1. Rates for multiple months are Lump Sum (not monthly) except where noted as monthly.
2. First day rate = first month rate (to cover move-in/move-out costs).
3. Can accommodate up to 2 warning lights.
4. Several CalTrans districts now prefer that we install one of these LED Beacons atop all post-mounted signs and, during night work, atop the required portable advance warning signs, rather than using only 2 - 12" beacons at the project perimeters.

S.A.M. Rhodes will provide profilograph testing services utilizing the High Speed Inertial Profiler (HSIP). The Inertial Profiler is equipped with the FHWA's engineering software ProVal which will be used to collect profiling data under AASHTO R56. The profiling data will include the raw profile data, ProVal ride quality analysis reports for IRIR and MRI of each lane, ProVal smoothness assurance analysis reports for both left and right IRI's, GPS data file for each lane, and applicable IP calibration and verification test results. Per the specifications we will perform inertial profiling for each lane except areas as dictated by the specifications which require a 12 foot straightedge. The shifts for HSIP have been determined based on an 8-hour shift for prepave, post-grind, post pave, and final profile with an additional technician to mark sections that do not comply with the specification time per shift.

Item	Description	Rate	Qty	Amount
Weekday Shift	IP Testing Lump Sum per 8-hour shift	\$2,200.00	1	\$2,200.00
Saturday Shift	IP Testing Lump Sum per 8-hour shift	\$2,200.00	0	\$0.00
Sunday Shift	IP Testing Lump Sum per 8-hour shift	\$2,200.00	0	\$0.00

Optional - Localized Roughness Location and Lay-Out				
Inertial Profiler & Technician Services	Inertial Technician to locate and mark out-of-tolerance areas of roughness. Traffic Control is supplied by the contractor. Contractor supplies a person to assist with marking roughness.	\$150.00 per hour	0	\$0.00

Limitations:

Our services will be provided on a lump sum/per shift basis in accordance with the shift rates quoted for Inertial Profiling testing. If Inertial Profiling exceeds the estimated 8 hour shift, additional charges will be charged on a time and materials basis in accordance with the rates listed below.

Overtime, if incurred, will be billed at \$125.00 per hour for time in excess of 8 hours during one day. Work in excess of 12 hours will be billed a 150.00 per hour. The rates will remain in effect throughout the duration of this project. Please note that we provide our services in conjunction with the construction schedule. Any change in the number of days or hours per day will impact our budget. We will attempt to coordinate our services with your project manager to efficiently service the project.

Sincerely,
