#### NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contractor, subcontractor, laborer, supplier or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers or suppliers remain unpaid.

To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or materials suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not have to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. Its purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to protect their lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recorder which then becomes a recorded lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your property is 90 days after substantial completion of your project.

**NOTES:**

**Proposal Clarifications and Notes:**

1. Bid price is subject to change if any of the proposed work is eliminated, phased, or otherwise divided.
2. This proposal includes only the listed items as shown or as noted.
3. This proposal is based on having clear unobstructed access to our work area.
4. Should payment and performance bonds be required, the bond cost plus 15.0% mark up on bond cost will be added to the contract total.
5. Should a waiver of subrogation be required, an additional cost will be added to the contract total.
6. Papich Construction's fleet of heavy-duty off-road, on-road, and stationary construction equipment complies with all current CARB requirements. No additional provisions have been made for emissions reduction beyond that required by current law.
7. Please take special note of the 30-day expiration of this proposal. Due to volatile material pricing, our proposal is based on pricing quoted at bid time (prices can be confirmed upon acceptance of our proposal). Papich Construction reserves the right to address any cost revisions associated with price increases or shortages due to circumstances beyond our control (energy crisis, weather, war, major impacts to industry, economy, etc.)
8. Street sweeping and mobilization for our scope only, while onsite.
9. Traffic control to be provided by others as needed. *DATE SET TO BE DETERMINED BY GC*
10. K rail relocation to provide adequate access to be performed by GC and excluded from this scope.
11. Creek protection to be provided by GC.

**This Proposal Specifically Excludes the Following:**

- A. Fees, permits, bonds, special insurance, engineering and staking, materials or other testing, and inspections.
- B. SWPPP, NPDES, NOI, erosion control plans, permits, or implementation of such plans.
- C. Additional move-ins (price based on one (1) move-in) unless otherwise noted in this proposal.
- D. Overtime or accelerated schedules. Bid is based on straight time unless otherwise noted in this proposal.
- E. Dust control at the site and street sweeping when our crews are not physically working on the project, such as after normal working hours, weekends, or holidays.
- F. Not used
- G. All landscape and landscape irrigation work including any replacement if necessary.
- H. All costs associated with contaminated, hazardous, or buried materials including well abandonment.
- I. Construction water or construction water meters. Our proposal is based upon taking water from a nearby hydrant provided at no cost by others.
- J. All sub drain work (trench drains, wall drains, waterproofing, and perforated pipe drains), unless otherwise noted in this proposal.
- K. Rock excavation. If rock, or other similar materials, are encountered which cannot be excavated efficiently with our project standard excavation equipment (i.e. Cat 320 size excavator @ 100 cy/hr), work will cease immediately and the Owner notified. Any additional costs incurred to efficiently excavate for the project shall be paid on a time and materials basis. Papich Construction has not included any breaking, drilling, or blasting in this proposal.
- L. Dewatering, including groundwater, ponded, or nuisance water.
- M. Over-excavation of unsuitable soils, including any imported materials or remedial action necessary for stabilization. On-site soils may not be suitable for fill or backfill due to over optimum moisture content or other soils issues. Weather or schedule may not allow time to dry soil. The cost for suitable imported fill, chemical treatment, pumping of rain water, or excessive spreading and drying of wet material is not included in this proposal.
- N. Excavation for walls, wall footings, or curb footings unless otherwise noted in this proposal.
- O. Fence removal or replacement.
- P. Not used
- Q. Surface concrete replacement or construction unless otherwise noted in this proposal.
