**Subject:** RE: Caltrans - Request for Information on Non-Potable Water/Potable Water Source for 2016 Construction Project (EA: 10-1E4101)

Good Morning,

Yes, if the drought is no longer a major consideration and we have potable water available you may purchase from our system for your purpose in 2016.

We have no non-potable water.

The contractor would need to contact me at my office in Cold Springs to make arrangements for the water.

**Importance:** High

Hi Sandra,

This is Jose from Caltrans, here at District 10 Stockton. Have you had a chance to review my email? All I need from you is a response, similar to what you told me, that a potable water may be available dependent on water levels at time construction. And if available what the contractor would have to do to get permit.

If no water would be available that is fine as well as long as I can get a response, so I can document that I tried to make contact.

Thank you Sandra and have a great day.
