The Construction Zone is now a certified DBE!

This is great news for us and all of you. For any of you that are going to be bidding public works in the future or if you have ongoing public works projects anything purchased from us will count toward your DBE goal achievements. If you are a public entity which uses products we sell we can also be counted toward your increased DBE participation. We are a DBE supplier and any business done with us can help many of you to increase your DBE participation on the project DBE goals. The Construction Zone received certification through The California Department of Transportation CUCP Program which is recognized statewide.

All of our prices are competitive with the rest of the vendors in our market sector. So, please contact us immediately for any upcoming projects you may want us to bid on so we can help you make your goals and also help you be low bidder. **We stock all items in house and can deliver right to your job site or yard. Just think about how much money you can dedicate to your DBE goals when you buy from us instead of a large box store, like Whitecap or Home Depot.** The best part is that it won't even cost you any more \$, because of our competitive pricing.

As always we are here to provide you with all of the products you need with outstanding customer service.

Our DBE Certification Firm ID is 43059 and a copy of our certificate is attached. Feel free to contact us with questions or product needs. **Also, be advised that we are in the process of adding additional work codes to our certification and we are available Statewide.**

MBDA Business Centers

Minority-owned firms seeking to penetrate new markets — domestic & global — and growing in size and scale, can access business experts at a MBDA Business Center. Whether it's securing capital, competing for a contract, identifying a strategic partner or becoming export-ready, your success is our priority.

The Centers are located in areas with the largest concentration of minority populations and the largest number of minority businesses. The Centers are staffed by business specialists who have the knowledge and practical experience needed to run successful and profitable businesses. Business referral services are provided free of charge. However, the network generally charges nominal fees for specific management and technical assistance services.
