Search for currently advertised projects by item nu

Search by itemcode: *Example: 390101 or 39*

Search by description of work: *Example: asphalt or rail*

Access the Bid Item Contract Search from any page on the Office Engineer website. From the search page, you can search by either item code or by a full or partial description of a bid item. In this example, we will search for projects with guard rail, and click the Search button.

Each contract has a link for viewing bidding or non-bidding planholders. In this case, a prime contractor could click the non-bidding planholders list to see a potential subcontractor that would be able to perform the guard rail work. Alternatively, a guard rail subcontractor could see which prime contractors would be bidding the project, and he could use the list he gets to see names and addresses to submit a sub bid to. We'll take a look at what the prime contractor list looks like.
