Do not show the sand and aggregate in any concrete section.

Section of timber or lumber

End view of timber or lumber

Cross hatch metal in large scale (1/2" = 1'-0" or more) when two or more pieces are shown. Hatch alternate direction on pieces to clearly define limits.

Avoid shading lines on rounded or sloping surfaces. When needed to clarify a detail, space the shading lines a minimum of 1/16".

A section or view defines the shape more clearly than shading.
