9-81  **TABLE OF MAXIMUM MOMENTS AND SHEARS FOR P-15 LOAD**

Simple spans, one lane without dynamic load allowance.

Spans are in feet; Moments are in k-ft; Shear is in kips; Forces are maximums

Note: Values given are based on groups of two 27kip axles spaced 4'-6" apart. Values will not agree with computer programs that use groups of single 54kip axles.
