Proposal No.: 13-009

Mr. Tom Shaddox
Hazard Construction Company
6465 Marindustry Place
San Diego, CA. 92121

**Re: Caltrans Contract 11-402804 RTE 52 in San Diego from 0.5 miles west of Convoy street overcrossing to 0.4 miles west of Route 163/52 Separation
Proposal to provide Quality Control services for Hot Mix Asphalt**

Dear Mr. Shaddox,

It has been a pleasure discussing the details of the subject project with you and I look forward to any questions that you may have regarding the cost proposal. G3 Quality, Inc. (G3) a **California Certified Small Business**, is pleased to respond to your request for a proposal to provide the required quality control services. G3's principals have over 14 years of experience managing and successfully implementing Quality Control programs on Caltrans projects throughout the state of California. Your Quality Control Manager will be Chris Gerber, an industry expert with HMA pavements and has managed over 100 QC/QA projects.

Scope of Services:

G3 Quality is proposing to provide quality control services for the following bid items:

1. Bid Item 64 – Hot Mix Asphalt Type A QC/QA Using the Standard Process

Quality control services will be provided in accordance with the Caltrans Standard Specifications and these project special provisions. G3 has reviewed the requirements for these services and is proposing to only provide quality control inspection, sampling and testing services for the bid items referenced. This proposal does not infer that full time inspection will be performed for all of the work. G3 will prepare the required quality control programs in accordance with the specifications which will outline the level of inspection required. Hot Mix Asphalt services will be provided in accordance with Specification Section 39, not including plant inspection services and aggregate testing at the plant, which is understood to be provided by the materials supplier. We have included the fee for performing Inertial Profiling in lieu of the California profilograph. Inertial profiling is the newly accepted and specified laser profiling system. Inertial profiling can be performed in two shifts and is proposed as such. The project specifications also allow for the optional use up to 25% RAP. This proposal does include the additional testing of HMA utilizing up to 25% RAP. We have the capabilities to perform the additional Hamburg testing which is included in this proposal. All coordination of quality control activities will be managed by Chris Gerber and in strict communication with Hazard Construction's quality and project managers.

Quality Control Program Fee:

The estimated fee to implement and conduct quality control sampling and testing services for the subject project will be performed for a total estimated fee of:

Total Project Estimated Budget: \$41,796.00

The attached proposal detail itemizes each task item and is presented as either a lump sum per shift, unit rate, or hourly rate. Invoices will reference the invoice code that identifies each task and will be billed as stated on the proposal detail.

Limitations:

Our proposal has been prepared based on our project understanding and conversations with you. It is a total project estimate and is subject to the construction schedule. We have based our services on an 8 hour quality control shift and if work extends beyond 8 hours and additional charge for labor only will apply. The overtime labor rate is \$116.10 for work beyond 8 hours and Saturdays. The double-time labor rate is \$154.80 for work beyond 12 hours and Sundays.

This proposal is based on the 2013 DIR labor rate increase. Should this project extend into the 2014 DIR labor rate determination the hourly labor rate will be increased only by the base wage rate. All other rates and terms will remain for the duration of the project.

Closure:

I sincerely appreciate your invitation to propose our services to you on this important project. Should you have any questions or schedule changes that will affect this proposal, please do not hesitate to contact me at 562.321.9840 or on my cell at 562.522.0078.

Best Regards,

Chris C. Gerber
President

**RE: DISADVANTAGED/MINORITY/WOMEN BUSINESS ENTERPRISE
(DBE/MBE/WBE) RECERTIFICATION APPROVAL File No. - 163**

Dear Ms. Espie-Underwood:

We are pleased to advise you that after careful review of your application and supporting documentation, the City of Los Angeles has determined that your firm meets the eligibility standards to be recertified as a **Disadvantaged/Minority/Women Business Enterprise (DBE/MBE/WBE)** as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs and the City of Los Angeles DBE/MBE/WBE directory under the following specific area(s) of expertise that you have identified on the business service form for contracting opportunities:

<u>NAICS Code</u>	<u>Description</u>
541330	Engineering Services
541620	Environmental Consulting Services
541690	Other Scientific and Technical Consulting Services
562910	Remediation Services

Your DBE certification is good for five years from the date of this letter and applies only for the above codes. You may review your firm's information in the CUCP DBE database, which can be accessed at the California Department of Transportation's website at www.dot.ca.gov/hq/bep/ and the City of Los Angeles DBE/MBE/WBE database at <http://bca.lacity.org>. Any additions and revisions must be submitted to the City of Los Angeles for review and approval.

After the five-year certification period, your entire file will be reviewed in order to ascertain continued DBE certification status. You will be notified of the pending DBE status review and any documentation update necessary prior to the expiration date.

The Regulations also require annual updates during this five-year period. In order to assure continuing DBE status, you must submit annually a DBE Declaration with supporting documentation, in the format, which will be sent to you. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until the five-year certification has expired.
