

POSITION DUTY STATEMENT

PM-0924 (REV 7/2014)

CLASSIFICATION TITLE	OFFICE/BRANCH/SECTION	
Environmental Planner (N/S)	NR Div. of Environmental Planning	
WORKING TITLE	POSITION NUMBER	EFFECTIVE DATE
Revegetation Specialist	927-801-4635-xxx	

As a valued member of the Caltrans team, you make it possible for the Department to provide a safe, sustainable, integrated, and efficient transportation system to enhance California's economy and livability. Caltrans is a performance-driven, transparent, and accountable organization that values its people, resources and partners, and meets new challenges through leadership, innovation and teamwork.

GENERAL STATEMENT:

Under the supervision of a Senior Environmental Planner, the incumbent assist in developing and managing contracts for biological mitigation. Incumbent assists in the implementation and administration of contracts both in the office and in the field and provide guidance to various departmental staff. Incumbent perform assigned tasks for the function of the North Region Office of Environmental Stewardship including; plant identification, develop species plant lists, biological monitoring, cost estimates, report writing and other duties related to biological mitigation planting.

Travel will be required including over-night stays. Possession of a valid drivers license is desirable.

TYPICAL DUTIES:

Percentage		Job Description
40%	E	Assist in the development of project specific mitigation plans and revegetation plans, in coordination with other team members such as Environmental Management, Landscape, Project Engineers, Project Management and external agencies. Provide input for cost, scope, and schedule items associated with recommendations for mitigation and revegetation.
35%	E	Assist in developing and managing Interagency Agreements or Cooperative Agreements utilizing California Conservation Corps crews (CCC), Inmate Labor Crews, Resource Conservation Districts (RCD), University Foundations, non-profit organizations and private contractors, etc. for revegetation and mitigation planting contracts. Gather, analyze, review and interpret a variety of data and other information from a wide spectrum of sources in order to determine relationships and effects of proposed projects on existing natural resources. Develop cost estimates, scope of work, implementation and maintenance schedules, secure money, prepare/submit requests for contracts through DPAC and EFIS, process invoices, track expenditures, oversee compliance with contract requirements, request contract extensions as needed.
10%	E	Develop and manage service contracts for seed collection and/or plant propagation. Develop cost estimates, scope of work, schedule for collecting material, out-growing material and delivery dates for plant/seed material, secure money, prepare and submit requests for contracts through DPAC and EFIS, process invoices, track expenditures, ensure compliance with contract requirements, requests contract extension when needed.
10%	E	Assist in quantitative evaluation of monitoring data to determine if regulatory permit requirements are fulfilled. Provide Environmental Management monitoring information as identified in CEQA/NEPA documents and regulatory permits. Maintain biological files, and miscellaneous databases for District use.
5%	M	Attend public and private meetings. Present mitigation projects to public and private groups. Complete Annual Monitoring reports as required for regulatory compliance.

¹ESSENTIAL FUNCTIONS are the core duties of the position that cannot be reassigned.

MARGINAL FUNCTIONS are the minor tasks of the position that can be assigned to others.

POSITION DUTY STATEMENT

PM-0924 (REV 7/2014)

SUPERVISION OR GUIDANCE EXERCISED OVER OTHERS

None.

KNOWLEDGE, ABILITIES, AND ANALYTICAL REQUIREMENTS

Requires working knowledge of state and federal environmental laws as they relate to state and federal transportation projects; principles of ecology; soil preparation, planting and irrigation techniques. Must have working knowledge of California native plants, California ecosystems and native plant community restoration techniques; exotic plant management.

Ability to identify plants using the Jepson Manual or other professionally recognized plant manuals. Ability to gather, analyze, review and interpret a variety of data and other information from a wide spectrum of sources. Ability to present information and ideas effectively both orally and in writing. Ability to provide guidance to work crew in proper site preparation, planting techniques and safety practices. Ability to manage contracts, purchase requests, interagency agreements and cooperative agreements. Ability to work effectively with others as an interdisciplinary team member. Ability to analyze, review and interpret a variety of data and other information from many sources and provide recommendation.

RESPONSIBILITY FOR DECISIONS AND CONSEQUENCES OF ERROR

Failure to adequately plan and implement mitigation requirements of Caltrans projects could lead to legal actions against the State, loss of credibility with other agencies, delays in the project development, permitting and/or construction activities.

PUBLIC AND INTERNAL CONTACTS

Daily interaction with other members of the department as a part of a multi-disciplinary team, both within and outside of the immediate work area. Occasional contact with the public as a representative of the department, resource and regulatory agency staff.

PHYSICAL, MENTAL, AND EMOTIONAL REQUIREMENTS

Must be able to physically traverse variable terrain in the field and lift objects up to 30 pounds. Field conditions require the ability to stay alert due to safety issues involving public traffic. Must possess the ability to work independently, effectively, and efficiently to coordinate multiple assignments and tasks. Must be able to analyze and prioritize work situations and take effective action to resolve problems encountered.

WORK ENVIRONMENT

Will work in a climate-controlled office under artificial lighting 50% of the time. When in the field, fluctuating temperatures can be expected, varying from 30 to 120 degrees Fahrenheit. Variable terrain, dusty atmosphere, and loud noise from traffic and construction sites will be experienced. Work will require employee to travel, which will mandate overnight stays for intermittent periods of time.

I have read, understand and can perform the duties listed above. (If you believe you may require reasonable accommodation, please discuss this with your hiring supervisor. If you are unsure whether you require reasonable accommodation, inform the hiring supervisor who will discuss your concerns with the Reasonable Accommodation Coordinator.)
