This Proposal Is Subject To All Attached Terms And Conditions

**GENERAL CONDITION:** Unless specifically stated, this proposal does not include any engineering cost, soils testing, plans & inspection fees, permits, bond premiums, traffic control, temporary erosion control devices, dewatering, shoring, grubbing, handling, of buried debris, boulders or rocks, abandoning or removing of wells, cesspools or septic tanks, importing or exporting of dirt, select grading, structural excavation or backfilling, soil treatments for stabilization, sterilization, rodent control, removing existing street improvement and dust control outside of normal working hours.

**COST OF CONSTRUCTION WATER BY OWNER.** Water to be supplied to site at a sufficient quantity for production grading.

**ALL UNDERGROUND LINES ENCOUNTERED WILL BE CUT AND CAPPED, IF NOT IDENTIFIED BY OWNER.**

**ROCK CLAUSE:** One dozer (double shank) was included in this bid. Any additional ripping, blasting, or crushing required to maintain normal production of material suitable for scraper excavation will be considered not within the scope of the contract, and will be accomplished on an equipment rental & ware parts or other mutually acceptable basis. FGEI reserves the right to declare ripped or blasted material "not suitable for normal scraper excavation" because of excessive tire & equipment damage, or reduced production. Rock removal for ditches or subgrades will be done on a rental basis.

**DIESEL FUEL:** Any increases or decreases beyond the bid price of \$3.65 / gal will be invoiced or credited monthly.

**TIRE CLAUSE:** Tires damaged by rocks or sharp objects within the soil will be repaired that day or replaced with equal tire. The cost of the tire and service will be billed to the customer at cost plus 10%.

**NATIONAL STORM WATER POLLUTION PREVENTION PLAN:** Unless specifically addressed as an item of work, the NSWPPP is excluded. If the Owner has developed a specific plan, it can be implemented on a rental basis.

**HAZARDOUS MATERIAL:** The site is to be warranted free from hazardous materials prior to start of our work.

**MEASUREMENT FOR PAYMENT:** Contract work is to be calculated or field measured by both parties and paid at the appropriate unit or lump sum price. Work for which there is no contract unit or lump sum price will be extra work and will be paid at labor & equipment rental plus materials, or at a negotiated price.

**PAYMENT:** Payment schedule will be set up for two billings per month, with payment of 95% due within two weeks of the billing date. The 5% retention is due and payable not later than 35 days from completion of our contracted work. Time and material work, if required, will be paid in full within three weeks of daily billings. No retention held.

**SCHEDULE:** The prices quoted, except for PUC rate increases, are firm to 07-01-12. Prices of work performed after that date will be subject to re-negotiation. THE NUMBER OF MOVES INCLUDED IN THIS CONTRACT IS: 1

## Fax Status Legend

### KeyesFax

#### Status

The Status field lets you know what is happening or what has happened to each fax. There are a lot of different status messages that the system uses, this is what they mean:

#### IMGCONV JQ

The fax is waiting on the IMGCONV job queue to be converted.

#### Converting

The fax is being converted from text form to a Fax image.

#### FAXCOM JQ

The fax has been converted, now it is waiting to be faxed.

#### Cnsolidatd

The fax has been consolidated with another to the same recipient.

#### Scheduled

The fax is scheduled to be sent at the time shown on the far right.

#### Held or \*HOLD

The fax has been put on HOLD using option 3. You can restart the fax using option 9.

#### use Opt 1

The fax has a phone number of \*FAX, \*PBX, or \*LIST with multiple recipients. You can see the details using option 1.

#### Active, Running, Dialing, Connecting

The fax is in the process of trying to connect with a fax machine.

#### Sending

The fax page listed on the right is currently being transmitted.

#### Sent

The fax has been sent. The last page sent is shown under the Page field.

#### Sent?

The fax was sent, but without a confirmation from the fax machine.

#### Will Retry

The fax failed, but is scheduled to retry at the time shown on the right.

The reason for the failure can be seen by choosing option 1 (Details).

#### Resubmitted

The fax had to be started over, choose option 1 (Details) to see why.

#### No Cnctn

The fax system could not connect to the remote fax machine.

#### Lost Cnctn

The fax was transmitting, but the connection was lost.

#### Busy

The phone number called was busy.

#### No Answer

The phone number called rang, but no one answered.

#### NoDialTone

The modem picked up the phone but there was no dial tone. See the detailed description of this error later in these help screens.

## Fax Status Legend

### KeyesFax

#### No Carrier

Someone answered the phone call but it was not a fax machine.

#### Cancelled

The fax was cancelled using the Work with Fax Lines option 7.

#### Bad File, Missing, No Pages, Bad Cover

These messages mean that something was wrong with the original fax image or its coversheet. You will have to recreate the fax.

#### Bad LibL, No ICF File, BadLicense

These indicate that the system has not been installed correctly or the library has been damaged.

#### Com failed, Failed, Bad Modem

These indicate that something is wrong with the communication to the fax modem. Check to see that it is turned on and properly connected.

#### Separating

The program is separating a multi-page spooled file by phone numbers.

#### E-mailed

The fax was converted to an e-mail attachment and was e-mailed.

#### Eml Failed

The fax was converted to an e-mail attachment but failed to be mailed. You must use the Work with KeyesMail screen to determine the cause.

When a failure occurs, you will get a message sent to you that further describes what had happened. A copy of the message is also sent to the FAXCOM message queue and is described below:

#### Excessive line errors

This is caused when the remote fax machine reports that the phone line has caused too many errors on the fax scan lines. When this happens, the system will automatically send the page again. If the remote fax machine again reports too many line errors, this message is reported to you. In most cases, the recipient will be able to make out the entire fax from the 2 copies that they receive.

#### Did not connect

This means that the system contacted a fax machine but could not get a connection with it.

#### Line is busy

This means that the phone line did not ring at the destination. It got a busy signal.

#### Lost connection

This means that a fax machine was connected and the first page was transmitted, but the system lost the connection. It did not get a response from the remote fax machine saying that it had received the page. It must be assumed that the page was not received.

## Fax Status Legend

### KeyesFax

#### No connection or Did not connect

This means that the first page was not even attempted. A fax machine did answer the phone but the 2 systems could not establish a connection

#### Phone Rang, Ringing

While the fax was getting ready to be sent, the phone rang.

#### May not be Class 1 Fax modem

This is caused when the fax system asks the modem what class it is and the modem does not respond correctly. The system issues this message, then Varies OFF the Fax line and Varies it back ON. This usually resets the modem so that it again works properly. If the modem was not a Class 1 modem or if it were malfunctioning, you would get this message 6 times then the system will shut the fax line down.

#### Modem not responding

This is similar to the above explanation.

#### No Confirmation, Not Cnfrmd

At the end of each page a fax machine is supposed to confirm that it has received the page. Sometimes this confirmation is lost, due to an incompatibility with the modem that you are using. In this case, we do not resend the same page. To do so would usually result in the same page being sent, repeatedly.

#### , will retry

When this is added to a message it means that the job has been scheduled to try again in a few minutes.

#### , Job canceled

When this is added to a message it means that the system cannot complete the fax and it is going to stop trying, usually because it has exhausted all of the retries.

#### , Resubmitting

When this is added to a message it means that the system is automaticall resubmitting the job to try to correct the problem.

## Corruption remains a major cost for honest companies

### 30% businesses globally reported losing out on deals to corrupt competitors

Control Risks, the global business risk consultancy, publishes its annual survey of business attitudes to corruption, comprising interviews with 824 companies worldwide.

- Corruption is still a major cost to international business. 30% of respondents reported losing out on deals to corrupt competitors and 30% say they have decided not to conduct business in specific countries because of the perceived risk of corruption. 41% of respondents reported that the risk of corruption was the primary reason they pulled out of a deal on which they had already spent time and money.
- Corruption risks continue to deter investors. 30% say they have decided not to conduct business

in specific countries because of the perceived risk of corruption.

- And corruption is killing deals. 41% of respondents reported that the risk of corruption was the primary reason they pulled out of a deal on which they had already spent time and money.
- But the picture is improving. Companies from countries with tight enforcement report fewer losses than before from corrupt competitors. In 2006, 44% of US companies said they had lost out to corrupt competitors, compared with only 24% in 2015. These figures are echoed for Germany and the UK. 81% of respondents agree that international anti-corruption laws "improve the business environment for everyone".

- However, there is still more to do. The survey shows that there are still wide variations in the maturity of company programmes. In the worst case, conventional compliance approaches can increase risk because they lead to a misguided sense of complacency.

Control Risks' survey reveals companies are now more willing to challenge when faced with suspected corruption. 27% of companies said they would complain to a contract awardee if they felt they had lost out due to corruption, compared to just 8% of respondents in 2006. In 2006, only 6.5% of respondents said they would appeal to law-enforcement authorities, compared with 19% in 2015, with 24% of respondents now saying they

would try to gather evidence for legal action.

Companies feel that international anti-corruption legislation is improving the business environment. Most respondents felt these laws made it easier for good companies to operate in high-risk markets (55%) and serve as a deterrent for corrupt competitors (63%). This was particularly true of companies in developing markets. 79% of Mexicans agree or strongly agree, as well as 68% of Indonesians, 64% of Brazilians and 53% of Nigerians. In the US 54% say tough laws make it easier to operate in high risk markets, while 42% disagree.

In the event that either party becomes involved in litigation, arbitration or any other alternate dispute resolution arising out of or relating to this contract or the performance of it, the court or tribunal in such arbitration or litigation shall award reasonable fees and costs incurred to the prevailing party including attorneys fees, expert witness fees, court costs and other costs arising out of or relating to resolution of the dispute.

**Payments to be made as follows:**

All materials are guaranteed to be as specified. All work to be completed in a workman-like manner according to standard practices. Any alteration or deviation from above specification involving extra costs will be executed only upon written orders and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents, or delays beyond our control. Our worker's are fully covered by Workmen's Compensation Insurance. All property markers must be at the start of construction or otherwise we do not assume any responsibility whatsoever for any fences in their wrong location.

**Notice**

"Under the Mechanics' Lien Law (California Code of Civil Procedure, Section 1181 et seq.) Any contractor, subcontractor, laborer, supplier, or other person who helps to improve your property but is not paid for this work or supplies, has a right to enforce a claim against your property. This means that, after a court hearing, your property could be sold by a court officer and the proceeds of the sale used to satisfy the indebtedness. This can happen even if you have paid your own contractor in full, if the subcontractor, laborer or supplier remains unpaid."

**Clarifications:**

- 1 Contractor is to prepare all work areas so as to be acceptable for our work under the subcontract. HMS will not be called upon to start work until sufficient areas are ready to insure continued work. The Contractor shall furnish all temporary site facilities including suitable storage space, traffic control, temporary electrical and water, and sanitary facilities at no cost to HMS Construction Inc.
- 2 This proposal is based on all work being performed on straight time, based on a normal 8-hour workday, 40-hour per week basis. No allowance is included for any overtime.
- 3 Maintaining the temporary electrical systems does not include temporary relocation of lighting signal and equipment.
- 4 Demo provided as Safe-Off only.
- 5 Any change in sequence or duration will be mutually agreed by HMS and prime contractor prior to acceptance.

- 6 HMS will be compensated by the general contractor for all additional premium time cost due to schedule acceleration.
- 7 HMS will stock pile spoils within 1 mile of our work site. We will not haul or dump any spoils outside of that limit.

**Exclusions:**

- 1 Cost of bond. Please contact estimator for applicable bond percentage if required.
- 2 Construction permits, inspection fees and encroachment permits.
- 3 Caltrans inspection cost for (welding spec 8.3) and any associated travel expenses.
- 4 Utility Company fees & support of existing utilities.
- 5 Temporary power.
- 6 Concrete housekeeping, equipment pads, curbs and bollards.
- 7 Surveying, layout, painting, patching, and landscaping.
- 8 Signing and striping
- 9 Traffic control plans and "K" rail installation
- 10 Removal of spoils and hazardous materials, waste handling or removal, clearing and grubbing.
- 11 Rock demolition or removal.
- 12 Saw cutting, removal, and patching of existing concrete slabs, equipment pads, pole bases, duct banks or asphalt pavement.
- 13 Dewatering and water diversion.
