	Doubles, Rubber	Supers, Dense Mix	Supers, Rubber
GRANITE RWC	205 min	205	220
GRANITE SC	185	185	200
REED & GRAHAM	170	170	185
HANSON SUNOL	205	205	220
GRANITE BERRYESSA	180	180	195

Terms and Conditions

Bid is based on acceptability at the landfill quoted. All pricing subject to material acceptability and dumpsite approval. Complete analytical must be provided and approved prior to schedule. All work will be billed at an 7 hour minimum plus clean out if applicable. Projects that require short shifts will be billed at a 7 hour minimum. Open Grade or Rubberized Asphalt requires an additional hour clean out at the end of each shift. Add \$ 5.00 per hour for union trucks. Add \$ 5.00 per hour if 100% filtered trucks are required and trucks on extension are not allowed. Cancellations: DVBE must be notified at least 2 hours prior to scheduled start time. Anything after will be billed a four hour minimum. Fuel Surcharge: For every \$0.25/Gal increase in fuel there will be an additional 2% to the hourly rate. Prevailing Wage: If the Contractor requires that DVBE Trucking and Construction Company owned trucks are to be used ON THE JOB SITE and ON SITE prevailing wage is required, the hourly rate will increase to meet the prevailing wage requirements. If the nature of the work is not "On Site" and prevailing wage is required but at the nominal Caltrans rate, with no increase, then the TOP hourly rates apply. For Certified payroll and payroll reporting requirements there will be a processing fee of \$300 per week. Prices are good through 6/30/2015. There will be a 5% increase annually thereafter. Please sign and Fax back to

Terms and Conditions

Bid is based on acceptability at the landfill quoted. All pricing subject to material acceptability and dumpsite approval. Complete analytical must be provided and approved prior to schedule. All work will be billed at an 7 hour minimum plus clean out if applicable. Projects that require short shifts will be billed at a 7 hour minimum. Open Grade or Rubberized Asphalt requires an additional hour clean out at the end of each shift. Add \$ 5.00 per hour for union trucks. Add \$ 5.00 per hour if 100% filtered trucks are required and trucks on extension are not allowed. Cancellations: DVBE must be notified at least 2 hours prior to scheduled start time. Anything after will be billed a four hour minimum. Fuel Surcharge: For every \$0.25/Gal increase in fuel there will be an additional 2% to the hourly rate. Prevailing Wage: If the Contractor requires that DVBE Trucking and Construction Company owned trucks are to be used ON THE JOB SITE and ON SITE prevailing wage is required, the hourly rate will increase to meet the prevailing wage requirements. If the nature of the work is not "On Site" and prevailing wage is required but at the nominal Caltrans rate, with no increase, then the TOP hourly rates apply. For Certified payroll and payroll reporting requirements there will be a processing fee of \$300 per week. Prices are good through 6/30/2015. There will be a 5% increase annually thereafter. Subject: Quality Control Testing and Inspection for Caltrans Contract No. 04-3E4204 on Route 35 in Santa Clara County near Saratoga from Route 9 to San Mateo County Line

Dear Donat:

We are providing a proposal for Quality Control Testing and Inspection for the subject project.

There is both HMA and RHMA to be constructed using warm mix technology on the project. The HMA may require compaction testing. The RHMA will require sampling and monitoring of placement. The supplier will perform materials testing. Our scope of work will consist of a quality control plan, pre-construction meeting, mix designs, and daily paving inspection and testing. Our inspection and testing fees are provided per day and are based on prevailing wage.

This project has more testing required than previous Caltrans projects. In addition to production TSR's, the specifications also require Hamburg Wheel Track testing every 10,000 tons. Full aggregate property tests including VMA, VFA and dust proportion testing is required for each 10,000 tons of HMA or RHMA placed. In the past this testing has only been performed at production start-up.

The following is a breakdown of our QC Management Services:

QC MANAGEMENT		
ITEM		FEE
QC PLAN		\$300
CALTRANS MEETINGS: Includes preparation, travel, and time spent at the meeting for one engineer or project manager to attend a pre-paving conference, weekly paving conference, or other meeting with Caltrans at which the contractor requests our attendance.	Each	\$350

\$650

Mr. Donat Galicz
 January 6, 2015
 MP15-002
 Page 2

The QC management portion of the work includes all costs associated with developing an approved QC Plan and attendance at the pre-pave meeting and any other required QC meeting requested by the contractor or Resident Engineer.

The following is the cost for developing mix designs:

MIX DESIGNS		
ITEM		FEE
SUPERPAVE HMA MIX DESIGNS	Each	\$2,750
SUPERPAVE RHMA MIX DESIGNS	Each	\$4,500
TSR TESTS - Laboratory Produced for Mix Design (Treated and Un-treated required)	Each	\$1,150 ←
HAMBURG TESTS - Laboratory Produced for Mix Design (Treated and Un-treated required)	Each	\$1,000 ←

Typically these services are provided by the supplier and in many instances the supplier already has a verified JMF.

The following is the cost breakdown for RHMA production paving if the supplier provides plant inspection and testing, and is based on an 8-hour workday:

PRODUCTION PAVING - HMA AND RHMA		
ITEM		FEE
PAVING TESTING & INSPECTION: Includes QC manager/engineer (1 hour per day for test result review), one person performing mat inspection/sampling, and monitoring compaction by observing rolling patterns (1 person crew). Also includes laboratory testing for AASHTO T275 and T209 for mix voids.	Per Day	\$1,200
HMA & RHMA PRODUCTION START-UP: in addition to standard daily fee for the additional required RHMA testing (2 each).	Each	\$650
HMA & RHMA PRODUCTION TSR's: at start-up and one per 10,000 tons (3 Each).	Each	\$875
RHMA PRODUCTION HAMBURG: at start-up and one per 10,000 tons (3 Each).	Each	\$950
HMA MIX PROPERTY TESTS: (includes VMA) one per 10,000 tons (1 Each).	Each	\$850

Overtime for workdays over 8 hours will be \$100 per hour for a 1-man crew and \$200 hour for a 2-man crew.

These rates assume the supplier will perform plant inspection, gradation testing, sand equivalent testing and asphalt content testing. If the supplier does not provide plant inspection and materials testing, PEI can provide this service at an additional daily rate of \$1,200 per day.

Mr. Donat Galicz

PROPOSAL CONDITIONS

1. Proposal is valid for thirty days from the date of the proposal.
2. All work shall be performed utilizing common methods and practices of the civil engineering profession. Reports and construction documents will be signed by a registered civil engineer.
3. Fees for Lump Sum or Unit Price Proposals will be charged at the quoted price. The quoted prices include all laboratory testing costs. Fees for Engineering and Technical Services on a Time and Materials Basis will be charged at the applicable hourly rates of the current PEI Fee Schedule.
4. The proposal is based upon providing liability insurance with limits up to \$2,000,000.
5. One copy of an Engineering Report or Plans and Specifications will be provided to the Owner of a project. Additional copies are \$35 each.
6. Payment: Invoices will be submitted at the completion of the work for Engineering Reports. Inspection fees will be invoiced on a monthly basis. All invoices are due upon receipt. Interest of 1-1/2% per month (but not exceeding the maximum rate allowable by law) will be payable on any amounts not paid within 30 days, payment thereafter to be applied first to accrued interest and then to the principal unpaid amount. Attorney's fees or other costs incurred in collecting any delinquent amount shall be paid by the client.

Mr. Donat Galicz
January 6, 2015
MP15-002
Page 3

The supplier will be responsible for sending asphalt binder samples from each day of paving to Translab on a weekly basis, as described in the project special provisions.

DATA CORES		
ITEM		FEE
DATA CORES (Approximately 7 each)	Each	\$250

- \$1,750

Required at the beginning and the end of the project as well as 1 per every 1/2 mile. Cores only obtained in one direction 2 lane road, both directions on 4 lane roads and 2 lanes each direction for roads 6 lanes or greater. Data cores are backfilled with high strength concrete. The prices are based on the contractor providing traffic control. The price is based on doing a minimum of 4 cores per day. The price is based on the contractor providing traffic control.

Profile testing for this project is specified using the inertial profiler. The fee for inertial profiling is \$2,300 per each site visit. If it is desired to have PEI mark grinds, there will be \$1,850 per day fee for a technician to mark grinds. Traffic control will be provided by the contractor. The inertial profiling typically results in multiple trips out to the project. For this project, the pricing will include at least 4 trips including: pre-profile, pre-profile after grind, post-paving profile and post-paving profile after grind.

Thank you for the opportunity to provide a proposal for the above project. If you have any questions, please do not hesitate to contact our office at (530) 224-4535.

Very truly yours,
PAVEMENT ENGINEERING, INC.
