DATE: 11-7-2016

TO: Tricon Construction Inc.

PROJECT: Crestview Maintenance Facility

This proposal is for random traffic slabs finished to a tolerance not to exceed FF 30 as described in ACI 302.1R-44. Tolerance testing is to be performed in accordance with ASTM E1155-96. Slabs are based on single pour (without use of metal key joints) utilizing Soff cut control joints.

PUMP, PLACE & FINISH PROPOSAL

- 1. 7,572 SF S.O.G **Limit 1- 32 meter Pump tip pour.**
- 2. 409 SF Pump House
241 SF 18" Thick LP S.O.G.
1,100 SF 5-1/2 Thick Bldg Apron
1,025 SF 24" Thick Tank Foundation
Tailgate access for exterior slabs

Includes Soff Cut control joints for Slab on grade

PUMP, PLACE & FINISH AMOUNT: ~~\$ 58,380~~

REVISED 11.7.16: \$110,000

EXCLUDED ITEMS

- Hoisting of equipment to work areas.
- **Pouring slabs when metal key joints are utilized.**
- **1/8" in 10' floor tolerance. (Refer to ACI-302-1R and ACI 117-1R)**
- Tolerance testing of slabs and associated costs.
- Repairs to concrete spalling at Soff cut joints.

www.roebbelen.com

- Patching of area under form work or other areas made inaccessible during pour.
- **Furnish & Installation of Trench Drain**
- **Installation or removal of any form work or construction joints.**
- Installation of "wet" saw joints, zip strip joints or key kold joints.
- Control joint layout and snapping lines prior to Soff cutting.
- Establishing finish floor grade and snapping of grade lines on stem walls.
- Furnish **any** materials. (ie, concrete, cures, sealers, colors, accelerators, retarders, etc.)
- Responsibility for furnish, installation and protection of reinforcing materials including but not limited to rebar, anchor bolts, etc.,
- Installation of stains, color hardeners, cures, sealers, etc.
- Miscellaneous footings, **spread footings per detail 1&2 on ST1-6, Continuous footings per detail 1 on ST1-9**, pit slabs, sump floors, **trench drains**, etc.
- Column block outs, brace frame block outs, etc. unless noted above.
- Labor and pump costs to place footing concrete. **Continuous footings per detail 1 on ST1-9, spread footings per detail 1&2 on ST1-6.**
- Vibration, strip, finish or patching of curb tops or vertical faces.
- Permits, bonds, testing or inspections.
- Cleanup or removal of pump spoils or truck washout.
- Protection, beyond normal care, of objects adjacent to concrete pours.
- Lighting of work areas.
- Wetting of sub grade prior to pour and during pour.

This pump, place & finish price is based on the following:

- **It is the intent of this proposal to provide place and finish operations for concrete slab on grade and other listed items and for listed exterior site related items above.**
- **For the above stated price to be valid this proposal, with all inclusions and exclusions must become an attachment to any forthcoming contract and supersede any issues of tolerance included in contractors contract with owner.**
- The above stated price is considered void after a period of 45 days.
- Roebbelen Contracting does not accept responsibility for variations in tolerance due to movement, deflection or improper installation of forms. Nor responsibility for slab curling or cracking.
- **Water reducing admixtures and or plasticizers** will be required when concrete slumps are at or below 4". Retarders, accelerators and evaporation reducers are to be provided according to ACI guidelines for hot and cold weather placements.
- **Tolerance** requirements and testing of tolerance should comply with the latest guidelines for slab and supported slab construction set forth by the American Concrete Institute.
- Floor **tolerance** of a true 1/8" in 10 feet will require grinding and leveling. This work and the associated cost are not part of this proposal.

- General Contractor to provide use of fork lift, or other means of lifting equipment to work areas.
- In the event rain is forecasted, the General Contractor will be responsible for deciding whether to pour or not. We do not recommend pouring when any rain is forecasted during the placing and finishing operation. If rain is encountered GC will be responsible for costs associated with delays, excessive over time and any rain related damage repairs.

Please Contact **Rich Kollenberg 916-417-9668** with any questions regarding this proposal.
