturdays provided the General Contractor compensates us an extra $2,000.00 per Saturday worked.
8. Standby time & delays caused by the General Contractor will be billed at $495.00 per hour.
9. Geo-membrane (if needed) is not included in the above price.
10. Prime coat (asphalt treated permeable base) (If required) after our final lift is not included in the above pricing.
11. General Contractor is responsible for providing the following at no cost to GCS:
    a. Providing method to bury/string/support hose across/under bridge or roadway area if needed.
    b. Exterior forms for containment of material. All leaks through exterior forms are the responsibility of others, including repair, clean-up, and lost time
    c. SWPPP approved washout area for our equipment.
    d. Water supply (minimum 75 GPM @ 50 PSI) at production area.
    e. Any scarification that requires equipment. GCS will handle broom or rake scarification.
    f. Any layout, lines, grades, engineering, permits, surveys, and inspection information.
    g. Traffic control setup, devices, maintenance and flagmen. (if required)
    h. Staging and production area shall be adjacent to fill area, and shall have good truck access for cement deliveries and suitable for parking and staging equipment. Staging requirement approximately 1,500 square feet per location.
    i. Secure location for equipment storage at jobsite throughout project duration.
    j. Removal of standing water prior to fill placement, as well as continuous dewatering during placement if necessary.
12. GCS is responsible for onsite QC as well as providing all testing of materials prior to start of work including providing all necessary submittals. Once the project has started GCS will provide on site test sample cylinders but will not be responsible for third party testing.
13. GCS is not responsible for any material entering any utilities or structures.
14. Bond is not included in above price. Please add 2.5% for bond.
15. The cost for the insurance covered under an OCIP policy has been taken into consideration in this bid. Any costs associated with the OCIP will be paid by others. OCIP deductible and/or SIR not to exceed GCS's current policy deductible.
16. Above price does not include additional railroad insurance. (if required)
17. There shall be no clauses requiring GCS to assume liability for any act of others.
18. This quotation shall be attached and be part of the final contract.

Re: Letter of Reference

To Whom It May Concern:

Cellular Concrete Solutions has been providing chemicals and equipment to the cellular concrete industry for more than 50 years. Our technical staff, which has been engaged in foam technology and production since the late 1930's, developed its own proprietary process, specialized foaming agents and equipment. Our staff is also actively engaged in industry standards setting of technical societies such as ASTM, American Concrete Institutes, Underground Technology Research Committee (AIME & AICE), The National Roof Deck Contractors Association and has cooperated with many government agencies.

Cellular Concrete Solutions Foam Liquid meets the requirements of ASTM C869, "Standard Specification for Foaming Agents Used in Making Preformed Foam for Cellular Concrete", when tested in accordance with ASTM C796, "Standard Method of Testing Foaming Agents for Use in Producing Cellular Concrete Using Preformed Foam".

Cellular Concrete Solutions is pleased to confirm that ***Geo-Cell Solutions, Inc.*** has over 20 years experience in placing Mearlcrete/Geofoam Cellular Concrete. They utilize the proper equipment to mix and place our products and their personnel are very qualified. Countless successful project references are available, if necessary.

Submission of DBE Good Faith Effort Documentation
State of California Department of Transportation
Contract No. 04-3A8704, Hwy 680 Mococo Rd

Section 8

8. Any additional data to support a demonstration of good faith efforts:

Flatiron requested 2nd tier DBE participation from non-DBE subcontractors and suppliers in our advertisements and invitation letters. Although we have exceeded the 7% DBE goal with our own DBE participation, for this project we have the potential to secure and obtain 2nd tier DBE participation from some of our selected subcontractors. This would increase our final project DBE participation for this contract.
