Submit bids for this work with the understanding and full consideration of this addendum. The revisions declared in this addendum are an essential part of the contract.

Bids for this work will be opened on Wednesday, October 15, 2014.

This addendum is being issued to revise the project plans and the *Notice to Bidders and Special Provisions*.

Project plan sheets 3, 13 and 19 are replaced and attached for substitution for the like-numbered sheets.

In the Special Provisions, Section 10-1.02, is replaced as follows:

"For minor concrete (gutter) and minor concrete (miscellaneous construction) structural section work, at the end of each working day if a difference in excess of 0.15 feet exists between the elevation of the existing pavement and the elevation of the structural section work, that is not separated from public traffic by temporary railing (Type K), place, water and compact material against the vertical cut adjacent to the existing pavement. During the excavation operation, you may use native material for this purpose except once the placing of the Class 2 aggregate base starts; Class 2 aggregate base must be used. Place the material to the top of the existing pavement and taper at a slope of 4:1 (horizontal:vertical) or flatter to the bottom of the excavation."
