GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
2) Modification to the work may require a change in the quote.
3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
5) All teeth over one complete set will be charge to the contractor.
6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
7) In the event there is an increase in the cost of fuel of more than $0.50 per gallon during the performance of this contract, ABSL will be entitled to a $75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: $500.00 per hour.
9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
10) This proposal to be attached and made part of any and all resulting contracts.
11) The above price does not include permits, fees, bonding, state or local taxes.
12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence.
15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Rick,

Add $2.50 a foot for us to pin upon installation and remove the pins upon k-rail removal. Pins to remain property of KRC. As far as patching I'm not sure what the state would require for that? Is that something you can handle?
