General Information

This commercial site is provided by Caltrans, at the option of the contractor for the disposal of excavated materials generated from the Gilman Drainage Safety Improvement Project, in compliance to the following provisions.

SWA @ Mountain Gate Quarry has agreed to accept material from the Gilman Drainage Safety Project; however, no formal arrangement has been made for the disposal of material at this private site. The contractor shall make arrangements with the Manager of the Mountain Gate Quarry prior to use. The contractor is responsible for all liability, agreements, costs and fees associated with using this or any other site.

Contact information:

The commercial quarry is owned and operated by SWA @ Mountain Gate Quarry
Phone (530) 223-6605; ask for the Manager Corkey.

Business Address:

SWA @ Mountain Gate Quarry
20285 Radcliff Rd.
Redding, CA 96003

At the time of this handout, this site was listed on the SMARA 3098 list, as an active SMARA approved site, indicating owner is compliant with all regulations and laws.

The following information was confirmed by a telephone conversation on August 21, 2013 between Russ Irvin, of Caltrans and Corkey, the Manager of the SWA @ Mountain Gate Quarry. Caltrans makes no guarantee that this policy would extend to a future agreement.

Provisions that apply:

- The financial charge to dispose of excess material from this project shall be negotiated between the manager of the quarry and the contractor; the cost to the contractor will be less than the quarry's advertised fee schedule.
- Delivery of material shall to be coordinated with the quarry manager.
- Disposal at this site is intended only for concrete chunks, asphalt chunks or grindings, treated cement base, or earthen material with no steel or Naturally Occurring Asbestos. Estimated quantity is 10,000 CY.
- The State assumes no liability for damage to contractor's equipment. No compensation will be made to the contractor for the handling of non-hazardous man-made material.
- Existing facilities at the disposal site shall be protected from damage by the Contractor in accordance with Section 5-1.36 "Property and Facility Preservation", of the 2010 Standard Specifications.
- The contractor is encouraged to recycle loose steel at either the local landfill or commercial recyclers. In any case reinforcing steel becomes the property of the contractor.
