6. Efforts made to provide interested DBEs with adequate information about the plans, specifications, and requirements of the contract to assist them in responding to a solicitation. Identify the DBE assisted, the information provided, and the date of contact. Provide copies of supporting documents.

Plans are available for review in our office. Copies of requested pages are provided upon request. CD is provided upon request.

No requests for plans & specs made for this project. (See Exhibit A for Invitation to Bid)

7. Efforts made to assist interested DBEs in obtaining bonding, lines of credit, insurance, necessary equipment, supplies, materials, or related assistance or services, excluding supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate. Identify the DBE assisted, the assistance offered, and the date. Provide copies of supporting documents.

Hazard Construction's Invitation to Bid offers assistance with all of the above, but no requests for these items were made for this project.

(See Exhibit A for Invitation to Bid)

8. Include any additional data to support a demonstration of good faith efforts:

If a company is having trouble with the Caltrans website, I walk them through the process until they are familiar with how to find, copy and/or download plans and specs and how to use the Opt-In area and the General seeking help area. If internet access or printing are limited we offer viewing in our office or a CD with plans and specs sent at no charge. No requests were made.

Hazard Construction has earned awards by Caltrans in 2005, 2009 and 2011 for Utilization of Small Business and DVBE companies.

Hazard encourages all potential Subcontractor and Vendors to offer lower tier companies to assist in meeting goals on all projects.

NOTE: USE ADDITIONAL SHEETS OF PAPER IF NECESSARY.

STANDING QUOTE
FOR CALTRANS LCA

Yes Jason, it is still 650.00 for the Plan and 1800.00 for air monitoring Travel additional if the job is more than 120.00 miles from San Diego, or if up north LA or santa cruz. We are accumulating data on these and I hope to have a "Industry Wide Study" for the Cold Planing work. We just cold plane and go on with life. Control dust with adequate water.

Dan Let me know if you need more info.

Proposal No.: 14-083

Mr. Jason Mordhorst
Hazard Construction Company
6465 Marindustry Drive
San Diego, CA. 92121

Re: Caltrans Contract 11-275504 Route 67 near El Cajon and Santee from 8/67 Separation to San Diego River Bridge

Dear Mr. Mordhorst,

It has been a pleasure discussing the details of the subject project with you and I look forward to any questions that you may have regarding the cost proposal. G3 Quality, Inc. (G3) a **California Certified Small Business**, is pleased to respond to your request for a proposal to provide the required quality control services. G3's principals have over 15 years of experience managing and successfully implementing Quality Control programs on Caltrans projects throughout the state of California. Your Quality Control Manager will be Chris Gerber, an industry expert with HMA pavements and has managed over 100 QC/QA projects consisting of HMA, Rapid strength concrete, jointed plane concrete pavement and all elements of a complex Caltrans infrastructure project. We maintain a Caltrans certified laboratory and employ Caltrans certified and experienced inspectors and testers. G3 Quality, Inc. is AMRL Certified and is qualified by Caltrans to design Superpave mixes and perform Superpave testing. G3 is also signatory to the Operating Engineers Local 12.

Project Understanding:

It is our understanding that the project consists of the rehabilitation of Route 67 near Santee in San Diego County. The specifications require the utilization of Superpave HMA and RHMA which requires quality control on the grade and at the plant. The project typical section includes a 0.35' mill and in lay of HMA capped with RHMA and a .30' grind and in lay of RHMA. Due to this lift thickness, compaction testing and coring for compaction is required in the field. The specifications also require the inertial pavement profiling for final smoothness evaluation. Approximately 360 Cubic Yards of Jointed Plain Concrete will be placed at ramp termini. Quality control testing is required for the JPCP. We have only included Field Inspection and Testing during HMA as required by the Specifications, and are excluding specific Mix Testing and Plant inspection which is assumed to be provided by the materials supplier.

Scope of Services:

G3 Quality is proposing to provide quality control services for the following bid items:

1. Bid Item 36 – HMA Type A Superpave
2. Bid Item 38 – RHMA Type A Superpave
3. Bid Item 40 – Data Coring for Structural Section Evaluation
4. Bid Item 47 – Jointed Plain Concrete Pavement – Rapid Setting

Quality Control Program Fee:

The estimated fee to implement and conduct quality control sampling and testing services for the subject project will be performed for a total estimated fee of:

Total Project Estimated Budget: \$124,098.00

The attached proposal detail itemizes each task item and is presented as either a lump sum per shift, unit rate, or hourly rate. Invoices will reference the invoice code that identifies each task and will be billed as stated on the proposal detail. This proposal does not include Plant Inspection, Mix Testing and Aggregate Testing which is assumed to be provided by the materials supplier. Any services requested not specifically outlined in this proposal will be billed on a time and materials basis in accordance with our standard schedule of fees. The following presents our detailed scope of services included in each proposed per shift rate:

Item 1, and 2 – Hot Mix Asphalt Type A Superpave and RHMA Superpave

G3 will prepare the required quality control programs in accordance with the specifications which will outline the level of inspection required. During Construction, G3 will provide one Caltrans certified technician to perform field HMA or RHMA placement monitoring and field compaction testing with a gauge and pavement coring for production of 1,500 tons per shift or less. If production exceeds this tonnage, an additional technician may be required on the grade. Due to the thickness of the mat (0.15 or greater), compaction testing and coring is required. Plant inspection and testing of aggregates and hot mix asphalt is not included in this proposal. We have included the following mix testing for the HMA Type A and RHMA to monitor, report and test for field compaction:

- 1) Maximum Theoretical Specific Gravity (AASHTO T-209A)
- 2) Gyrotory Compacted Laboratory Maximum Density (AASHTO T-312 and AASHTO T-275)
- 3) Air void calculation (AASHTO T-269)
- 4) Core Laboratory Density for Compaction (AASHTO T-275)
- 3) Hamburg Wheel Track Testing (AASHTO T-324)
- 5) Moisture Susceptibility with Freeze Thaw (AASHTO T-283)

Plant inspection, aggregate and mix testing is not included and is to be provided by the Supplier. The following specific tests are not included, but can be performed by G3 Quality if requested:

- 1) Binder content (AASHTO T-308A)

Production Aggregate Tests:

- 1) Aggregate Gradation of Cold Feeds (AASHTO T-27)
- 2) Sand Equivalent of Combined Cold Feed (AASHTO T-176)

Periodic Aggregate Tests:

- 1) Durability Index of Coarse and Fine Aggregates (AASHTO T-210) 1 – Per 3,000 tons
- 2) Crushed Particles (AASHTO T-335) 2 tests per project
- 3) LA Rattler (AASHTO T-96) 2 Tests per project
- 4) Flat and Elongated Particles (ASTM D4791) 2 Tests per project
- 5) Fine Aggregate Angularity (AASHTO T-304A) 2 Tests per project

G3 Quality, Inc. utilizes SSI to perform the Inertial Pavement Profiling Data Collection. SSI is a leader in smoothness technology and we have a long term working relationship to ensure that profiling is performed accurately to minimize corrective grinding. As an option, we have provided pricing for the inertial profiling work as well as must grind location marking for final smoothness grinding to be performed by others.

Item 4 – Jointed Plain Concrete Pavement - RSC

G3 will prepare the required quality control program in accordance with the specifications which will outline the level of inspection required. During Construction, G3 will provide two Caltrans certified technicians to perform field sampling and testing of the RSC material. An onsite mobile laboratory will be utilized for early age flexural strength testing. A total of 2 sets of 6 beams will be fabricated per shift including two sets of aggregate samples for gradation, sand equivalent and cleanliness value testing. Early Age break results will be reported to your project team immediately at the project site.

Limitations:

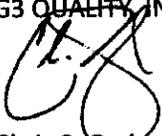

G3 has reviewed the requirements for the proposed services and is proposing to only provide quality control inspection, sampling and testing services for the bid items referenced. Our proposal has been prepared based on our project understanding and conversations with you. It is a total project estimate and is subject to the construction schedule. This proposal does not infer that full time inspection will be performed for all of the work. We have based our services on an 8 hour quality control shift and if work extends beyond 8 hours and additional charge for labor only will apply. The overtime labor rate is \$122.36 for work beyond 8 hours and Saturdays. The double-time labor rate is \$165.6 for work beyond 12 hours and Sundays.

This proposal is based on the 2014 DIR labor rate increase. Should this project extend into the 2015 DIR labor rate determination the hourly labor rate will be increased only by the base wage rate and each year thereafter on June 1st 2015. All other rates and terms will remain for the duration of the project.

Closure:

I sincerely appreciate your invitation to propose our services to you on this important project. Should you have any questions or schedule changes that will affect this proposal, please do not hesitate to contact me at 562.321.9840 or on my cell at 562.522.0078.

Best Regards,

RE: Request for assistance in obtaining qualified and certified DBE Subcontractors and/or vendors

Dear Sir/Ma'am:

Hazard Construction is seeking your assistance in recruiting qualified and certified DBE subcontractors, and material and/or equipment suppliers in the areas of work included in, but not limited to, those listed below:

SUBTRADES: Construction area signs; Traffic control; Temporary Railing(Type K); Erosion Control; remove concrete; Roadway Excavation; Remove pavement striping & marking; remove guardrail; Midwest guardrail system, end anchors, terminal system, crash cushion system; Traffic striping & marking; Roadside signs; AC QC/QA; AC dike; Jointed Plain Concrete Pavement (RSC); Cold Plane AC pavement; Ground Rumble Strip; Minor concrete minor structure; Minor concrete miscellaneous construction, curb, gutter, sidewalk, curb ramps; Miscellaneous iron & steel; Signal and lighting; Class 2 base material; HMA material; Alternative pipe culvert; Treated wood waste.

IMPORTANT! We are an Equal Opportunity Employer. We seek and encourage bids from certified SLBE, ELBE, DBE, UDBE, DVBE, SBE, MBE, WBE and OBE businesses. If your scope of work requires materials, please consider and list suppliers on your quote.

For all public projects Payment and Performance Bonds are required for 100% of the subcontract amount. Hazard will compensate for up to 3% for the required Bonds.

Please contact Hazard Construction Company should you need assistance in obtaining bonding, lines of credit or required insurance, equipment, supplies and or materials. Please visit our website to view Hazard Construction Company's Insurance Requirements for General Liability, Auto and Workers' Compensation for Subcontractors at <http://www.hazardconstruction.com/HCCInsReq.pdf>.

Please forward any information you may have to (858) 587-3600 ext 149 or cchristensen@hazardcon.com.

Thank you for your assistance.
