CALIFORNIA UNIFIED CERTIFICATION PROGRAM

[HOME](#) [APPLY](#) [DIRECTORY](#) [NOTICES](#) [SITE MAP](#) [CONTACT](#)

What is the CUCP?

The California Unified Certification Program (CUCP) provides "one-stop shopping" certification services to small, minority and women businesses seeking to participate in the United States Department of Transportation (USDOT) Disadvantaged Business Enterprise (DBE) Program. Certification services are offered to businesses seeking to obtain either DBE or airport concessionaire disadvantaged business enterprise (ACDBE) status.

As mandated by USDOT in the DBE Program, Final Rule 49 Code of Federal Regulations (CFR), Parts 23 and 26, all public agencies that receive USDOT federal financial assistance must participate in a statewide unified certification program. These public agencies, commonly referred to as "recipients" of USDOT funds, include municipalities, counties, special districts, airports, transit agencies, and the State Department of Transportation (Caltrans).

The California Unified Certification Program (CUCP) went into effect on January 1, 2002. It is a "One-Stop Shopping" certification program that eliminates the need for a DBE or ACDBE firm to obtain certifications from multiple agencies within the State. A business certified as a DBE or ACDBE through the CUCP is automatically accepted by all USDOT recipients in California.

The CUCP is charged with the responsibility of overseeing the certification activities performed by various certifying agencies, and compiling and maintaining a single Statewide database of certified DBEs. The Database is intended to expand the use of DBE and ACDBE firms by maintaining complete and current information on those businesses and the products and services they can provide to all USDOT recipients in California. Select the "Directory" link on the top to access the Statewide database.

The CUCP certifying agencies are responsible for certifying DBE firms. You only need to apply for DBE certification at one agency. If your firm meets the General Criteria for DBE certification as provided on the Application Package, submit your completed application, along with the requested documentation, to one of the Certifying Agencies serving the geographical area where your firm has its principal place of business.

Small Business Outreach Unit

10 Steps | Preparing to do Business with Metro

The Small Business Outreach Unit is responsible for providing assistance and guidance to small businesses interested in pursuing contracting opportunities at the Metro. The goal of the unit is to maximize small business participation on Metro contracts by performing the following types of activities:

- Coordinates internal and external outreach events and speakers
- Facilitates workshops regarding Metro small business programs
- Responds to public inquiries about upcoming procurement contracting opportunities and provides information as needed
- Develops and maintains corporate sponsorships with small business organizations
- Develops partnerships with public agency small business program representatives and DBE trade associations to coordinate outreach events and keep abreast of small business community activities
- Maintains an event calendar showing relevant small business events sponsored by the Metro
- Establishes and maintains annual budget for education and outreach opportunities
- Develops department marketing materials
- Prepares articles for Metro's newsletters and website

All small businesses interested in doing business with Metro should be familiar with the "10 steps - Preparing to do business with Metro" found above.
