

2014 JAMES E. ROBERTS ENGINEERING SCHOLARSHIP WINNERS

GRANT LEE

Thank you to CTF and Caltrans for this wonderful scholarship. I am excited to start UC Davis as an Engineering major. I will work hard and I hope to contribute to improving transportation for everyone.

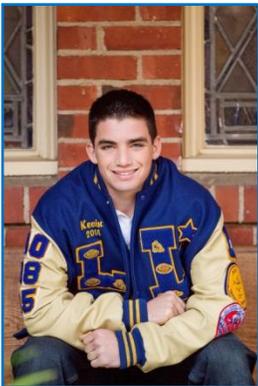

JOHN WORTHINGTON, JR.

I am a 17 year old freshman at CSU Sacramento majoring in Mechanical Engineering. I am also an Eagle Scout and placed in the top ten for high school snowboard slalom racing in California and Nevada. I am very thankful for James E. Roberts and the CTF Scholarship Foundation.

HAMED SALAH

I am 17 years old. I recently graduated from Whitney High School. I will be studying Civil Engineering at CSU Sacramento. During high school, I won the national science award from The United States Achievement Academy and I tutored students in multiple math classes. I decided to become a civil engineer because I have always wanted to design bridges, highways, and buildings. I'm planning to work in Caltrans after receiving my degree in civil engineering.

KEVIN HOLTBERG

This September I will begin attending Cal Poly San Luis Obispo. My intended major is Civil Engineering and I hope to get a minor in Construction Management. I hope to become a Civil Engineer and return to where I was raised in San Joaquin County to work. This scholarship provides a large help in me achieving my goals. Thank you very much for choosing me for the James E. Roberts Engineering Scholarship.

2014 JAMES E. ROBERTS ENGINEERING SCHOLARSHIP WINNERS

KINSLEY REINHART

I am very appreciative of the James E. Roberts Engineering Scholarship I have been given. I look forward to furthering my education at CSU Fresno and am excited to major in Civil Engineering.

CHRISTINA EL DABBAGH

Thank you for this rewarding recognition. I greatly appreciate having the opportunity to receive this scholarship. I will be using the granted money to help pay for my college tuition at UC Berkeley. I plan to follow in my father's footsteps and become a Civil Engineer.

AMANDA FEARN

I am seventeen years old and entering my senior year at Cordova High School in Rancho Cordova, California. My little brother, William, has autism and I am very involved within the special needs community. I volunteer at Challenge Sports, a special needs sports league. I am also employed at American River Speech, where I am an aide to therapists in social training groups. My favorite subjects in school are Mathematics, Chemistry, and Spanish. My top choice for college is UC Berkeley, where I will work towards an M.S. in Civil or Chemical Engineering. I believe that my education will help me to make California a better place.
