

CALTRANS
DEPARTMENT OF TRANSPORTATION
DIVISION OF CONSTRUCTION / BID RESULTS LINE
(916) 654-5500

The Division of Construction at Caltrans is implementing a new system for you to call in and retrieve Bid Result information in a quicker and more efficient manner. You will no longer call the Plans Counter number of 654-4490 for Bid Results Information. There will be a new number to call for Bid Results. That new number is (916) 654-5500. This new number and process will be activated on **December 1, 1993**.

We have provided a brief drawing of the process you will go through to hear the bid results of the district you choose. This new process will allow you to enter the Bid Day and District you need results for and hear **only** that district's results. You will then have the option to repeat the information you heard, inquire about another district or disconnect your call. If you enter the wrong option, you may press ***** at any point to take you back to the main or first menu and make a different selection. We hope this

new process will be to your liking.
